Secretary.

The objects of the Association comprise education, public health, economy, trade and finance, jurisprudence and the amendment of laws. Under these heads are included the laws. Under these heads are included the practical reforms most pressing on the public attention—civil service, emigration, mining laws, taxation and revenue. There can be no doubt that Philadelphia is able to supply a large number of members to an association having such subjects as these in hand. Active, working members will find plenty of employment in the preparation of papers for discussion in the sub-committees, and others who share in the desire to forward wise measures of reform can do so by contributing to the of reform can do so by contributing to the funds of the Association. The list of members of the Philadelphia Branch shows that it is in the hands of those who have in view only the

public good.

The following are the members of the Philadelphia Branch, of the American Social Science

(ferlighting ratemiestries on one a

FRANKLIN INSTITUTE.—The regular meeting was held, as usual, on Wednesday evening, with Mr. Coleman Sellers, Vice President, in

After the usual business of minutes, reports After the usual business of minutes, reports from committees, &c., the resident Secretary, Prof. Morton, read his regular report on Novetties in Science and the Mechanic Arts, This was, as usual, illustrated throughout with photographs, engravings and drawings, projected on the screen, by which the explanation of the various machines and processes described was made easy to follow and geometrical.

The method employed by Mr. Parkes in constructing the extensive breakwater for the harbor of Kurrachee, in India, whereby the narpor of Auritanee, in India, whereby the blocks of concrete, weighing twenty-seven wons each, and thus secure against displacement by any violence of the waves, were placed in regular order in a solid wall twenty-four feet regular order in a sond want twonty-round thick, was described and illustrated in the first place. The application of the American tube-well to submarine springs of fresh water on the coast of Austria was then related. The on the coast of Austra was also related. The opening of the Suez canal for the actual date present (Nov 17) was announced, and the structure and erection of wrought-iron chimneys of 197 and 275 feet in height at Creusot, its France, was decouled.

neys of 197 and 275 feet in height at Creusot, in France, was described.

Notice, with illustrations, was further made of the high-pressure Cupola Furnace of Mr. Bessemer, of the new tables for drawing teeth of wheels, of a machine for turning crank pins and one for punching ralls, as also the Water lifter and the Locomotive exhaust by the inventor of the Ejector Condenser, Mr. Alexander Morton, of Glasgow.

Prof. Morton also described the experiments lately made by the Reading Railroad, in lighting up their coal depot, at Richmond, by means of the lime light, and explained the causes which had rendered these experiments more successful than could have been anticipated. He also described the experiments by which

He also described the experiments by which he had demonstrated the origin of the light line in the partial-phase eclipse pictures to be of chemical origin, and not resulting from a lunar atmosphere, as had been very generally

A combined water filter and cooler, by Mr. L. Schaeff, was exhibited in working; account was given of many scientific investigations, such as those of Prof. Rood on the velocity of such as those of Froi. Rood on the velocity of electricity, and Prof. Augustrom on the spectra of the Aurora, Zodiacal Light and oc-casional phosphoresence of the sky, which we have not space to record.

SUDDEN DEATH.—Wm. Carmine, aged 55 years, residing at No. 14 Beck place, Third Ward, was found dead, on the sidewalk, at Grover street and Beck Place, between 12 and 1 o'clock this morning. He had a cut on the left temple, and it was therefore supposed that he had been murdered. The body was that he had been murdered. The body was removed to the Second District Station-house, and the Coroner was notified. The Detectives investigated the affair, and the facts developed were as follows:—The deceased was an oysterman, and had a wagon on Fifth street, below Dickarron. He was formerly the captain of an erson. He was formerly the captain of an oyster sloop, and about twenty years ago his yessel was frozen up near Chester. It was then run into by a ting, and Carmine was seriously injured. Since that time Carmine has been constantly under medical treatment, and has been frequently warned by his physician that he was subject to die suddenly during any undue excitement. Last evening an invita-tion party was given at the New York House, a satiors' boarding-house at Swanson street and Beck's Place. About half-past eleven o'clock a crowd of roughs, comprising oystermen and longshoremen, invaded the place and insulted some of the women present. The men re-sented the insult and drove out the intruders. The latter then gathered bricks, threw them through the windows, got in again and smashed the furniture. Murder was cried, smalled the furniture. Murder was cried, and Carmine, who resided within a few yards of the place, was awakened, got up and told his wife that he would go to the station-house for the police. He started up Beck's Place, and his wife, who looked after him declares that mobody believed him the state of th followed him. In the meantime Lieut. Erick son had heard of the row, and when going down Beck Place with a squad of men passed Carmine. Some of the rioters were arrested, and when the police were returning to the sta-tion-house Carmine was found dead, as above stated. The wound on his head appeared like

STEAM FIRE ENGINES BADLY DAMAGED.-During an alarm of fire at an early hour yesterday morning the steam engines belonging to the Hibernia and Harmony Fire Companies came into collision at Second and Market streets. The collision was very violent and both engines were overturned. The Hibernia had both front spr.ngs broken and was otherwise injured. The Harmony was badly damaged, and it is estimated that the repairs will cost about \$1,000. The horses were some-what injured. The drivers of both steamers were thrown from their seats, but were not

a contasion, and not such an injury as would be caused by a black-jack or a sharp instrument. There were no stones lying about, nor were any outcries heard, and the theory is that Carmine fell and struck his head on the outletone.

