New York, May 31.—Judge Strong briefly explained that the composition of the General Assembly to meet in Pittsburgh in November would be the same; that the now sitting alternates could not take the place of the principals who satin this body, nor could the alternate who sat resign to the principal. In the cases of vacancies by death or resignation, they must be filled by the Presbyteries by a new election.

Judges Haines and Allison were appointed a Committee on the subject.

The resolutions from the Old Assembly providing for a day of prayer for the preservation of peace with Great Britain were discussed.

Judge Foote favored them. He thought war between these two great Protestant nations would be a burning shame and a great Car the last heat. Sunbeam won in three straight would be a burning shame and a great camaity.

THE JOURNAL of the exiles, Le Rappel, is one of those three-sou dailies, badly printed with grayish ink, and having enormous spaces between the paragraphs, which are characteristic of Paris. The twelfth number lies before us, beginning with an article by Henri Roche-fort. The editor of the Lanterne, perhaps annoyed at the comparative failure of his old paper since it has been in exile, contributes a long, intemperate editorial; his clauses are separated by, instead of the usual dash, a little image of a lantern casting its rays around. For feuilleton Le Rappel has instalments of ance of the sheet is much enhanced by the odd vignettes used to mark off the different paragraphs:—those used in the article on the Electoral Campaign are a drum and beaters, with a drummer-boy for headpiece. Those between

the clipped paragraphs, are in the likeness of VICTORIEN SARDOU having gone to Venice, his absence is improved by the Paris press to furnish biographies of the young dramatist, ver full and betraying great invention. SARATOGA, NEW YORK.

The analysis proves that the waters of the Saratoga Star Springs have a much larger amount of solid substance, richer in medical ingredients than any other spring in Saratoga, and shows what the taste indicates—namely, that it is the STRONGEST WATER. It also demonstrates that the STAR WATER contain 100 Cubic Inches More of Gas in a gallon than any other spring. It is this extra amount of gas that imparts to this water its peculiarly sparkling appearance, and renders it so very agreeable to the tasto. It also tends to preserve the delicious flavor of the water when bottled, and causes it to uncork with an effervescence almost equal to Champagne.
