SARATOGA, NEW YORK. The analysis proves that the waters of the Saratoga Star Springs nave a much larger amount of solid substance, richer in nedical ingredients than any other spring in Saratoga, and shows what the taste indicates—namely, that it is the STRONGEST WATER. t also demonstrates that the STAR WATER contains 100 Cubic Inches More of Cas in a gallon than any other spring. It is this extra amount of gas that imparts to this water its peculiarly, sperking appearance, and renders it so very agreeable to the taste. It also tends to preserve the delictions flavor of the water when bottled, and causes it to unsork with an effervescence almost equal to Champagne. Sold by the leading Druggists and Hotels the ount.