HEAVY ROBBERY.—The residence of Gordon Monges, No. 118 S. Nineteenth street, was entered from the rear yesterday afternoon, while the occupants were absent looking at the military parade. The thieves gathered together and carried off a lot of silverware valued at

RESCUING A PRISONER.—Joseph McMullen was arrested, last night, at Third and Gaskil streets, upon the charge of having interfered with and rescued a prisoner from Policeman Dowling, of the Third District.—He was held to answer by Ald. Carpenter.

FOUND DEAD. William Sylvester entered a favern at Front and Green streets last evening and complained of feeling unwell. A set-tee was fixed for him and he went to sleep. This morning it was discovered that the man had died during the night.

ROBERT, The residence of Mrs. Genthuer, No. 1318 Wood street, was entered through a back window, yesterday afternoon, and was robbed of an opera glass, gold pen, some silver coin and Chinese moury, and other

THANKSGIVING DAY AT THE SOLDIERS' CREPHANS' INSTITUTE.—The cheerful beams of the the sunlight yesterday morning shone on a bright and happy family at the Soldiers' Orphans' Institute, at Twenty-third and Parrish streets. The anticipated pleasures of Thanksgiving Day aroused every little inmate at an early hour, and joyous childish voices: wore heard all through the house. The little folks had on their holiday dresses, and all assembled in the upper school-room at 10 A. M., when the Rev. Mr. McNair delivered a short, pleasant and instructive address, which was adapted to his attentive audience. He spoke of our many blessings; a free government, blood-bought, and hence to them doubly dear; of the First Thanksgiving Day on the rocky shores of New England; of these institutions, provided for our soldiers' orphans, and especially remarked the happy, home-like feeling which was here manifested. But our best gift, which we should remember on Thanksgiving Day, is the precious Bible, and the Redeemer of mankind.

After prayer, the children sang a sweet Thanksgiving-hymn, and repeated a beautiful psalm, appropriate to the occasion.

The next in order was dimer, and a most bountiful provision of good things had been furnished by the generous and thoughtful

psalm, appropriate to the occasion.

The next in order was dinner, and a most bountiful provision of good things had been furnished by the generous and thoughtful managers. A sincere thanksgiving was offered by childish lips, and then all did ample justice to what was set before them.

The leading feature of the day, however, was a trip to Germantown. Vehicles enough to carry all the children had been most kindly and gratuitously furnished by the following parties: Wm. Penn Coach, from Andrew Hague's stable; Good Will Ambulance, of this city; Washington Ambulance, from Frankford; Fellowship, from Germantown, and City of Philadelphia Coach, from Wm. Hamilton. The ride was enjoyed by all. Many of the children have scarcely ever ridden in anything except the street cars, and all were in thing except the street cars, and all were in high spirits, and started off with flying colors, beating drums and singing, returning at six

P. M.
We must here mention one other source of
pleasure to the children on this beautiful
Thanksgiving Day. A few weeks ago they
all took a ramble to Fairmount Park. They were there presented with a barrol of wal-nuts. These were carried home by the chil-dren, dried and cracked, and finally they had a splendid time making walnut molasses candy.

candy.

FRIENDS' FIRST-DAY SCHOOL CONFERENCE.

—A conference of teachers and delegates from the "First-day Schools" of Orthodex Friends held throughout the United States, began to meet in this city day before yesterday, and will conclude to-morrow. The meetings are held in the large building on Twelfth street, above Chestnut. The number of delegates is very large, including representatives from New England, New York, Maryland, the West, &c., but they are all entertained, after the old Quaker fashion, by private hospitality. The subjects under special consideration today are: The true qualification for all Christian work—"The love of Christ constraineth," the Holy Spirit guides and teaches us; the need in the Society of Friends for First-day Schools, and Scriptural instruction in Palestine.

ine.
Particular meetings of infant-class teachers, Particular meetings of intant-class teachers, and of those interested in object-teaching, are also being held this morning and afternoon. To-morrow there will be a final gathering for the consideration of deferred subjects, together with the exercises of closing. The subjects heretofore discussed have been: Aims and objects of First-day school teaching; the necessity for, and the right conduct of teachers' meetings; how best to inaugurate and sustain meetings; how best to inaugurate and sustain mission schools; home mission work, and Christian work among the Indians, freedmen

Intermediate meetings have been held for Superintendents, teachers of special classes, and teachers of Bible classes. The general effect of the convocation will undoubtedly be to enhance the influence of technical Bible teach ing amongst a sect who have heretofore left the study of the sacred volume to individual

DISTRESSING ACCIDENT.—James Gibb, aged 18 years, son of C. M. Gibb, residing at 869 Marshall street went to the farm of Mr. Paul, on the Rancocas creek yesterday, on a Thanksgiving visit. While gunning in the morning the trigger of the gun was caught in a bush and the weapon was thereby discharged. The entire charge took effect in the body of Mr Gibb, and he was found dead in the woods, by his friends, who went out to summon him to dinner. The body was brought to the city this morning.

