San Francisco, Oct. 25.—The Riley-Cannon prize fight took place to-day in Marion county. One of the steamers engaged to convey spectators to the ground was detained by the policials she was about leaving this city, but the authorities of San Francisco could not prevent the fight. A large number of persons went to the battle-ground in row boats and sailing vessels, the locality selected being but a short distance from here, though beyond the county limit. Thirty-three rounds were fought, when darkness interrupted the proceedings and the fight was declared drawn.

OYER AND TERMINER—Judges Ludiow and Peirce.—The case of Annie Peoples, charged with causing the death of James Welsh in June last, occupied the attention of the Court vesterday until six o'clock in the evening. The Commonwealth case was this: That the prisoner, who is quite young, was drunk at six o'clock on the evening in question, and ensign of the conservatives there is a progressive, tolerant and liberal element, whereof the principal exponents are the Nashville Bamer and the Memphis Avalanche. Johnson represented the retrogressive and proscriptive spirit of six o'clock on the evening in question, and engaged in a quarrel, whereupon the deceased, who was her cousin, caused her arrest. She returned at ten o'clock the same night, and entering the room where Mr. Welsh was lying on a settee, picked up a coal-oil lamp and threw it at the man. The lamp struck the wall above the settee, and the contents fell upon the man, burning his face, arms, breast and hands. Death resulted in about sixteen days afterwards, in the Hospital. As the injured man, while in the Hospital, was subject it is only necessary to say that the Republiit is only necessary to say that the Republicans in the Legislature voted solid against him. It is proposed to increase the capital to \$50,000,000 by the issue of additional stock, the proceeds of its sale to be devoted to the better equipment of the new line. The books of the Lake Shore consolidation by the discovery that the "Lake Shore ring" have taken care of themselves by various contracts, the perpetuity of which Mr. Vanderbilt was unwilling to sanction in the event of consolidation. The "ring" think they have a magnificent opportunity to "milk the street" with Lake Shore, just as has been done with New York Central, and they cannot forego the temptation. The "ring" are nowshort of the stock, and will trust to their own efforts to break the price of their ow stock. At the Stock Exchange today exception was taken to the further call of Pittsburgh, inasmuch as the directors have increased the stock fifteen per cent. without giving the naual 30 days notice. Inasmuch as the increase was in the form of a dividend, and not of the character more particularly contemplated but the matter was referred to the governing committee for adjudication. Outside of Lake Shore the general list was very stoady and fluctuated very little. At the last board there was a sharp decline in Chicago, Columbius and Indiana Central, which was offered at 22%. The money market was more active and the rate on call ranged from six to seven per cent, with exceptions at five per cent., the increased activity being due to the fact that the Sub-Traeury sales of gold will drain the banks this week of about a million and a half of currency. It will be seen by a report in another column that General Butterfield has reasgned the Assistant Trassurership, but the fact was not known on the street this afternoon up to the close of business. Commercial paper was still without megotiation except at extreme rates, the range of discount being from into to fifteen per cent. for prime acceptances. Foreign exchange closed weak at 109% for prime banker's kixty-day, and 109% for sight sterling bills. Sales on the street were made at 109% for the former grade. The gold market was feverish on a small volume of business, the general tendency of the speculation being told to lower prices.
