GENERAL QUESADA TO GENERAL LETONA. Bianno, June 14, 1869.—General Antonio Lopez dong: It is now some time since that the Spinish troops in different points of the isle lieve carried on a war opposed to all ideas of modern civilization. The murder of old men, women and children, the mutilation of dead bodies, and the assassination of parties bearrocaes, and the assassination of parties bearing flags of truce, the sacking and destruction of property of inoficusive citizens, and other deeds which the pen refuses to put upon paper, and the slamelessness of cortain acts ordered to be committed by the Generals, Valmaseda Mara Lamela, Goyenecke, and others, have the control of the have followed each other in such rapid succession as to have become a scandal upon civilision as to have become a scandal upon civilization and a stain upon the nation to which you belong. Really your antecedents in Spanish polity, in the relations which it sustains to this country, led us to suppose that your conduct would have been very different from that observed by your predecessors. But I am pained to say, that the column which left Gamaguey on their way to Cuba, did, going and coming, commit acts equal in barbarity to those committed under the auspices of the former named officers. A family, which had retired to the woods, frightened at the approach of our troops, as was which had retired to the woods, fright-ened at the approach of our troops, as was natural, was persecuted by various individu-als of the mobilized forces, who succeeded in als of the mobilized forces, who succeeded in seizing a child of 12 years, and manifested their madness of disposition in the way of assassination by striking him seven times with the machete, yet miraculously did not succeed in killing him! How is this? Did you authorize such acts? Do you wish to use the volunteer force in the same way as your predecessors did? I wish to know, my dear Sir, because, being as I am at the head of my country's army; I desire to war, against Spanish domination until our oppressors are driven army, I desire to war, against Spanish domination until our oppressors are driven into the sea, but I do not wish to pursue a course opposed to that practiced by enlightened peoples. I have given proofs of this, and especially in the pardon of 127 Spanish prisoners, among whom were ten officers, and who were taken in a rout suffered by one of your columns on the 17th of April last, while on its way from Minati to Tunas. This is a proof that our government invites our enemies on its way from a that to trans. The proof that our government invites our enemies to the exercise of a proper conduct and the

to the exercise of a proper conduct and the carrying on of a war upon civilized principles. And for this reason I promptly gave up these political prisoners who had fallen into my power. To resume, and reserving the right to adopt whatever conduct in the other States of the island may be practiced by the Spanish chiefs therein, I invite your Excellency to let me know what are the rules you propose to adopt, in this regard, in the State of Camaguay. If you suppose I have exaggerated the account given to you with regard to the child spoken of, I propose to send it to you to be questioned. His name is Fructuoso, and if you entertain the sentiments which, I repeat, your antecedents name is Fructiosa, and it, you entertain the sentiments which, I repeat, your antecedents induced me to suppose you did, let me know that the war is to be carried on it the territory occupied by your troops in the regular civil ized node. I embrace this occasion to offer to you the assurances of my highest consideration. MANUEL QUESADA.

RLAIR AT LONG BRANCH.

His Attempted Apology for His Conduct.

An officer who was present at the Loug-Branch banquet when Blair insulted the company writes to the Tribune:

1. Sir: In the World of this morning is yet another explanatory letter from Mr. F. P. Blair in relation to his well-laid attempt to be again brought into notice. If I remember aright Mr. Blair has already become somewhat fomous as a writer of explanatory letters. In aright Mr. Blair has already become somewhat famous as a writer of explanatory letters. In this case, however, he makes a sad mistake in not allowing the most charitable view to be taken of his conduct on the 8th inst. Among his other Linfumities Mr. Blair is somewhat forgetful. The record of his speech is in my possession as Secretary of the Society, and I wish to call his attention to it. He says: "I will speak for a people who were once our enemies, against whom we contended, and whom we aspersed as Rebels." Now, Mr. Blair is not ignorant of the use or meaning of the English language. "Asperse as Rebels." Is it an aspersion to call a person by his right name? There were Rebels, bitter, cruel and vindictive, and the soldiers of this country are not to be insulted by being told that they are "aspersing" them by being told that they are "aspersing" them if they say so. This delicacy is the delicacy of a sensitive politican who hopes for their suf-trage and fears their enmity. The eulogy of Lee and "Stonewall" Jackson following in such close connection and in such an unhappy comparison, could not be misconstrued by the most stupid person. Mr. Blair in his ficart, no doubt, regrets, his bunder, which, in this case, was worse than a crime.

was worse than a crime.

