A curious book, entitled "Notes of a Spy," was lately published at St. Petersburg. These notes are the memoirs of a Russian sub-officer named Boulantzoff, who, according to his own showing, acted as a spy for the Russian Government during the last Polish insurrection. FORT OF PHILADELPHIA - Oct. 28.

Stempt Princip, Fromas L. Four from New York, with a second control of the Company of the and some measure should be adopted for the purpose of meeting the emergency. The civil authorities have not the means, and our people are not able to bear the expense of pursuing and punishing these robbers and murderers who destroy our properties and lives, and come and go like the wind. Ours is a contest between civilization and barbarism, and we must risk our lives and sacrifice our hard-earned property to defend them, unless the general government gives us the means of defence. To this we are entitled, as we have left homes of comfort in the East to plant eivilization in the widerness. It is evidence that the Pen d'Oreilles, who make periodical journeys from their homes to the valley of the Yellow Stone, on hunting expeditions through some of the settled portions of our territory, are guilty of horse-stealing, if not murder.

Their passage though our settled valleys should be prohibited by the authorities. The Crows murdered two white men near Fort Benton; about the 20th of July last, and took their HAVRE DE GRACE, Oct. 27.
The following boats left here this morning, laden and horses to their camp. In none of these cases of murder and theft have the Indians been purconsigned as follows:

Black Hawk, with lumber to Watson Malone & Co;
Ellie, do to Craig & Blanchard; John Haldeman, lime sued and punished. Our population is necessarily scattered along the valleys, and are isolated in mining camps and gulches, and hence

of murder and their invertee fluthers seem and enter the content of the such and punished. Our population is necessarily scattered along the valleys, and are isolated in mining camps and guckes, and head are peculiarly exposed to sudden attacks from Indians.

The Grand Jury further stated that their report is made in the hope that the proper officers of the general government will take the steps necessary to give them full protection, or, if the means in their hands are not adequate, that they will represent the matter to the heads of government here, who have authority and means to punish or prevent Indian depredations.
