proportion of his benefactions should be bestowed upon the poor people of that country, and he planned his charity so skilfully that while it gave most welcome relief to the deserving, it also gave encouragement' to honest labor and to the promotion of self-respect among its recipients. To the land of his birth his munificence was even greater; and here, also it took the most desirable form. The bulk of his benefactions were given to the cause of popular education. In the North, where free schools abound, libraries and scientific institutions were founded; in the South, where education of the masses has been neglected, and where the dense ignorance of the lower classes was used by politicians to the injury of the whole country, schools were established and EDWARD P. KELLY provision made for their infinite multiplication, as the people appreciated their importance and began to give them their support. The good results of this wise benevolence can never be fairly estimated ; they will be wide spread and unceasing. The influence of Mr. Peabody's schools will reach through generations, and in FALL AND WINTER GOODS, the future will be felt not only in social life, but in that additional stability of the government, that increased national power, which must result from any large gain to popular intelli-