Reckless Shooting.—A little girl, named Susan Lippart, residing on South street, above Eighth, was shot, while playing in the yard of the house, about half-past two o'clock yesterday afternoon. A number of buckshot entered both of her legs, after having passed through the fence at the rear of the road. This represent that the gun was fired in yard. It is supposed that the gun was fired in the yard of a house on Emmeline street. An old colored man, named Daniel Thomas, was arrested on suspicion of having fired the gun. He will have a hearing this afternoon at the

FOUND OPEN.-All of the Lieutenants of Police reported houses found open during last night. In the First District there were nine-teen; Eighth District eight, and Seventeenth District six.

FATAL ACCIDENT.—This morning about nine o'clock, John M. Fried, aged forty years, was killed by a pole falling on him at his brick yard, in Kennedy's lane, between Twenty-first

and Twenty-second streets. SLIGHT FIRE.—Hafter's show-case factory,

No. 122 Vine street, was slightly damaged by fire about ten o'clock last night. SMALL ROBBERY.—The house of John McDade was entered through the cellar-way last night and robbed of \$5.

THE HOMEOPATHIC FAIR .- A formal opening of the Homeopathic Hospital Fair, at Horticultural Hall, took place on Wednesday evening, and gave much pleasure to those present. Mr. C. W. Lawrence, President of the Board of Trustees of Hahnemann College called the assemblage to order and briefly stated the objects of the Fair, the need of a stated the objects of the Fair, the need of a Hospital, and the flattering prospects before them, concluding by introducing ex-Governor Pollock, who delivered an exceedingly interesting address. The Governor was never in better spirit or more thoroughly in earnest in his subject, showing the advances which Homecopathy had made and was likely to be the their threateners the grant practice. make, its influence upon the general practice of medicine, and without claiming absolute superiority or pretending to institute invidious comparison, showed the necessity of greater Hospital accommodations and the importance of sustaining the present praiseworthy effort of the ladies in instituting the present Fair. The Fair is a most beautiful one and well worthy of a visit. It is to remain open until the 30th inst.

IMPORTANT CHANGES.—The winter time-table of the Philadelphia, Germantown and Norristown Railroad, which will take effection Monday next, will be found in our advertising columns. It should be carefully examined by all of the patrons of the road. The time of some of the trains on both branches, which has been the same for years past, has been al-tered in order to make connections with the New York and Washington trains at the crossing of the Connecting Railway. Th connections will be a great convenience to the residents along the line of the Philadelphia, Germantown and Norristown Railroad.

CITY NOTICES.

THE DEMAND TELLS THE STORY .- From all THE LEANNY LELLS THE STORY.—From all directions orders for PHALON'S VITALIA OR SALVATION FOR THE HAIR come pouring in. All thenoxions Dyes, &c., go down, before it. A year honce they will be unmarketable. The ladies say it is as pleasant to use ge a perfumed toilet water, and it is as transpurent as crystal. Nothing else reproduces so perfectly the original line of the hair.

BRILLIANCY OF COMPLEXION is desirable in a lady; and for its preservation Burnett's Kalliston is guaranteed to be a most powerful auxiliary.

PROPLE who vomit at the very thought of pills actually relish Dr. Winslow's Liver and Stomach Lozenges. They are wholly vegetable, don't gripe, agree with everybody, can hurt nobody, and act like a charm in dyspepsia, bowel complaints, liver disease and general debility. Sold by all druggists.

> 423 South Thirteenth Street. FIRE-PROOF SAFES.

HERRING'S CHAMPION SAFES.

PHILADELPHIA, Nov. 1869. MESSES. FARREL, HERRING & Co.,

No. 629 Chestnut street.
Gentlemen: On Wednesday night, the 3d inst., our large Shoo Manufactory, No. 118 North Third street, was burned out. We lost our large stock of goods, but were the fortunate owners of one of your Patented Chainpion Fire Proof Safes, which was exposed for many hours to an intense heat, and did its duty most manfully; in fact, the books, papers and money that it contained came out as good as when they were put in. The contents of the safe were all we saved. Please send us another, of larger size, to our new place as carly as possible.

HERRING'S PATENT CHAMPION SAFES, the most reliable protection from fire now known. HER-RING'S NEW PATENT BANKERS' SAFES, combining bardened steel and iron, with the Patent Franklinite, or SPIEGEL EISEN, furnish a resistant
