By the Atlantic Cable. LONDON, August 24 .-- A great mass of ails concerning the condition and promise of the growing grain crops has recently been ublished. It seems to be the general impresion that the late dry and cool weather h been of immense service to the country. Muc corn has already been gathered, and another fortnight like the past, and the crisis of the narvest will be over.

The copious rains which fell some time ago. though they delayed, did not damage the corn The favorable change in the weather has stopped the advance in the prices of all sorts of corn, but great fluctuations are still expected, as the crops throughout Europe, with the exception of those in the interior of Russia, promise to be light. LONDON, Aug. 24.-The Morning Telegraph (Liberal) in an editorial to-day says : "If Cul severs her connection with Spain it will only be to form a new bond with the United States. England could feel no jeniousy at the aggranlizement, which would complete the abolition of slavery as an institution. The loss of Cuba to Spain would be an unquestionable gain to the mother country, the colony and the cause of mankind." PARIS, Aug. 24.-Salvatori Patti. father o
