EVENING BULLETIN. Monday: November 15, 1869;

THE PROSPECTIVE KING OF SPAIN. The chances of the election of the Duke of skilful direction of Gen. Prim, who is the most powerful man in Spain and the sturdiest advocate of the Italian Prince, the opposition will, eventually, be overcome. A cable despatch informs us that the Italian cabinet has signified is warm approval of the candidature of the Duke, and so the first obstacle which, under some improbable circumstances, might have been insurmountable, is removed. In the Spanish cabinet the opponents of the favorite lowed his example rather than support Gene- ment. cess is going on. There are several vacant scats in that body, many of them having been occupied by Republicans who left the Legislature to unite with the revolutionists in the recent rebellion. These, of course, have forfeited their places; some of them have been condemned to death. General Prim is using his immense influence to fill all the vacancies with deputies who will vote for his candidate, and we do not doubt that he will succeed, in this manner, in securing a great many votes, blocks in every direction. perhaps a majority, in favor of his scheme. So, with the ministry and the Legislature pledged elevation to kingship very good indeed, a decision in favor of any candidate without der command of their chief, Mr. Barney Car- never had a better field in which to exercise proceeding to such measures as those adopted lin, are always ready for service. In less than itself. by him; and as Spain, meanwhile, is without a five minutes, on Saturday, without any effort at quarrels of the advocates of various aspirants, it seems desirable that some strong arm should be interposed to force a settlement. The Dark through 18 inch mercine were being forced be interposed to force a settlement. The Duke of any of the princes nominated. He comes of stusion, each man understanding his business, good stock, he is a generous, sincere and in- and all under the control of their chief. For season" by a Game Dinner which could protelligent youth, and he is having instilled into him sound, wholesome Anglo-Saxon notions of liberty and of the rights of man, at Harrow School, where he is under the instructions of School, where he is under the instructions of good stock, he is a generous, sincere and in-telligent youth, and he is having instilled into the protection of the interior of the building, the protection of the interior of the building, face of the globe. The following is the game Mr. Matthew Arnold. If he is placed upon experiment on the roof, two streams were the throne of Spain, and is guided and trained thrown from Sansom street, far above the lofty during the years of his minority by pure and eaves of the hotel, each exceeding in power and good men, he will probably make an excellent volume the performance of our first-class ruler, and in future years lead his people steamers.

hardly fitted. THE HAYTI ANNEXATION SCHEME. It is alleged that General Babcock has gone to Hayti, to try again to induce the Haytiens to join with the Dominicans in agreeing to a Department, which makes all who see it more plan for the annexation to the United States. If this is true, we sincerely hope General Babcock will not be successful. The absorption of Hayti by this country at the present time might be a blessing to the Haytiens whose currency, under the pressure of a hopeless debt, If "Providence helps those who help themhas depreciated so that \$1,800 of it is worth | selves," people who desire to do good may but an American gold dollar, but it would be safely adopt the same rule. CENTRA

RAILROAD OF IOWA

SEVEN PER CENT. GOLD

FIRST MORTGAGE BONDS

Free of Government Tax,

At 95 and Accrued Interest

This road runs through the richest and mos thickly settled portion of this magnificent State, and is the only link wanting to connect St. Louis and St. Paul by a direct line. 14' miles shorter than any other. It runs through the great coal fields of

Southern Iowa to the North where coal is indisnensable and must be carried. It runs from the great lumber regions of the North, through a district of country which is destitute of this prime necessity.

IT DOES NOT RUN THROUGH A WILDERNESS where it would wait for years for a population to give it business, but through a tier of counties which are, now producing about twenty million bushels of grain, most of which is freight for railroads.

Forty-five miles are just finished, and the Superintendent reports that on the portion open for business the net earnings are more than the interest liabilities. Sixty miles more are graded, and a million and a half of dollars have already been ex-

nended on the work. The mortgage is made to the Farmers' Loan and Trust Co., and bouds can be issued only at the rate of \$16,000 per mile, or only half the

amount upon some other roads. Special security is provided for the principal and for the" avment of interest. First mortgages upon most railroads are the very safest investments, and so far as we can learn, there is not a single completed line in the Northwest which is not only paying its interest; but a good dividend upon its stock. The immense grain and other freights to be carried away, and the domestic supplies to be

brought in, insure a profitable business. First Mortgage Bonds for so small a aniount upon a road running through such a rich and already well-settled part of Iowa, can well be recommended as a perfectly safe as well as very profitable investment. At the present rate they pay about ten per cent. on the investment. Over \$400,000 have already been taken by the Company's officers and others interested in the enterprise. Pamphlets, with map, may be obtained, and subscriptions will be received in Philadelphia by
