A Grance at our Retail Stores.—It certainly should be, and perhaps it is, a matter of pride with the resident population of our city, that it can boast of the finest retail stores in the world. These princely edifices are not comined to one locality; they are to be seen in all sections of our widely extended city, where, that a few years ago nost and rail fonces, and all sections of our widely extended city, where, but a few years ago, post and rail fonces, and country roadways, with cabbage gardens, or after a few years ago, post and rail fonces, and country roadways, with cabbage gardens, or after a few years of the progress of purely white or mottled marble, brown, grey or pictou stone, whose embellished fronts impart a grand and noble picture or a rich panorama to the view of

Of late years, plate-glass, as it is called in its of commerce, has been generally introred into the fronts and even interiors of our Celass stores. This glass is manufactured Circland and France, and it is really a near that attention has not been given to its manufacture in America, where we have immense quantities of purely white glass sand, or white crystals for pulverization. The plate glass now in use on Chestnutstreet alone is estimated to be worth more than half a million of dollars, and although expensive, it is becoming more and more in use, because its owners can be amply protected by insurance, an institution of this kind having been organized in Philadelphia. As an improvement, we learn that a store will be embellished, perhaps next season, with an entire front of plate glass. This will exceed in brilliancy any thing yet attempted in the art of adorning the city. yet attempted in the art of adorning the city. Next to ventilation, light is necessary to ex-istence, and with such an improvement as inlicated, goods can be shown to all necessary

help arousing general and particular attention. Hence it is that on pleasant days these thoroughfares are crowded with ladies, who gracefully move along the sidewalks, stopping here and there to be astonished and to admire the latest styles of goods going off at "fearful rates" or "frightfully low figures."

We are sure that the presents eason is far in advance of any other for such magnificent expositions, but it is behind or lower in regard to prices, for everybody cannot fall to observe a very remarkable diminution in rates from what they were two or three years ago. observe a very remarkable diminution in rates from what they were two or three years ago. Our storekeepers are keenly alive to business, and having received immense stocks of goods, both foreign and domestic, have thus prepared themselves for the winter season and its genial holiday festivities, as heralded by the column and double column in the Burrers. LETIN. As a whole, business is quite as brisk and, in some branches, more so than ever, but there seems to be a general complaint of the want of money. Why it is so is a subject for financial economists and philosophers to demonstrate. At all events our storekeepers generally are in good heart, in the grand trial race, to make money honestly.

NEW ROUTE FROM PHILADELPHIA TO NORTHERN PENNSYLVANIA, NEW YORK AND THE WEST.—By the recent completion of the Pennsylvania and New York Railroad, which is an extension of the Lehigh Valley Railroad from Wilkesbarre to the New York State line, a new route has been opened into Northern Pennsylvania, interior New York, Bufalo, Niagara Falls and the great West by the way of the North Pennsylvania, Lehigh Valley and Erie, Railways. Passengers taking ley and Erie, Railways. Passengers taking the North Pennsylvania Express train at 745 A. M. reach Waverly the same evening, and can either lay over at Waverly and have choice of several Erie express trains the next day, or go directly on to any point with which the Eric Railway has connections. This route, in carrying out the first conception of the originators of the North conception of the originators of the North Penn Railroad, passes through a region new to the majority of Philadelphia tourists, abounding in beautiful scenery and thriving towns; and being almost an air-line between its termini, offiers to both business and pleasure-travel, speed, comfort and enjoy-ment. We learn that the volume of passenger and freight traffic that has offered since the opening of the line is such as to warrant the opening of the line is such as to warrant the belief that it will be a favorite route for both

THE CORONER'S OFFICE.—Dr. William Tay-THE CORONER'S OFFICE.—Dr. William Taylor, the Coroner elect, entered upon the discharge of his duties to-day. The excellent manner in which he managed the affairs of the office during a previous term is a sufficient guarantee that his duties will be satisfactorily performed. Mr. James M. Fletcher, who has creditably acted as Deputy during the past six years, retires from that position. He is succeeded by Mr. John C. Sees, of the Twenty-fifth Ward. For several years past Mr. Sees has been a clerk in the Registration Department in the office of the Board of Health, and is very competent to discharge his new duties. Dr. E. B. Shapleigh will continue to be the surgeon. He has had great experience in making post martem examinations. perience in making post mortem examinations, and ranks among the best physicians in the city. His retention is a compliment worthily bestowed. City Councils should now provide a decent and respectable office for the Coroner.

