Large Amount of Cash Stolen

Some time during the course of last night the office of the Receiver of Taxes, at the southwest corner of Sixth and Chestnut streets, was entered and robbed of upwards of 30,000 dollars. The thieves are supposed to have entered through the old Quarter Sessions Court room. The sash of the sonthern window on the avenue leading into Indevendence Several bases are sentenced. pendence Square bears the appearance of having been forced open. The door opening from the court-room into the entry is sel-don fastened, and therefore the thieves expetienced no difficulty in getting into the entry, which is immediately in the rear of the Tax Office. On this entry there is a door opening into the Receiver's office. This door was very insecurely fastened. A bolt near the top seems not to have been slipped last night. The other fastenings were a dead-latch and an ordinary lock which gen-

a dead-latch and an ordinary lock which generally accompanies knobs on the doors. These were easily forced with a jimmy. The office coats of the clerks were then collected together and placed in front of the fire-proof to deaden the sound of operations upon it. The fire-proof is built of bricks, and has an iron door. The bricks by the side of the keeper of the lock were removed, and then the door was forced open with a jimmy. Inside of the fire-proof was a small iron chest, which was new, and had only been placed there during the present year. Into this chest the clerks are in the habit of placing every night, in tin boxes, the cash which they have received in the afternoon after the bank account has been closed. The lock of this chest was cut and the door was forced open. The was cut and the door was forced open. The money and checks in the boxes were abstracted. Some of the checks were left behind, and about four hundred dollars in cash were found on the floor.

The thieves carried off about \$33,000 or \$34,000, two-thirds of which was in each and the remainder in checks.

the remainderin checks.

The boot-blacks have been in the habit of sleeping in the entry between the Tax Office and the Court-room. Last evening about nine o'clock, a party of men entered, represented themselves as officers, and drove out the juveniles, threatening to lock them up for ninety days if they remained. The boys went to the theatre, and upon returning they congregated on the front step, where a hot earn woman was also sitting. They all heard a noise in the office, and endeavored to look through the windows, but the curtains were down. This noise was kept up until after two o'clock, but

noise was kept up until atter two o'clock, but no notice seems to have been taken of it.

The other public buildings are provided with watchmen, but at this structure, where it is always likely there is a pretty good sum of money, there is no watchman. After this tobbery we summed that City Countil will be the continuous that City Countil will be the countil to the countil will be the countil to th robbery we suppose that City Counils will authorize the employment of a watchman.

SERIOUSLY BURNED.-Lizzie Kessler, aged 17 years, residing at No. 1125 Jefferson street, was seriously burned last evening. It seems that a stove for burning coal-oil had been purchased recently. Subsequently some material to use in the stove was bought at the same store. Last evening Miss Ressler went to start the fire, when there was a sudden ignition of the entire fluid, and her dress took fire. The unfortunate girl was so badly injured that her life is despaired of. Mr. R. M. Evans; the coal-oil inspector, made an investigation of the affair, and found that gasoline had been sold instead of coal-oil.

mittons from Mexico.

HAVANA, August 20, vin Kry West, Fla. August 27, 1809.—Advices have been received here from Santiago, dated to the evening of Saturday last. Intense excitement and alarm continue to prevail there and in the surrounding neighboorhood in consequence of the news of the assassination of some citizens when traveling under escort near Jiguani.

There is no security for life or property. Tipker and Cisneros, with other prominent insurgents, succeeded in leaving Santiago during the night of the 1st instant, taking with them a large quantity of specie. After marching a short distance they encountered the troops of Sabanilla, who had been am-

the troops of Sabanila, who had been ambushed by the way. An engagement ensued. The insurgent forces held the field. The troops returned to Guantanamo, reporting the loss of twelve men.

They also reported the events of two recent landings of revolutionary sympathizers in the bay of Nipe, bringing arms and ammunition from Mexico for the use of the revolutionists.