'The "apprehension that these army remions were being used as Radical stalking-horses" can be easily allayed, if his Lethean forgetfulcan be easily allayed, if his Lethean forgetfulness will not prevent his remembering that the Constitution of the Society expressly precludes the discussion of politics, and its rigid enforcement in his particular case by Admiral Farragut should have quieted him forever on this point. There is no man connected with the Society who ever held a political office, who wants a political office, or who through fear that he can't get one is afraid of calling a Rebel by his right name. Neither will they allow politicians, Democratic or Republican, to call them to account for "aspersing Reallow politicians, Democratic or Republican, to call' them to account for "aspersing Rebels," especially if the remark is illustrated by comparing Lee and "Stonewall" Jackson with Farragut and Sheridan, who were also our guests and were then sitting with us at our own table. Mr. Blair should recall his classical reading and Fremember Philip, the King of Macedon, who in his most desperate condition was sagacious enough to be aware of his two-fold character, and allowed an appeal from one to the other. The charity of the Society of the Army and Navy of the Gulf is with Mr. Blair, but the Society cannot be held accountable if its hospitality was too generously appreciated by its guest.

FROM NEW YORK.

New York, July 13 .- A sharp riot occurred in the Bowery last evening, between a party of Orangemen who had been celebrating the anniversary of the Battle of the Boyne and some Catholic spectators. The melee became very fierce and general at one time, but the police managed to restore order after some twenty or thirty persons were injured, none of them very seriously.

One hundred guns were fired in City Hall Park yesterday by order of the Mayor in honor of the yacht Dauntless, which has just arrived at Queenstown after a run of twelve days, seventeen hours and six minutes from

Accountants have been busy recently counting the assets in the Sub-Treasury of this city, the occasion being the installation of General Butterfield as Assistant Treasurer. The currency notes and gold pieces were all counted, dollar after dollar, and the gold bars were weighed, the whole footing up \$102,727,648 29. One of Colonel Ryan's Cuban command has escaped from the encampment on Gardiner's Island, and, with two or three others who have become discontented with the way things have become discontented with the way things were arranged, has come on to this city. These men say that they have been generally enjoying themselves on Gardiner's Island, but that ill feeling had been "engendered between Colonel Courrier and a portion of the recruits from Virginia, owing to the Colonel's political sentiments. I went away and was gone about five minutes, when I returned, and all were gone. The man dressed in light cap, dark coat and light pants, came running from the creek, and he passed me and ran down Girard avenue; the policeman then came up, and we searched for the man then came up, and we searched for the German at the creek; the noise I heard was like that of a man choking; I could not say that any one of the prisoners was the man I saw running; about five minutes after the man had got into the creek, Peter Engle, Martin Fredericks, and three others, came there and said they heard a noise and came to see what was the matter; I am confident the deceased was the same man I saw on the step. Martin Fredericks, one of the prisoners, testified—I saw this German first after halfpast 12 o'clock, under the lamp post, on Girard avenue, between Cherry and Vienna streets; saw him and Morris Flager, one of the prisoners, in company; they came across the avenue, and amused the crowd by talking German; he had on light pants, light vest, and dark cao; after amusing the crowd, which consisted of Dan Denner, James Nevlin, Chas. PUBLIC DRINKING FOUNTAINS.—There has been erected by the Philadelphia Fountain Society, and now in full operation, five granite fountains—one on Walnut street; two in Independence Square, on Chestnut street; one in Archstreet, between Front and Delaware in Arch street, between Front and Delaware avenue, and one in Dock street, below Walnut. There are also in hand, two in white marble, one in granite, one in Ohio brownstone, and two in iron, all of which are under contract to be finished before the middle of August, making, in all, thus far, eleven fountains, to which others are expected to be added during the present month. The great advantage derived by the public from these fountains is shown by a count made at the Walnut street fountain on Saturday last, when 1,365 tains is snown by a count made at the Walnut street fountain on Saturday last, when 1,365 persons and 321 horses drank between seven o'clock in the morning and seven o'clock in the evening. Taking this as the average, the five fountains now in use would water 6,825 persons and 1,605 horses in twelve hours, a blessing heretofore unknown in Philadelphia, and one for which all aboves of our different and one for which all classes of our citizens ought to feel grateful. Dr. W. C. Swann, President of the Society, in a communication, says:
"We are appropriating the money contributed to this object to the best advantage; but it should be recollected that our city covers a large area, and requires a heavy expenditure to satisfy the demands that are daily pressing upon us. We, therefore, cumot anneal too strongly to the liberality of all our citizens to aid us in this noble work, and we promise them that the fountains will be multiplied in pro-

portion to the means entrusted to our care. portion to the means entrusted to our care. It the religious and other associations, the markets, the public institutions and the advocates of temperance would aid us in this great charity, we would put a large number of fountains in hand this coming winter, and have them-ready for service in the spring; and we hope this subject will commend itself to the favorable consideration of the benevolent and philanthropic."