PRECAUTION.—Now that the season has arrived when fires are indispensable to comfort, a word of precaution at the present time may avert the necessity in the future of recording some dreadful accident. The old maxim is that some dreautulacement. Ine out marins state an "ounce of provention is worth a pound of cure." Cotton dresses easily ignite from rangest grates, furnaces or stoves when in full blast, and in a large majority of cases with latal result. Dresses made of woolen fabrics are not easily ignited and are not apt to instance there is something more comflame unless there is something more com-bustible to feed on therefore, children in particular should wear woolen clothing, and so should older persons whose domestic duties require them to be about the household fires.

ATTEMPTING TO PICK POCKETS.—Arthur Painter was before Alderman Lutz, this morning, charged with assault and battery and attempting to pick the pocket of Annie Lewis. The alleged offences were committed at Ball ley and South street, on Wednesday night last. Palater was sent to prison. McGuckin, removed.

Polioe Relief Association.—The Lieutenants and others connected with the Police Department held a meeting at the Central Station on Saturday, and formed a Relief Association. Lieutenant John Kelly, Eighth District, was chosen President; Lieutenant Francis Brurein, Seventh District, Secretary, and High Constable William I. Nutt, Treasurer.

A Police Beneficial Association, established during the term of Mayor Henry, and con-tinued during the administration of Mayor McMichael, is still in existence.

MAN STABBED.—Last night Julius Gross, Nicholas Naulty and Edward Bohm got into a fight on Broad street, above York. During the wrangle Gross was stabbed under the right arm and was also cut across the mouth. The wound in the side is about two inches in depth. He was taken to his home at Broad The wound in the side is about two indies in depth. He was taken to his home at Broad and Huntingdon streets. His companious, Naulty and Bohm, were arrested by Sergeant Craig, of the Thirteenth District police. This morning they were taken before Ald. Myers and were held for a further hearing.

and were held for a further hearing.

ALL SAINTS DAY.—This festival occurs on the 1st of November, and in most European communities it is observed as a holiday. The cable despatches say that it is a holiday even in London, the Stock Exchange observing it. In many Catholic countries this is the day when the cemeteries are visited and the graves of the dead decorated with immortelles. In New Orleans especially this custom prevails. In Philadelphia at all the Catholic churches several masses were said this morning, and the day is observed as "a holiday of obliga-tion." To-morrow will be All Souls Day.

CAUGHT IN THE ACT.—On Sunday morning, shortly before one o'clock, John Maguire was arrested while in the act of emerging from the front door of a liquor store at Germantown avenue and Jefferson street. He had in his possession a chisel, and also some money, which it was found had been taken from the money-drawer of the store. He will have a hearing at the Central Station this afternoon.

ATTEMPTED SUICIDE.—Mrs. Detzler, residing on Water street, near Willow, jumped into the Delaware, at Green street wharf, about ten o'clock last night. Policemen Lex, of the Delaware Harber Police, heard the splash, jumped into the water and saved the woman from drowning.

A LETTER OF THANKS.—The Mayor received a letter from several lumber merchants in West Philadelphia this morning expressing thanks to Lieut. Simon Jacoby and the Schuylkill Harbor Police for valuable aid rendered in recovering property after the recent flood. PORTION OF A BODY FOUND.—The arm, leg and foot of a woman, in a bag, were found at Ninth and Chestnut streets at an early hour this morning. They are supposed to be portions of a "subject" which had been operated upon at a medical college.

Leg Broken.—John Farley had his leg broken by a plece of iron falling upon him at Washington street wharf this morning. He was taken to the Pennsylvania Hosiptal.]

THE YOUNG MEN'S CHRISTIAN ASSOCIATION.—Under the auspices of the Young Men's TION.—Under the auspices of the 1 oung Men's Christian Association, evening classes for instruction will be organized this week at their rooms, 1210 Chestnut street. The programme is as follows: Monday evening, from 7 to 9 o'clock, Penmanship. Wednesday, from 7 to 8 o'clock, elementary class in French; from 8 to 9, Elecution; from 9 to 10, Vocal Music. Thursday, advanced class in French, from 7 to 8 o'clock Friday evening, elementary class 8 o'clock. Friday evening, elementary class in German, from 7 to 8 o'clock, and on Saturday evening, from 7 to 8 o'clock, and on Saturday evening, from 7 to 8 o'clock, advanced class in German. The price for admission is merely nominal—One (1) Dollar for twenty leaves to members only. lessons, to members only. These classes are conducted by well-known professors, and young men requiring instruction would do well to avail themselves of this opportunity for improvement.