A Mighty Big Grape Vine.

From the Santa Barbara Press. I have seen the "Big Grape Vine." The owner says it is forty-two years old. The trunk is nearly circular, and at ten inches from the ground is thirty-nine inches in circumference; at three feet from the ground, the smallest place, it measures thirty-six inches; and at five feet, it measures forty-six inches in circumment it swells out much larger and parts into

It is supported by a framework six to seven feet high, containing sixty-six posts from three to eight inches in diameter, and covers about, 4,320 square feet of ground. Several of the limbs are nine feet in circumference at thirty branches at forty-eight feet from the trunk is seven and three-eighths inches in circum-

ference.
It now has over 5,000 clusters of grapes on it growing finely. The owner, and others fa-miliar with it, told me that the clusters will average, when ripe, about two and a half pounds each; but call them two pounds each, and it makes over five tons of fruit on one vine in one year. Several persons made estivine in one year. Several persons made esti-mates on it last year, when the fruit was ri-pening, by counting the clusters on ten feet-square, and weighing some average clusters. Their estimates varied from four to six tons. This is probably the largest grape-vine in the world.

Close by this is another vine, covering about 1,350 square feet, and forming the roof of a fine dancing hall. It is eleven years old, and has a much larger quantity of fruit in propor-tion to its size than the "big grape-vine."

ATLANTIC CITY, AUGUST 27TH,

ATLANTIC CITY, AUGUST 27TH,

Beg-To the Editors of the Evening Bulletin:

Having noticed in your paper an article in relation
to the recent drowning at this place, and that no effort
has been nade to secure the safety of the bathers, I hope,
in justice to mysolf as cell as others, you will give place
to the following statement:

I an the patentee of Life Lines for SEA BATHING, and have erected the same at Congress Hall and at
the new Excursion House, where they have been used
and well patronized during the entire season.

At the Excursion House during this season excursionists to the number of forty thousand have bathed with
perfect safety, not a single accident occurring.

The guests at Congress Hall, including others from
the various botels in that vicinity, as well as residents
from a number of private cottages, who bathe daily under the lines erected in front of the Congress Hall bathhouses, will verify the statement that they have bathed
with entire confidence and safety.

The above points constitute the principal bathing
places at Atlantic City.

I have also erected on the beach, below the bar-being
the central bathing point of the city, and the most
changeable—a set of lines that are open to all, that the
public might learn their use; and had they be in placed
where this sad accident occurred, I feel confident it would
not have happened.

It is owing to a lack of energy on the part of some of
those who are intrusted in this matter that the protection
to bathers has not been extended to all parts of the beach,
Very Iruly yours,

FIRE-PROOF SAFES.

## CHAMPION SAFES!

PHILADELPHIA, August 27, 1869 Messrs. FARREL, HERRING & CO.: GENTLEMEN: In the year 1856 I unfortunately was i business in the Artisan Building, which was destroyed by fire on the 10th of April. I had then in use what I supposed was a Fire-proof Safe, but upon opening it I found everything destroyed, and fire burning therein. You will recollect, gentlemen, there was several of your safes in that fire, also several in the fire at Sixth and Commerce streets, the next May, five weeks after-wards, all of which upon being opened proved they were fire-proof indeed, for I witnessed the opening of most of hem, and in every case the contents were preserved while safes of other makers were partially or entirel

destroyed. I at once concluded to have something that could depend upon, and purchased one of your safes. The safe I purchased of you at that time was subjected to a white heat (which was witnessed by several gentle men that reside in the neighborhood) at the destruction of my Marble Paper Factory, 921 Wallace street, on the of my matrice raper ractory, yn wallace street, on the afternoon and evening of the 24th inst. After digging the safe from the ruins, and opening it this morning, I was much pleased to find everything, consisting of books, papers, money and silverware, all right. I shall want another of your safes as soon as I can get a place to continue my business in. I could not rest contented with any other make of safes.
