# THE DAILY EVENING BULLETIN-PHILADELPHIA, SATURDAY, AUGUST 14, 1869.

#### CITY BULLETIN.

The SECRETARY OF THE NAVE AT THE NAVY YARD,—Last evening; about five o'clock, the steamer Tallapcosa, having on board the Secretary of the Navy, Hon. George M. Robe-son, Vice Admiral David D. Porter, and their families; arrived at the Navy, Yard, and was received with a salute of seventeen guns from the receiving ship, and cheers from the men on Tward. on tourd.

on Conimodore Marchand, the commandant at the Navy Yard, accompanied by some of the Yard officials, was in waiting, and on the land-ing of the Secretary and Admiral Porter, wel-comed them; but no formal ceremonies took

comed them; but no formal ceremonies took place. The Secretary and Admiral Porter then took a carriage, which was in waiting, and drove to the Continental Hotel, for the purpose of inceting General Sherman, but the General was out visiting with his daughter. Secretary Robeson and Admiral Porter subsequently re-turned to the Yard, where they remained all might aboard the Uallapoosa. At seven o'clock this morning the Secre-tary and the Admiral, accompanied by Com-modore Marchand, made an inspection of the Yard. At half-past ten o'clock the Secretary received the officers of the Yard and Station in the Commodore's office. The visitors will leave for New York this afternoon, stopping at League Island to make an inspection of the iron-clads. They go from New York to New-port; thence to Boston; thence to Portsmouth, N. H., and thence to Eastport, Me., at which point the trip will terminate. General Sher-man, accompanied by his daughter, went on heaved this morning and will semein with the point the tripwint terminate. General Sher-man, accompanied by his daughter, went on board this morning, and will remain with the distinguished party until the close of the cruise. The visitors were called upon this morning by ex-Secretary Borie and Commodore Steedman.

dore Steedman. THE WATER QUESTION.—Philadelphians are noted for their cleanliness, and strangers visiting the city are always struck with the fre-quent washing of pavements and window-shutters. Notwithstanding the scarcity of water in the Schuylkill river at the present time, and the request of the Chief Engineer of the Water Department that the water shall be used sparingly, the old practice of pavement-washing was kept up to a considerable extent this morning. In many localities the water was used in a very reckless manner, and in view of the low state of the Fairmount reser-voirs, it might be well for the Mayor to in-struct the police to prevent such a wasteful use of the water. use of the water.

use of the water. THE MAGUIRE SHOOTING CASE.—William Leckfeldt, who was charged with assault and battery on James Maguire, with intent to kill, had a further hearing before Alderman Kerr this morning. It will be remembered that Maguire was shot by Leckfeldt at the house of the latter, in St. John street. Dr. Morris Longstreth testified that Maguire has so far recovered from the effects of his wound that his life is no longer considered in danger. The magistrate t<sup>n</sup> n admitted Leckfeldt to bail in the sum of \$2,000. Morris Bischoff, No. 452 St. John street, entered the necessary security, St. John street, entered the necessary security, and the defendant was discharged.

and the defendant was discharged. JUVENILE THIEVES.—Hugh Duffy, aged 15 years, and William Williams, aged 9 years, were arrested yesterday by Policeman Grook, for the larceny of spools of silk from Horst-mann's factory at Fifth and Cherry streets. The spools, in boxes, had been placed in front of the windows, and the boys were engaged in getting it out by means of sticks, when they, were observed by the officer. They had already secured one box of the silk. The thieves were committed for a further hearing by Ald. Toland. by Ald. Toland.

SUPPOSED THIEF.—A man named Charles Kuntz engaged lodgings at the Metropolitan Hotel on Arch street, near Seventh, yesterday Hotel on Arch street, hear Sevenin, vesterday afternoon. Last evening he was found se-creted in the room of another boarder. He was arrested, and at the time had on his per-son some newly-made skeleton keys. The prisoner will have a hearing, at the Central Station this afternoon.

SUICIDE OF A WOMAN .- An unknown white woman, apparently a German, very nicely dressed rushed out on the second wharf be-low Vine street, and plunged into the Dela-ware, about nine o'clock this morning. The ware, about nine o clock this morining. The captain of a vessel lying in an adjoining dock observed her struggling in the water, and sent a boat to her assistance, but the woman sank before she could be reached. THE INCOME TAX.

The Prospective Abolition. The Westchester Republican is responsible for the following: It may not be generally known, though the fact will be of interest to most income tax-payers, that, as the revenue law now stands, the fax on incomes will cease to be collected for nort year. after next year. An amendment to the 149th section of the law adopted in 1867 is as follows:

"That the taxes on incomes herein imposed shall be levied on the 1st day of March, and be due and payable on or before the 30th day of April in each year until 1870, and no longer.

Unless, therefore, Congress by special en-actment extends the operation of this law, the income tax-gatherer will be unknown in this country after 1870.

## The Cyclone of 1864.

I was delighted to find our captain a native of the same town as myself, and full of those reminiscences of old characters and occurrences which so vividly recall our past, and are more especially refreshing in a distant country, and among scenes and circumstances which seem to belong to a different and distant world. Captain G. told me this story, among others, of the cyclone of 64: "It was very awfal. The darkness seemed like black marble. I could not stand, but dragged myself as best I could, along the deck, on hands and kness. All the crew skulked below, save one man named Nelson. He was a brave fellow, and stood by Nelson. He was a brave fellow, and stort of me till the last. It was necessary, at one time, to cut away a hawser astern. At the risk of his life he did it, and disappeared. He was swept overboard; but as he was being carried past the ship he caught hold of a rope, and to my joy crept up the side to me again. Soon after that some one came near me, and should in my ear, words I heard with difficulty: 'A steamer is beside us and my wife and child are on its deck. For God's sake save them ! save Nelson and I managed to get over them I<sup>3</sup> the side, I know not how, and we dimly saw something white. With immense difficulty we got hold of a woman and child, and dragged them on board just as the steamer sank. Next day we received many thanks and assurances that never, never would this be forgotten. But, as in too many similar cases, we never heard more of husband, wife or child!"—" Peeps at the Far Eest," by Dr. Macleod, in Good

### Words.

-Mr. P. Lucien writes to the Quebec Chron - Mr. F. Juddah withes to the Quebec Onton that the icle, giving it as his decided opnion that the Dominion is favored with valuable deposits of gold. He says:- "Having had considerable experience in the auriforous diggings of Aus-tralia, British Columbia, and California, I am favorably impressed with the appearance of the soil, quartz rocks, and gravel of Canada, particularly in the neighborhood of Queenston, Toronto, Montreal and Quebec. Of course, I am well aware that gold exists in quantities in quartz and auriferous soil, com-posed of different kinds of clay, mixed with paravel and decomposed quartz, in different parts of Canada, and my motive in calling your attention to this fact is simply to express my surprise that the Canadian government, or the wealthy capitalists of the different Provinces. have not inaugurated a regular system o nave not inaugurated a regular system of prospecting the country thoroughly by sending out practical gold miners in dif-ferent directions during the summer months, and offering a governmental bonus to the lucky discoverer. For years past (irrespective of recent discoveries) there has been a standing reveal offend by the New has been a standing reward offered by the New Zealand Government for the discovery of gold fields in that Colony. I am satisfied, Mr. Edi-tor, that if the Canadian people would turn their attention to the development of the golden resources of the Dominion, that they would ultimately be rewarded by making dis-coversion council to any on the Recific Coast coveries equal to any on the Pacific Coast, and would be hemeans of introducing a stream of emigration to the shores of the most beautiful country that J have seen in all my t ayels."
