THE LATEST DISCOVERY IN MEDICATION

The great difficulty which physicians have been laboring for centuries to overcome has at length been obviated. A Vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

DR. ERASMUS WINSLOW'S LIVER AND STOMACH LOZENGE

is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supersede and banish from general use the nauseous pills and potions of which that dangerous excitant is the main ingredient.

ONE THOUSAND EXPERIMENTS

were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and although the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever. In Dyspepsia, Biliousness, Constipation, Sick or Nervous Headache, Piles, Dropsy, and the irregu

than any of the horrible and disgusting compounds usually administered in such cases. As an anti-bilious specific and general aperient, they have no equal either among advertised preparations or the prescriptions of the regular pharmacopæia. IT IS GUARANTEED that no one who has once tried DR. ERASMUS WINSLOW'S LIVER AND STOMACH LOZENGE will ever again take a purgative powder, or draught, or pill For sale by JOHNSTON, HOLLOWAY & COWDEN, 602 ARCH Street, and by Dr.