Fire in a Church.—This morning, about half past 11 o'clock, a fire broke out in the Third Reformed Church, located at the north-cast corner of Tenth and Filbert streets. The flumes first appeared in the organ in the gallery at the west end of the church building, and burned rapidly through to the root. The fire then worked its way between the ceiling and

then worked its way between the ceiling and roof, through the entire length of the structure, and burned stubbornly for nearly an hour, before it could be subdued by the firemen.

The organ was completely destroyed, and owing to the difficulty in getting at the fire, the building was flooded with water. A portion of the ceiling fell in. The organ cost \$4,000. It was insured for \$1,500 in the American Insurance Company.

The church edifice is badly damaged throughout. It will probably require an expenditure of \$5,000 or \$6,000 to put it in good condition again. The loss is fully covered by insurance in the American.

The origin of the fire is mysterious. The sexton says that the building was entirely

Interesting Exercises at the Lincoln Institution.—To-day the State Examining Cemmittee, consisting of Col. George F. McFarland, Superintendent of Soldiers' Orphans, and Mrs. E. W. Hutter, the Lady Superintendent, visited this Institution, and examined the classes of the 2d and 3d grade. Mr. F. Wells and Miss Mary McHenry, Managers of the Lincoln Institute; Prof. Deans, of Chester Springs, and Prof. Kennedy, of Mount Joy; also, Misses Walk, Greene and Heyl, of the Northern Home, were also present and participated in the exercises, which were interesting and highly creditable to the boys. Before their dinner the boys sang a number of pieces with great spirit. The examination is still going on. The grades will appear hereafter. The Chester Springs School will be examined to-morrow.

RECOGNIZED.—The body of the German found in Gunner's Run on Sunday morning has been recognized as that of John Graff. He was a married man and resided with Wm. Roedsch, No. 528 West Girard avenue. He left his home on Saturday evening, and as he was departing he handed a number of articles to Mr. Roedsch with the remark—"The next time you see me you will see me in the water." The snuff box found belonged to the deceased, and as the evidence before the Coroner's jury to-day showed that it had been seen in possession of one of the prisoners, it is inferred that Graff had been robbed and ran into the creek while attempting to escape from his assailants.

Closing Exercises.—The Roberts Vaux Consolidated School for Colored Children, situated in the Twelfth Ward, closed yesterday. The exercises, consisting of recitations, singing, music, &c., were very entertaining to the large number of visitors present, among whom were Mayor Fox, several of the directors of the section, and parents of the children. His Honor the Mayor addressed the scholars in a very appropriate speech, impressing upon their minds the great advantage of their being vigilant and attentive to their studies. The school is in a very flourishing condition, and the scholars are improving rapidly under the guidance of Jacob C. White, Jr., principal, and Miss Margaret Masten, assistant.

FOUNDLING.—A male child, seven weeks old was left in the vestibule of the house of B. F. Holl, No. 2115 Green street, last evening, between 8 and 9 o'clock. The Japanese Colony and Tea Culture. [From the San Francisco Alta, July 3.] Herr Schnell and his Japanese are in fine Herr Schnell and his Japanese are in fine spirits. The rapidity of the growth of the three-year old mulberry trees which they brought across the Pacific and planted some weeks ago is already astonishing. They have put out a great quantity of the seed-nuts of the tea plant, which are coming up finely. This is the beginning of a new and important industry. There is no doubt, Herr Schnell says, of the much better adaptability of our foothill lands to the culture of tea, as compared with Japan. Next year some trees will bear plucking, as they will be then four years old, and the quality of the beverage will be proved. As a rule, flavor, in fruits and four years old, and the quality of the beverage will be proved. As a rule, flavor, in fruits and vegetables, tends to delicacy rather than strength in this climate, and this tendency, though objectionable in fruits and berries, is favorable to tea. The finest qualities of tea come from the highest uplands of China and India, where snow lies sixty days in winter. In North Japan, whence this colony brought these plants, there are deep snows in winter. The higher we go up on our Sierra, the finer will be the flavor of our teas.
