THE Methodist Sabbath School Jubilee will take place on Thursday evening, October 28, at the Academy of Music. The entire proceeds of these annual gatherings are appropriated to the Home for Aged and Infirm Members of the Methodist Church. The first jubilee, in 1807, yielded \$1,151, and the one in 1808 netted \$1,114, and it is believed that from the arrangements made for the forthcoming jubilee, it will be more successful than either of the preceding-ones.—Fully-one thousand Sabbath School scholars will participate.

The new church building of the Eastburn and the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though, not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and tions for the benefit of the church will be consequently prevent baldness. Free taken up at the morning and evening service. from those deleteribus substances which make some preparations dangerous and

injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable Containing neither oil nor dve, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume. Saratoga Star Springs have a much larger amount of solid substance, richer in medical ingredients than any other spring in Saratoga and shows what the taste indicates—namely, that it is th STRONGEST WATER. It also demonstrates that the STAR WATER contains 100 Cubic Inches More of Gas in agallon than any other spring. It is this extra-amount of gas that imparts to this water its peculiarly sparkling appearance, and renders it so very agreeable to the taste. It also tends to preserve the delicious flavor of the water when bottled, and causes it to uncork with an efferveseence almost equal to Champagne.
