Jersey; Martha M. Wandrige, of Massachesetts.

The following report was then presented; read and referred to the Committee on Labor. The To the National Labor Union—The Committee on the Eight Hour Law respectfully reports that the law of Congress, making eight hours a day's work for all employes of the Government, has after encountering much opposition gone into practical effect under proclamation of the President of the United States. This result would have been induced only by extraordinary obstructions, interposed

States. This result would have been induced only by extraordinary obstructions, interposed by subordinates whose duty it was to carry out the will of Congress in its enactment.

Their opposition, however, was encouraged by two Attorneys General, and was only overcome by prerogatives usually interposed when insurrection defies civil power or when supreme laws are to be enforced. We can therefore judge by the force necessary to overcome it. We congratulate workingmen on their success by this measure of right, and ask them to be encouraged to press for further ameliorations. They must not suppose opposition yet overcome; that law is revocable, and enmity will attack it in many ways. They

enmity will attack it in many ways. They enmit will attack it in many ways. They must be united and alert for all resorts.

Even now, in at least one Navy Yard, by bell-ring or roll-call, eight and a naif hours attendance of workmen is exacted, to make no account of the time extracted in traveling

to and fro.

In connection with this subject attention is called to the fact that its eight hour law took called to the fact that its passage and its adeffect from and after its passage, and its ad-vantages attached at once; yet its distursing officers of the government withheld from the

vantages attached at once; yet its untages attached at officers of the government withheld from the officers for the government withheld from the workmen twenty per cent of their pay, and the President expressly prohibited those officers from making good this deficiency.

This body should memorialize its Congress of the United States to make provision for their claims, and not compel the claimants to await the slow and expensive process of presenting their rights before the Department.

Respectfully submitted.

H. T. Cavis, for Committee.

Moses N. Field, of Michigan, off-red the following resolutions, which were referred to the Committee on Platform:

Resolved, That the mational money known as greenback currency is popular and satisfactory to the working millions of the country, and experience has fully demonstrated that the national credit is the best basis for a grand and reliable circulating medium.

and reliable circulating medium.

Resolved, That the reduction of the interest on the public dent is a question of urgent hecessity, and the only available and punctual plan to accomplish that end, is to be found in the issue of United States notes called greenbacks, to pay the "Five-Twenty" bonds, and all other obligations of the Government, that by the strict letter of the law can now be paid in lawful money. on the public debt is a question of

in lawful money.

Resolved, That Congress should provide for the funding of that portion of the national debt not required for a circulating medium by the issue of long bonds, bearing interest not exceeding 3.65, and that the U.S. currency notes, at the option of the holder, should be convertible or re-convertible to such bonds at nat.

convertible or re-convertible to such bonds at part.

Mr. Field also offered the following:

Whereas, The price of American labor is above the wages paid for labor in other countries; and whereas, the products of the cheaper labor of foreign countries when imported into the United States, compete with the productions of American labor in our home markets; to the manifest injury of our workingmen; thereby decreasing enterprise, industrial independence and diversity of employments, and tending to degrade our labor and ments, and tending to degrade our labor and force down the wages of American working-men to the level of the ill-paid millions of Eu-

Trope; therefore be it . Recolved, That we demand such adjustment of the duties on all commodities produced by the labor of foreign countries as will adequately protect American labor and restrain the excessive importation of commodities from abroad while we have the raw material the skill and the ability to produce it is

our own country.

Referred to Committee on Reform.
John M. Bossong, of New York, offered the following resolution:

Resolved, That a tax of ten cents be levied upon each workingman represented in the National Labor Union, five cents of which is to be appropriated to the erection of a suitable monument to the memory of William H.
Sylvis, and the remaining five cents for the support and education of the wife and children of our deceased President. Referred.

Mr. Walls, of Philadelphia, offered the following.

following.

Resolved, That the action of this Convention B.

yesterday in retusing to admit Miss Susan B.
Anthony was not based upon grounds personal
to herself, but simply because the organization she ciaims to represent is not a bona fide
Working Women's Aissociation.
There was considerable debate upon this re-

solution, after which the President declared that Miss Anthony was entitled to the floor, as she was a delegate to the Convention last Miss Anthony then took the stand, and at

considerable length defended the attacks made against her by several of the delegates.

The Convention then adjourned until two

CORRECTION.—The hquirer gives an account of a "Thrilling Scene on a Steamboat," this morning, in which the details of a fire on the Lady of the Lake are given. We are requested to say that our neighbor has been misinformed on the subject, no fire having taken place on that steamer. A momentary escape of steam from the engine, resulting from the sticking of a valve, created a little excitement, which was allayed as soon as the innocent cause became known.