THE HUMAN family is so numerous that a birth and a death occur every moment. Every second a child is born; every second some one dies. The prevalence of sickness in the world may be realized in Dr. J. C. Ayer's Laboratory, where medicines are made for all mankind. It would scarcely seem that there are throats enough to swallow the doses he issues daily—Ayer's Sarsaparilla. Ague Cure, and Cherry Ayer's Sarsaparilla, Ague Cure, and Cherry Pectoral, by the thousand gallons, and Ayer's Pills literally by the ton. But they must all be wanted, or he could not make such quantities for so many years.—Northfield Telegraph.

AMUSEMENTS.

-Miss Lucille Western will begin an engagement at the Walnut, this evening, in East Lynne; consequently there is a promise of moist weather at Ninth and Walnut streets for a week or two. Our recollection of this per-formance is, that while it is characterized by a certain rudeness and want of elegance, it a certain rudeness and want of elegance, it still possesses a great deal of power and feeling. Indeed it must have some qualities of this kind or Miss Western could not repeat it with such success year after year; and she could not invariably harrow up the female soul, and excite the sniffles in her masculine hearers. No matter how silly the sobbing of Mice Western's auditors may seem when we Miss Western's auditors may seem when we are away from her influence, it is beyond question that an actress must possess some power to enable her always to play upon the feelings even of the coldest, as Miss Western does.

—At the Arch this evening Mrs. Drew will produce Boucicault's drama Lost at Sea. We produce Boucicault's drama Lost at Sea. We sincerely hope this play may deserve warm praise, as its performance assuredly will. Boucicault has constructed some very interesting dramas, but those of later date—Formosa noticeably, have been exceeding feeble. Mrs. Drew is able to produce any play in the best manner, and to give a certain interest even to trash; but we hope Lost at Sea is worthy of the powers of her excellent company.

-This is to be a week of variety at the Chestnut Street Theatre. Miss Keene will produce this evening Tom Taylor's comedy An Unequal Match, in which the best members An Unequal Match, in which the best members of the company will appear. On Wednesday and Thursday evenings Charles Reade's beautiful comedy Masks and Faces will be presented, in response to what we know to be very general refuest. On Friday evening Miss Keene will have her first benefit, in a first-rate bill, and we hope the house will be crowded, for the enterprise and good taste of the beneficiary in establishing a first-class theatre here, deserve such a substantial recognition from theatre goers.

This company contains some of the best singers and actors in this line of business in the country and they present an entertainment that is

unsurpassed.

Hermann, the magician, will give his first performance at the Academy of Music this evening. It is hardly necessary to praise this man. He has appeared in this city frequently, and is, without doubt, the most skilful of all the artists in his profession who have visited the interesting that he performs all his us. His peculiarity is that he performs all his tricks without apparatus, but by simple sleight

Singular Rascality.

1 From the New Orleans News of the 27th. 1 A queer case of kidnapping has just transpired, and in some of its aspects it is highly romantic. Chief of Police Cain several days ago received a telegram from Dr. Cessan, residing near Grand Gulf, Mississippi, that his child, a little girl ten years of age, had been kıdnapped by her uncle, John Cessan, and she was probably at that time in New Orleans. Several detectives undertook the search, but their efforts proved unavailing. The only clue given in the despatch was that the child while in the immediate vicinity of her father's house,

had been dressed in boy's clothing, and would, in all firobability, be passed off as her uncle's son. On Sunday the case was turned over to Special Officer Cunningham, and, after a Special Officer Cunningham, and, after a lengthened search, he discovered they had been here, but left a day or two before for St. Augustine, Florida. Telegrams were sent to St. Augustine, St. Marks, Appalachicola and Pensacola, and on Monday the two were arrested in the last-named place by Marshal McCloskey. As the kidnapped child has a great deal of property in her own right, it is supposed her grandmother, residing in Florida, employed Dr. Cessan's brother to do the kidnapping.

Street Bailway Accidents.

Editor of the Bulletin—DEAR SIR: In a recent passenger railway accident, causing the death of a child, the inquest exonerated those in charge of the car from blame. Not having witnessed the casualty, I suppose the verdict correct. It would be inconceivable that wellmeaning men should wilfully harm any fellow-creature-least of all a helpless infant.

