HAMPION SAFES Unsuccessful Burglary. LETTER OF MESSRS. DAVID DOWS & CO.

FIRE-PROOF SAFES.

NEW, YORK, April 10, 1869. HEBRING, FARREL & SHERMAN, No. 251-Broadway: GENTS: On the night of the 22d ult. our store; No. 20 South street, was entered, and a desperate attempt made by burglars upon one of

our safes in our counting-room. The key to the safe in which we kept our se urities was locked inside of our fire-proofbook-safe, the doors of which were literally cut to pieces; from this they obtained the key to the other safe and opened it. Forta nately we had one of your Burglar-Proof Bankers' Chests inside, in which our valuables were deposited. This they went to work

at with a will, and evidently used up all their time and tools in vain attempts to force it. The night was dark and stormy, and the fact of their knowing where our key was kept shows that their plans were well matured. They tried wedging the door and oody of the Chest, and the faithful sale bear evidence of the labor and skill devoted to the work. All was useless, and it is with great satisaction we report that upon opening it we found our securities all safe, and can therefore cheerfully indorse the Burgular-Proof work recommended by you.

You will please send the new safe purchased by us to our counting-house, and take the old one to show that some safes are still manufactured worthy of the name. DAVID DOWS & Co.

HERRING, FARREL & SHERMAN, N.O. SARATOGA WATER. STAR SPRINGS

SARATOGA, NEW YORK. The analysis proves that the waters of the Saratoga Star Springs have a much larger amount of solid substance, richer in medical ingredients than any other spring in Saratoga, and shows what the taste indicates—namely, that it is the STRONGEST WATER. It also demonstrates that the STAR WATER contains 100 Cubic Inches More of Gas in a gallon than any other spring. It is this extra amount of gas that imparts to this water its peculiarly sparking appearance, and renders it so very agreeable to the taste. It also tends to preserve the delicious flavor of the water when bottled, and cause it to uncork with an efferveneence almost equal to Champague.