THE NEW YORK BAY EXCUASIONS—Of the various excursions given during the season, those around New York Bay ought to be the most popular, as so much can be accomplished for such a small outlay of cash. The second excursion of Beck's Philadelphia Band, No. 1, was given yesterday, and the members of the for such a small outlay of cash. The second excursion of Beck's Philadelphia Band, No. 1. was given yesterday, and the members of the band have every reason to congratulate themselves upon the pleasure afforded the excursionists, as well as upon the pecuniary results of the affair. The excursionists numbered about 600 persons, and included many entire families. They left Walnut Street wharf at 7.30 A. M., and at Camden took the cars of the Camden and Amboy Railroad Mr. J. W. Gore, the energetic ticket agent of the Company, was present, and superintended the "loading" of the train. Ample accommodations were afforded to everybody. The weather was very pleasant, and the journey to Amboy was free from dust and quite agreeable. At South Amboy the excursionists were transferred to the large and commodious steamer William Cook, under the charge of Capt. C. W. Hornblower, a genial, good-natured gentleman, who seems to take pride in looking after the comfort of his passengers and furnishing all desirable information. The steamer proceeded up New York bay, giving the party a fine view of the new quarantine hospital, the noted Fort Lafayette, the massive Fort Tompkins, in course of erection on Staten Island, and Governor's Island and the fortifications thereon. The monitor Dictator was Iving off Governor's Island. ette, the massive Fort Tompains, in Course to erection on Staten Island, and Governor's Island and the fortifications thereon. The monitor Dictator, was lying off Governor's Island, and the Jack Tars cheered the boat quite lively, as she passed. The boat continued up the Hudson as far as the famous Palisades, thereby giving a splendid view of the business portion of New York City. The magnificent scenery in New York Bay, around Staten Island and on both sides of the Hudson, cannot be well pictured in a newspaper article, but must be seen to be duly appreciated. These excursions, therefore, offer an opportunity not offen afforded. An excellent dinner was provided on the boat at a very moderate charge. The excursionists reached this city on their return, about 9 o'clock last evening. Beck's band will give a third excursion on Tuesday next.

The third excursion under the auspices of the Camden and Amboy Railroad Company, will be given on Thursday next, and will be accompanied by the Liberty Cornet Band, Prof. B. K. McClurg, leader. The tickets are going off rapidly, and as the number is limited in accordance with the capacity of the boat, early application should be made.

Blessing; of the Highteenth District, have been tried by the Police Court for sleeping while on duty.

Lieutenant DeHaven testified—On or about August 5, I left my house at 10 o'clock P. M.; I took Officer Peterman, and when I arrived at Coopersville I asked a watchman when he had seen my officers; he said about a half hour ago, and that they had gone down Second street; this was about 12 o'clock; we stood around there about twenty minutes, talking, when Officer McLaughlin came from the watch box, which was about twenty feet from where we had been standing; he gave an excuse for being there, but if his story had been true he could have heard us talking and asking for him; I then crossed over and found Policeman Driscoll lying on his stomach on a cellar door of a tavern fast asleep; I then walked down to Second street and the Reading Railroad; I saw the watchman and asked him when he had seen an officer; he said, "none all night except at Coopersville;" I then went to Cumberland street, west of Sorrel, and found three men whom I thought were bummers; I went up to them and examining them I found Blessing; Finley was off his beat; Officer Bowne said that he hadjust been lying down 10 minutes; I was standing near where they were lying, and talked to Officer Peterman about five minutes, before I awoke them; if they had been awake the officers would certainly five minutes before I awoke them; if they had been awake the officers would certainly have seen us or heard us talking, as we were talking very loud; this was about two o'clock

The officers named were found guilty, and were sentenced to be dismissed. The sentence has been approved by the Mayor.

Robbert and Recovery of Stolen Property.—This morning, about three o'clock, the clothing store of M. Rosenberger, No. 239
East Girard avenue, was entered through a transom window of the back door. Clothing valued at \$400 and \$18 in cash were stolen. Subsequently some of the Tenth District policemen observed two men carrying bundles along Canal street, below New Market, and gave chase, but the suspected fellows succeeded in escaping. They threw a bundle into a lumber yard and it fell into the possession of the police. The bundle was found to contain nine pairs of pants and four coast, which had been stolen from Mr. Rosenberger's store, and a suit of old clothing.

A THIEVING RAG-PICKER.—A rag-picker A Thieving Rag-Picker.—A rag-picker, with a push cart, stopped at the house of John Hancock, at Hestonville, yesterday afternoon. He entered, and finding no person within, removed the nozzle from the hydrant, cut off a large piece of lead pipe in the bath room, and was about to commit other depredations, when the servant girl entered. She gave the alarm, and the rag-picker ran. He was chased by Mr. Hancock and a policeman, but was not captured. He left behind his cart, which contained a lot of copper and brass, and the lead which had been taken from Mr. Hancock's bathroom. bathroom.

#### ROSE HILL CEMETERY.

A new and beautiful CEMETERY has been recently located on LANCASTER Avenue, a short distance from Overbrook Station, on the Pennsylvania Central Rall-road, just beyond the city line and near the boundary of the new City Park. The Hestonville Passenger Rail-road, it is expected, will shortly be extended and pass in front of this Cemetery. These grounds, in natural and created embellishments, are equaled by few and surpassed by no Cemetery in the country. The projectors are now selling a limited number of Lots of 10 by 12 feet at \$20 par lot, mayble in installments. The price will passed by no Cemerery in the conservation of Lots of 10 by 12 feet at \$20 per lot; payable in installments. The price will shortly be doubled. Portions of the ground can now be allotted to Societies on favorable terms. Parties desiring to purchase are invited to visit these grounds without delay, and judge for themselves of the advantages offered For further information, apply at the Office of the President,

FIRE PROOF SAFES

## THE GREAT FIRE AT YONKERS. Herring's Safes Again Tested!

YONKERS, N. Y., August 13, 1809. Messrs. HERRING, FARREL & SHERMAN, New York—Gentlemen: At the great fire here on Sunday night last (8th Inst.), which covered an area of two blocks, we had two of, your safes in our building, which passed safely through the ordeal: When first discovered they were surrounded by burning lumber, and bear eyl-dence of having had a severotest, as our place of business occupied seven lots, all covered with buildings and lumber, all of which were entirely consumed, and to this heat the safes were exposed. It was with great satisfac-tion that we found, upon cutting into our Safes, as they were so warned and swollen they could be opened in no were so warped and swones they could be opened in no other war, that our books and papers and money were all saved; indeed the bills came out of the safe without a singe, and nothing is discolored but the binding of the books. Respectfully yours,