These affairs, however, are too frequent. I have no statistics at hand, but from reference to the local columns of the BULLETIN and other papers, I believe that forty or fifty persons are annually killed or maimed by our ity cars. This is far too many.

Grant that in every case driver and conductor are blameless; they cannot prevent accidents made unavoidable by the construction of their vehicles. Overhanging platforms render it next to impossible, when once caught because crushing by the construction beneath, to escape crushing by the unprotected

wheels.

The trucks should always be inclosed, so that no one could, under any circumstances, be run over. At least three or four arrangements have been patented to obviate this danger. Of their respective merits I am not competent to judge, but all intend to prevent injury to persons falling beneath the car.

Legislation is needed upon this matter. The press should lift its nowerful voice in behalf

Legislation is needed upon this matter. The press should lift its powerful voice in behalf of an ordinance making it the duty of each company to guard the wheels of every car with some approved contrivance; and a law could certainly be framed general enough in terms to include all good ideas, without unduly forceing any one patentee.

terms to include all good ideas, without unduly favoring any one patentee.

It may be that in the event of prosecution the companies would find it cheaper to pay damages; than to provide their cars with preventive appliances; but we cannot believe that gentlemen of character could permit such considerations to influence them in a matter where the lives of their fellow-citizens are constantly periled and often sacrificed.

FIRE-PROOF SAFES.

HERRING'S CHAMPION SAFES.

The Burning of Earles' Art Gallery. PHILADELPHIA, September 1, 1869.
Messrs. FABREL, HERRING & CO.,
629 CHESTNUT Street. GENTLEMEN: We have just examined, with the very greatest satisfaction, our safe, purchased of you some cars ago, and which passed through our destructive

fire of last night.

We find the contents, without exception, entirely unharmed, merely elightly damp, and we feel now in a con-Book perfectly safe.

We shall in a few days require a larger one, and will

Very Respectfully,
JAMES S. EARLE & SONS.

· PHILADELPHIA, August 27, 1869. PHILADELPHIA, August 27, 1869.

MESSES. FARREL, HERRING & CO.

GENTLEMEN: In the year 1856 I unfortunately was in business in the Artisan Building, which was destroyed by fire on the 10th of April. I had then in use what I supposed was a Fire-proof Safe, but upon opening it I found everything was destroyed, and fire burning therein. You will recollect, gentlemen, there was several of your safes in that fire, also several in the fire at Sixth and Commerce streets, the next May, five weeks afterwards, all of which upon being opened proved they and Commerce streets, the next may, have ween after-wards, all of which upon being opened proved they were fire proof indeed, for I witnessed the opening of the most of them, and in every case the contents were preserved, while sales of other makers were partially or partially destroyed. I stone concluded to have some entirely destroyed 1 at once concluded to have some-thing that I could depend upon, and purchased one of

your sales.

The safe I purchased of you at that time was subjected
to a white heat (which was witnessed by several gentle-men that reside in the neighborhood) at the destruction of my Marble Paper factory, 221 Wallace street, on the afternoon and evening of the 24th inst. After digging the safe from the ruins, and opening it this morning, I was much pleased to find everything, consisting of books, papers, money and silverware, all right. I shall want another of your safes as soon as I can get a place to continue my business in: I could not rest contented with any other make of safes.

CHARLES WILLIAMS,

Marble Paper Manufacturer. HERRING'S PATENT CHAMPION SAFES, the most reliable protection from fire now known. HER-RING'S NEW PATENT BANKERS' SAFES, combining hardened steel and iron, with the Patent Franklinite, or SPIEGEL HISEN, furnish a yesistant against boring and cutting tools to an extent heretofore unknown. JOYFUL' ANNOUNCEMENT TO SUFFERING HUMANITY.

DRS, GALLOWAY and BOLLES, known discoverers and teachers of applying GALVANISM, BIAGNETISM,

and other modifications of Electricity, for the cure of cute and chronic diseases, have returned to the Phila-elphia Electropathic-Institution, Walnut Street, 2d door east of Thirteenth. They have added two new Operating Booms to the establishment, which will enable them to treat one hundred patients per day. The fact that Drs. Oallo WAY and BOLLES have been practising here for ten years, and have in that time CUBED OVER 12,000 INVALIDS, considered incurable by all other treatment, is evidence the most indubitable of the superiority of their system over all others.
