[Special Despatch to the Phila. Evening Bulletin.] NEW YORK, July 22.—Money works easy, with little demand. The general rate on call is 6 per cent. on stocks, and 5 per cent. on gov-ernments. Gold has been less active, but the market is maintained by the shorts, assisted by the short maintained by the shorts, assisted by the ship-ments. Some round lots of long gold were sold by parties, evidently with the intention of changing their base. The bears are in the ascendant, and the general feeling is toward lower prices lower prices. The Government sale of one million in gold The Government sale of one million in gold was on an average of 135.23. As soon as the shipment ceases the market will rule lower, as that is its only prop. In the stock market, and, in fact, in all the markets, there is a prevailing dullness, with little reliance placed upon opinions. There are no special features, and the quotations are steady at yesterday's prices, with less inleina-tion to speculate.
