From California. SAN FRANCISCO, June 25 .- Senators Wade Conkling and the Committee of Ways id Means of Congress to-day met a number of leading merchants and bankers and the representatives of six Chinese companies of this city. After an exchange of compliments, one of the Chinese representatives made a speech, expressing the hope that the Government would double the subsidy of the Chinese line and run a semi-monthly steamer. He sug-gested that if Congress passes laws giving just protection to the Chinese, it would be the means of inducing capitalists from China to invest their money in this country. He complained of the unjust laws of Cali-fornia, preventing the Chinese from testifying in the courts, and laying a special tax on Chinese miners, collecting \$5 per head from each Chinamau who enters the State. They

were satisfied with our treaty with China, but wanted the protection it promised. He re-commended the members of the committee to converse with his countrymen here, and hoped that on their return they would speak favorably of the Chinese to the Government of the United States. Negotiations have been closed with leading notel managers East for the erection of a grand hotel in this city, to occupy two blocks, bounded by Market, Montgomery, South Second and Jessie streets. The buildings north and south of Stevenson street will connected at each story by covered bridges. The ships Isaac Jeanes and Moseth collided the harbor last night, and both were considrably damaged.
