SERENADE TO THE HON. LEONARD MYERS.—Last evening the Liedertafeld. d. fr. Gem. proceeded in a body to the residence of the Hon. Leonard Myers, Sixth street, above Buttonwood, and serenaded him by singing three

Hon. Leonard Alyers, Sixth street, Rovel The tonwood, and serenaded him by singing three sweet German airs.

George Siegmond, Esq., infroduced Mr. Myers, who addressed the singers as follows: My friends of the Liedertafel, I am almost unwilling to break the silence which succeeds your song, for my voice has no music to give you in return—but thanks are always welcome—and I give you my thanks. This delightful harmony is very pleasant to me. I do not know what prompted your kind visit, but you would be welcome without the music, and are doubly welcome with it. You come from the land of legend and of song, and keep up the customs of the Fatherland. Those customs, those games and songs and holidays have always seemed to me very beautiful. They strengthen the body; they give recreation and purity and holy aspirations to the mind. They take the young from baser pursuits and keep fresh among the old memories of youth. Music and poetry are ours; music has the cadence and rhyme, but poetry is the inspiration. We Americans are borrowing from the Fatherland; we are in the last ten years becoming erland; we are in the last ten years becoming a musical people—yes, a poetical people—a good deal of brains, but still more heart. The good deal of brains, but still more nears. The boy who thrilled at the music of the drum was filled with the sentiment of the flag as he marched to do battle for the Union. Country was higher than all beside. War hardened our nerves, but it softened our souls; and so, when the war closed, the 4th of July, the 22d of February, were still our holidays, but man others came with them, the noblest of all, the others came with them, the noblest of all, that on which we decorate our dead heroes' graves with flowers. National holidays are the well-springs at which the people drink new life—and national games and associations and festivals are becoming American—just as you Germans are American now. The festival of music—the Sängerfest—for which, I am told, you are making preparations, is the most beautiful of all; more so, I think, here than in the Eatherland—for the bird sings more sweetly tiful of all; more so, I think, here than in the Fatherland—for the bird sings more sweetly when its carols are inspired by liberty. You came here for freedom. You have obtained it. Yes, you have helped us to perfect and preserve it. Why should not the songs of free-

dom be the most charming in the world? To me they always are. Let me thank you once more, and if you will come in, I propose to drink your health and bid you a hearty welcome. The American Glee Club, who were present, then sang "The Star Spangled Banner," in the chorus of which all heartly joined.

The assemblage then dispersed. CRUELTY TO DUMB ANIMALS.—The Ladies Branch of the Society for the Prevention of Cruelty to Dumb Animals being fully organ-ized, the agents thereof have commenced work ized, the agents thereof have commenced work in carnest, and a number of arrests have been made. An incident came under our notice a day or two since, worthy of especial mention. An agent of the Society, while passing along Pine street, between Fifth and Sixth, observed a man overloading his cart with rubbish taken from a cellar. A poor little mule was to drag this heavy load a distance of nearly two miles; to a legation now being filled up to the level of the street grade. The agent, who covered his badge, accosted the driver, and suggested that the load was too heavy for the mule. The man replied "that he guessed not, because the cart could be drawn on the passenger railroad tracks the greater part of the distance."

"How about the intervening space below the tracks where the road is heavy." asked

the tracks where the road is heavy?" asked the agent.

"Why, as to that," replied the driver, "guess the whip will make her pull."

The agent at this time made himself known, and at least one-half the load was taken from the cart by his order. A number of people gathered around, and they favored the views of the agent. The lady who had engaged the man to haul the rubbish away made her appearance, and stated that when she employed him he said the dirt would make three loads, at so much per load, which the woman agreed to pay; but instead of making three loads, she had ocular demonstration that it was all piled into one. These facts may be considered legal evidence that the brutal driver intended to evidence that the brutal driver intended to overwork his mule, and to make the lady pay

A number of arrests have been made of drivers treating horses and mules in a brutal manner, which may result in some curious and interesting points in a few days.

We may state in connection with this sub-

ject that Mr. Cullen, the proprietor of the Keystone Skating Park, in the southern section of the city, has kindly consented to allow his park to be used as a hospital for the present, or until the ladies of the society shall be able to select a more permanent place for such pur-

AN ADMONITION TO POLICEMEN.—The following circular has been issued by the Chief of Police:

OFFICE OF THE CHIEF OF POLICE. "Office of the Chief of Police, Philadelphia, June 1, 1869.—The attention of this Department having been called to the fact that some of the officers recently appointed on the Police Force still continue to devote their time to private business, the following paragraph, section 11, of the ordinance of November 15, 1865, is published for their information, and will be rigidly enforced:

"No policeman shall be permitted to engage in any other business or profession whatsoever, and he or they so offending shall, upon due proof thereof, be at once discharged from the service, and shall not be eligible for made reappointment for one year thereafter."

LARCENY OF CARPET, John Benson, a colored man, was arrested yesterday afternoon, at Thirteenth and South streets, while attempting to sell two large rolls of carpet. He was unable to give a satisfactory account of how he got possession of the carpet. He was committed for a further hearing by Alderman Collins. The earnet awaits an owner at the Seventeenth District Police Station.

