The French Cable. Duxbury, Mass., July 26, 1869.—The whole of to-day has been occupied by the French cable electricians in tests and experiments. St. Pierre and repeating from there to Brest has also been tried. In the latter case about has also been tried. In the latter case about twenty-five words per minute were transmitted, and on working direct to Brest eighteen words per minute were easily sent. Sir James Anderson arrived this morning, and after witnessing the working of the cable, expressed himself satisfied beyond anticipation. Count de Faverney, the French Charge d'Affaires, and Mr. Watson, the American areas of the cable company (were also purson). agent of the cable company, were also present during the successful experiments.

During the day a message was read from the Secretary of State, giving assurance that no interference with the working of the cable

interference with the working of the cable would be made on the part of the government, and that business could commence at any time. The communication was immediately forwarded verbatim to the president of the company in France. Notwithstanding this action on the part of the government it is hardly probable that the cable will be ready for business before several days. The land line between here and Boston, where it is connected with New York via the Franklin line, will not be finished before. he Franklin line, will not be finished before the middle of the week, but the ground or trench cable between the Hummock and the office in Duxbury village will be completed at an early hour to-morrow morning, and then messages will go and come direct from the Bank Building to the extreme foreign end of the cable, the station at the Hummock being creely attended, and formal messages of con-tribution will probably be exchanged be-tween the leading representatives of the

American and French governments. FINANCIAL AND COMMERCIAL Philadelphia Stock Exchange Sales.

This one-sided opposition disproves the false allegation, and is a practical confession that the Democracy cannot maintain itself, except by cheating and violence at the ballot-box. Councils to defeat the operation of the Registry law, by refusing to vote the necessary appropriation, have come to grief at the hands of the Court of Common Pleas. The two Democratic City Commissioners having carried their qualms of conscience before Judge Peirce, have been treated with a degree of judicial politeness and concession, which, although it verges very closely upon the ironical, is doubtless quite sincere on the part of the worthy Judge. His allusions to the rectitude of their motives, the delicacy of their position, made and provided for such occasions. But cratic Commissioners, Judge Peirce proceeds to solve their doubts with a brevity and cleverness that must have been most consolatory to their disturbed minds. New York, July 27.—The money market is easy at 6 to 7 per cent. on call. Foreign exchange is weaker. Prime bankers lowered their rates to 10a10½ for sixty day bills. Prime sight, 10½a10½.
Gold opened strong at 137½a137½, under the decline in bonds in Loudon; afterwards the market became weak on the fall in exchange, and declined to 136½, which was succeeded by a rally to 137äa137½.

Loans are made at 5a7 per cent. for carrying. Government bonds are active and decidedly better, on the general anticipation that the purchase of bonds by the Treasury will be continued next month.

Sent continued next month.
