Mr. Colfax, with his wife, is spending a week in visiting some personal friends in various parts of New England. They came up over the Housatonic Road to Pittsfield, on Friday, from New York. Though his presence was not generally known upon the train even, the people of Great Barrington and Lee had somehow learned of his intended passage, and gathered in numbers at their respective depots to greet him. He addressed a few words to the crowd at each place. The government market was weak in the carlier, portion of the day in response to the lower quotation for
gold in the forenous, which opened on the street at 131%.

The change later in the day corresponded almost pretisely with that in gold also, and great buoyancy was
communicated at the close by a slight improvement in
London, where, of course; a degline in gold produces thevery reverse of the effect it does here. The market was
very steady in the 60's; which have come to be a true index, for the reason that they, constitute the bulk of the

Monday, June 21.—There is as yet no intimation that there will be a change in the policy which Secretary Boutwell is at present pursuing with reference to his cales of gold and purchases of five twenties. It is true a rumor was started this morning that he intended modifying that policy after the 1st of July; but it evidently originated with one of the cliques so conspicuous to-day in the operations of the Gold Room. Nothing official or definite is known of any change. Mr. Boutwell is expected in the city to-morrow, when probably something may transpire of his views. It is almost certain, nowever, that he has made up his mind to see but his present plan to the end of the fiscal year, which is only nine days off. This, the last week, will narely be the worst in the money market, for the reason that in purchasing \$1,520,000 bonds on Wednesday next he will enlarge his currency balance by about \$550,000 only, instead of \$1,500,000, as heretofore. The street, at the opening this morning, was in some doubt as to the namer in which to accept the bank statement of Saturiary. The large falling off in deposits and the comparatively small decrease in legal tenders, by strengthening he relative reserve of banks were, in some quarters, paricularly by the bullish and hopeful side of the street, researched as tavorable to a relaxation in the interest rate.

The carliest hushness was done at seven per cent. Gold. [From the N. Y. Herald of to-day.]
