The New York Money Market.

[From the New York Herald of to-day.]

Tuzspax, July 6.—While the markets were generally dull to-day, a great deal of interest was manifested in the course of the money market, the opening signs of which this morning were scrutinized with more than usual curlosity. It was felt that the time had come either for a relaxation of the severe stringency which prevailed up to the eve of the Fourth or for a general sale of stocks to avoid the accumulation of interest which this stringency has entailed. The earliest rate for money was about a sixteenth per cent., and the great volume of business up to half-past two o'clock was doneat this rate and at an eighth. The demand became more active about three o'clock, when as high as a quarter was paid for some small amounts, but the prevailing figures were an eighth and interest at three-sixteenths. The fact seemed to satisfy the street that the money market, despite the heavy government purchase of bonds on Saturday, was still succeptible of speculative manipulation. The stock gamblers have grown desperate in their schemes, and are pursuing the market with relenting the market wit states of Thermoneter This Boy at the Balletin Management of the State of Thermoneter This Boy at the Balletin Office.

The continued stringency in money had marked effect upon values again to-day, and Wall street virtually capitulated after a long and stubborn resistance. There was a genera outpouring of long gold and stocks, and for a time the depression was very great in all de-partments. The pressure of sales produced a further general decline in prices.

GOVERNMENT PURCHASE OF BONDS An Unfounded Report in Circulation ducation in the District of Columbia

Illness of Commissioner Capron The New Fractional Currency [Special Despatch to the Phila. Evening Bulletin.] THE GOVERNMENT BOND PURCHASES.

Washington, July 7.—Reports are circuating on the streets that the Secretary of the Treasury is about to order another heavy pur-chase of bonds; and as it is probable they may be sent out to influence the money market, it is proper to say that he denies having given anybody the least hint of what his purposes He says it is no part of his business either to confirm or contradict the reports set on foot by outside parties, and that he will make his intentions known in but one way, viz.: Through the the Sub-Treasurer at New York, in the manner heretofore pursued. The report in question seems, therefore, to have for its foundation nothing more than the speculations of irresponsible persons, who are entirely without information as to the Secretirely without information as tarv's views. EDUCATION IN THE DISTRICT OF COLUMBIA.

Commissioner Barnard, of the Educational Bureau, will issue his elaborate report on educational matters in this District in a short time. It is delayed in the Government Printing Office, the copy having been furnished weeks ago. It will make a volume of over six hundred pages, and is unquestionably one of the most complete and valuable documents ever prepared under Government supervision. ILLNESS OF COMMISSIONER CAPRON. Commissioner Capron, of the Agricultura Bureau, has been quite unwell for some time, and has lately been confined for several days to his room. He leaves the city for rest and NEW FRACTIONAL CURRENCY. The Treasury Department expects to have its new fractional currency of the ten cent denomination ready to pay out by the end of next week, and the fifteen and twentynext week, and the fifteen and twenty five cent notes by the end of the month. The delay in getting out this money is said to be due to rain storms, which prevented the