PASSENGER RAILWAY ACCIDENT.-John McQuaid, aged five years, was run over by a ear on the Union Passenger Railway, at Twenty-fourth and Brown streets, yesterday afternoon. His legs and arms were badly bruised. He was taken to his home, No. 733 Bucknell street.

EARLY CLOSING.—We learn that the principal piano manufacturers and dealers have agreed to close their places of business during the months of June, July and August at 5 o'clock, and on Saturdays at 3 o'clock P. M. Their example might well be followed by other branches of trade.

STEALING NEWSPAPERS.—Two boys were arrested this morning while engaged in stealing newspapers from the doors of houses in the neighborhood of Broad and Walnut streets. They had in their possession 12 copies of the Press, 50 of the Ledger and 20 of the Age. The juveniles will have a hearing this afternoon, at the Central Station.

Connection.—The statement made in this column to the effect that the whiting factory which was destroyed yesterday morning in the Seventeenth Ward, was insured for \$2,500 in the Enterprise Insurance Company, was a mistake. The officers of the company assure we that our reporter was misinformed.

THANKS TO POLICEMEN.—Mayor Fox has received a letter from the Executive Committee of the Alumn of Girard College, thanking the policemen under Day Sergeant Adam Reese for their services on the occasion of the recent anniversary celebration.

ACCOMMODATION WITH A VENGEANCE.— There are canvassers scattered all over the city and others visiting the neighboring towns, and still others with teams calling at every farm house, soliciting, urging and almost compelling people, by their very importunities, to purchase certain lock-stitch sewing ma-

chines.
This may all be well enough, for how otherwise could they sell so many of their labor-saving instruments? What we have to object to is not their indefatigable zeal, but the impositions they practice in their dealings with the poor.

They magnanimously (?) offer to "accommodate all such persons as are unable to pay cash for machines by selling to them upon "easy terms," but in all such cases they charge five dollars extra. Only think of it! Five dollars for

Let ussee who are the accommodated parties —those who sell or those who purchase ma-chines upon these terms? A reasonable and a proper margin of profit was established by monufacturers when they fixed the price of, say the plain machine, at fifty-five dol-lars (\$55.)

A-poor woman, however, engages to pay for this style of machine sixty dollars \$60), in say five installments, as follows: Twenty dollars (\$20) down and ten dollars (\$10) each succeeding month. The average time for which she has a credit of forty dollars being, as will be

seen, just two months.

The brokers of Wall street sometimes charge two per cent a month for the use of money, and are called gamblers, thicves, blacklegs,

But here, right in our own midst, poor women, scarcely able to buy bread for their families, are charged at the rate of six and one-quarter per cent. per month.

Will the Christian community tolerate such extortion with scaled lips?

JUSTICE.

WILLCOX & GIBBS improved Family Sewing Machines are LOANED free of charge, and when approved, are sold on easy monthly payments, at the manufacturers' prices.

No charge for an accommodation is ever made at 720 Chestnut street.

Organ Opening.—A large congregation assembled last night, in St. Malachi's Catholic Church, Eleventh street, above Master, Rev. John Kelley pastor, on the occasion of the John Kelley pastor, on the occasion of the opening of a new and splendid organ, just completed by Messrs. H. Knauft & Son, of this city. The instrument possesses great power, as well 18 unusual sweetness and purity of tone, and will doubtless give satisfaction. Its dimensions are as follows:—24 feet wide, 12 feet deep, and 25 feet high. It contains three sets of manuals, reaching from CC to A, 58 keys, while the pedals are full two octaves from CCC to A. The design of the case is very handsome. The entertainment of last evening was simply the introductory and formal opening of the instrument; but on next Thursday evening it is to be folbut on next Thursday evening it is to be followed by a grand vocal and instrumental concert, at which the beauties of the instrument will be more fully developed.

UNPRECEDENTED SUCCESS.—We understand that the National Life Insurance Company of the United States of America, branch office in this city, of which Messys. E. W. Clark & Co. are the General Agents in this locality, have issued between 5,000 and 6,000 policies since last fall, securing to their assured more than sixteen millions of dollars. Such success shows the popularity of this organization. The eash capital is one million.

POINT BREEZE PARK.—On Wednesday next there will be a race between horses which have never beaten 2.31; mile heats, 3 in 5, to harness. The entrance fee will be \$50. The entries will be closed at noon on Wednesday next.

#### CITY NOTICES.

THAT NEW STORE.—We noticed in yesterday's Bulletin, that George C. Bower would open his "New Brug Store," No. 406 Chestnut street, to-morrow (Saturday) morning. We now urge those of our readers, who desire a glass of good soda reater, m de by his improved process, to go to Bower. Persons and families about going out of town can have medicines, etc., nicely put up for them. There is to be found at this store a splendid stock of toilet and fancy articles of every doscription.

A WORTHY SON OF ST. CRISPIN.—We presume there are but few of our citizens who have not heard of the merits of the flue. Boots and Gaiters made by WILLIAM H. HELWES, the accomplished cordonnier, at No. 635 Arch street, next to the corner of Sixth. The highest encominus which have been lavished upon him do not, by any means, overrate the beautiful work of this meritorious artist. We are firming the opinion that there is no botter bootmaker in the country than W. H. HELWES, and a glance at his order-book will exhibit the names of the first gentlemen of our city, who doubtless entertain a similar opinion.
