The Democracy of Philadelphia. A SECRET CIRCULAR.

Perhaps some of our readers may compreaend the meaning of the following document, a copy of which has just come into our pos-

To the Members of the Democratic Association f Penn'a-Gentlemen: You are called upon to elect, at the next stated meeting, the offito elect, at the next stated meeting, the officers who are to serve for the ensuing year. The Special Committee of Fifteen, who reported a series of amendments to the Constitution, at the last stated meeting, also, very kindly, suggested (it is said) the name of the candidate for the Presidency. They did so (it is said) unanimously; and such being the case, it was deemed best to present no other name in connection with this position, respecially as the candidate aurounced his unsupposition. especially as the candidate announced his unwillingness to enter into a contest for it.
The candidate was (it is said) Chairman of the
Committee of Fifteen. This would seem to conflict with the statement that the recom-mendation was made unanimously, inasmuch as it would be utterly at variance with the natural modesty of the candidate to recommend

Be the fact as it may, there is but one caudidate; and as you are debarred, by your own action, from making any other nominations, he will (as it is expected that you will all you

Win (as it is expected analysis).

We ought (perhaps) to congratulate ourselves that the present condition of the Association is so entirely satisfactory. The primary and chief object for which it was organized to the control of the control of the Association is so entirely satisfactory. mary and chief object for in view, and (possibly) the same gratifying results heretofore achieved, may be looked for in the future.

Animated, as the original founders undoubtedly were, by the best motives, in carrying out their plans it would seem), nevertheless, that

their plans (it would seem), nevertheless, that they miscalculated as to the best means by which to secure and retain the confidence and support of the Business and Tanhaying portion of the community. It has therefore been determined upon to take a new departure on the read to victory, and it is expected that you will

determined upon to take a new acparature on the road to victory, and it is expected that you will all fall into line forthwith.

Our candidate having been, until very recently, so to speak, "out of politics," at least apparently so, it would seem not inappropriate for the road of the road seem of the road of the road seems before road seems and the road seems of the roa to give some hints, not so much concerning what he has, as what he has not done to entitle him to the distinguished consideration now to be conferred.

now to be conferred.

In the first place, (it is said) that he has never held any public position, (school director excepted) in the gift of the people. This would seem to indicate, either a very becoming modesty, or something else.

Being unfortunate enough, some years since, to be defeated in the contest for the District-Atterneyship (it is said), he took no part subsequently in the proceedings before the Legislature looking to the creation of the office of Assistant District-Attorney, which office (it is said) was intended for the defeated candidate.

date.
When the "late rebellion" broke out, and the "loyalists" inaugurated their crusade against State-rights "heresies,"—when Democratic devotion to the old fogy notions embodied in the Constitution, was regarded synonymous with "Treason,"—when "Copperheads had no with "Treason,"—when "Copperheads had no rights a 'Patriot' was bound to respect"—when neither profit nor "honor" followed Democratic fawning, your candidate, like a good, loyal citizen, kept (it is said) aloof from all connection with the open and avowed "enemies" of his country; and (it is said) that no one can point to a single word or act of his in support of Democratic "Treason" againt the "Loyal" sentiment of the country.

When there was organized what was known as the "notorious Quarter Sessions Ring" (to the breaking up of which our Association so greatly contributed), it is supposed that our candidate had no connection with it, although there seems to be a pretty general

though there seems to be a pretty general impression on the public mind, that the chief engineers of that so-called "disgraceful combination" were well known politicians of both political parties, none of

whom (it is thought) sustained any serious pe-cuniary loss in the management of it. Neither is he (it is supposed) interested, in any way, with that other Ring—the Ring of Rings—"The Whisky Ring," although it is generally supposed that he sustains a very intimate political and professional, if not social relation to some of the principal spirits in this

powerful organization.

These are some of the reasons, negative though they be, which commend our candidate to the consideration of the Association. It is believed (?) that with all the facts and circumstances before them, the members will come forward (every delinquent paying his back dues) in order to participate in the unanimous election of their future President.

It is also believed (?) that there will be large accessions to the organization from the MER-CANTILE and GENERAL BUSINESS COMMUNITY, who will, it is believed (?) see, in this glorious consummation, the dawn of a new era in our nunicipal history, forshadowing, as it will, the overthrow of all "Rings" and "Cliques," and the beginning of an enlightened, economical and impartial administration of affairs.

Should these results fail to be achieved, where shall the BLAME rest? Let those who may refuse to be convinced of the benefits of the change, now to be made, answer this question to their own hearts and consciences.

CITY BULLETIN. THE NEW PUBLIC BUILDINGS.

The Walnut Street Buildings to be First

Erected.

The Public Building Commission held a meeting this afternoon at their room, in the new Court-House, Wm. S. Stokley, Esq., President, in the chair.

dent, in the chair.

The model of the proposed buildings, on the plan of Mr. McArthur, was exhibited, and was examined by the members of the Commission.

