Friday, Nov. 26, 1869.—The local money market is in much the same condition as during the balance of the week, but the demand for discounts is steadily falling off, reflecting the stagnant condition of trade. There is, however, an activity in the demand for call loans incident upon the speculative spirit prevailing at the Stock Board.

THERBOAY, Nov. 25.—The gold market was more excited to day ham has been its wont since the subsidence of the memorable speculation of last September. The price again gave way under the pressure to sell and touched 124%, the lowest since the close of the war and, in fact, since the year 1893, when in the enthusinesm anceeding everal 1893, it was to 230. In the five the reason who assert that it touched 300. In the enthusinesm of these influences, it rose to 230. In these days gold speculation was a new thingto Wall street, and the system of recording the fluctuations was not as perfect as now. However, the records, which are regarded as authority, fix the highest figure at 295. Its action has been quite spasmodic from that time to this the speculative element entering into the marked more generally and increasing the transfactor. Thus the dealings on the 24th of September last amounted to about six hundred millions of dollare. Speculation culimitated then, and the price under the operation of legitimate causes has gradually diminished to figures which represent the growing credit of the government and the country. It runs through the great coal fields of Southern Iowa to the North where coal is indispensable and must be carried. It runs from the great lumber regions of the North, through a district of country which is destitute of this prime necessity. IT DOES NOT RUN THROUGH A WILDERWESS. where it would wait for years for a population to give it business, but through a tier of counties which are now producing about twenty million bushels of grain, most of which is Forty-five miles are just finished, and the Superintendent reports that on the portion open for business the net earnings are more Sixty miles more are graded, and a million pended on the work. The mortgage is made to the Farmers' Loan

and Trust Co., and bonds can be issued only at the rate of \$16,000 per mile, or only half the amount upon some other roads. Special security is provided for the principal and for the navment of interest. First mortgages upon most railroads are the very safest investments, and so far as we can learn, there is not a single completed line in the Northwest which is not only paying its interest, but a good dividend upon its stock carried away, and the domestic supplies to be brought in. insure a profitable business. First Mortgage Bonds for so small an amount upon a road running through such a rich and already well-settled part of Iowa. can well be recommended as a perfectly safe as well as very profitable investment. At the present rate they pay about ten per cent. on the investment. Over \$400,000 have already been taken by the Company's officers and others interested in the enterprise. Pamphlets,