Mr. Thomas U. Walter, Chairman of the Committee on Plans and Architecture, pre-

sented the following report:

To the Board of Commissioners for the Erection of Public Buildings—The Committee on "Plans and Architecture" respectfully report—That in pursuance of their instructions they engaged the services of the architect of the accepted design for the new Public Buildings, Mr. John McArthur, Jr., to revise, modify and re-draw his plans throughout, so as to bring them into conformity with the views of the Committee and the ideas of the Commissioners as far as the same have from time to time been expressed. The revised designs are now completed, and are herewith submitted for the final action of the Commission. They are accompanied by a wooden model prepared by order of the Board. This model will be

by order of the Board. This model will be found to illustrate the plans and to convey a general idea of the outside appearance of the buildings.

The Committee have given particular and patient attention to the distribution and arrangement of the interior, in view of the various abjects and uses to which it will be appearance. rious objects and uses to which it will be appropriated, and they are now prepared to say that complete and convenient accommodations are provided for all branches and departments of the nunicipal government, and that provision has been made for the free and convenient ingress and egress, and for the proper accommodation of all who may have business to transact with any of the departments.

The Courts are admirably accommodated.

The court-rooms are of ample dimensions, and are well designed. Light, heat, ventilation, acoustics and architectural effect have the comments and architectural enect mayes been carefully attended to. The jury rooms, the rooms for consultation, the law-library, and all the offices and their appurtenances, are conveniently arranged, and well adapted to the purposes for which they are intended.

The chambers for the Select and Common The chambers for the Select and Common Councils are grand and imposing, and the offices, lobbies, retiring-rooms, and other accommodations pertaining to this branch of the public service are spacious and conve-

All other departments, bureaus and offices connected with the entire municipal government, in all its ramifications, are amply provided for; and an abundance of space is afforded, in well-ventilated apar.ments, for all

forded, in well-ventilated apartments, for an the archives of the city.

All the rooms, halls, corridors and lobbics are well lighted by windows from the outside; well ventilated and well warmed, and every well be strictly and also. part of the buildings will be strictly and abso-

intely fireproof.

In addition to the space at present required ofor the full accommodation of the municipal government, there will be a large surplus of som in the building for future use. The agregate of the floor room appropriated on the ans to all the offices, bureaus and depart-

ments, judicial, legislative and executive, amounts to 174,480 square feet, and the aggregate of the floor room at present unappropriated amounts to 74,816 square feet, all of which remains to be assigned hereafter, as the

business of the city may increase.
As regards the exterior, Mr. McArthur has made a careful and well-studied revision of his design, by which he has rendered it entirely satisfactory to the committee. They are of the IS ALLUDED TO? opinion that, as an architectural composition, it is in complete accord with the purposes of the buildings and with the prevailing taste of

the age. The law of Councils, under which the Com missioners are acting, requires that they shall determine upon and adopt a plan at any time during the year 1869. That they shall thereupon determine what portion of sald plan shall be first executed. That they shall adshall be first executed. That they shall advertise, for at least two weeks, in one or more newspapers, for proposals for the erection of the portions of decided upon. That they shall award the contract or contracts to the lowest and best bidders, requiring ample security; and that they shall thereupon proceed to make the contract or contracts, the form of which the contract or the City Solicitor.

the contract or contracts, the form of which being first approved by the City Solicitor. The Commission is therefore obligated by the express terms of the law, first, to adopt a plan before the close of the present year. In order to accomplish this, the Committee have engrossed the undivided time and energies of the architect, and they have now to say that the work of revision is completed, and the the work of revision is completed, and the drawings and model are before you in time for action, within the limits prescribed by

The next provision of the law requires the Commissioners to determine what portion of such plan as they may adopt shall be first executed. The Committee are of the opinion that the buildings on Walnut street should be the first to be erected. The eight court-rooms, with the law library, and all the offices, and accommodations connected with the courts, accommodations connected with the courts, are in this portion of the structure; it is therefore desirable, in view of the condition of the rooms now occupied by the courts and their officers, that the judiciary department of the city government be the first to be provided for. It should also be remarked that by affording accommodations for the courts and their officers, the buildings they now occupy will be vacated, and may all be taken down, and the ald materials used in the buildings reand the old materials used in the buildings remaining to be executed.

In view, however, of the present high prices of everything connected with building, the Committee are not in favor of putting the whole of the Walnut street portion of the work under contract at the present time; they are of the opinion that it would be to the interest of the city to enter into contract or conracts for such parts only as may be executed

during the ensuing year.

With a view to fulfil the terms of the law in such a manner as shall best subserve the interests of the city, the Committee ask the pas-sage of the annexed resolutions.

All of which is respectfully submitted. THOMAS U. WALTER, STRICKLAND KNEASS, FREDERICK GRAFF, JAMES V. WATSON, James Page, John Robbins, JAMES H. ORNE, JAMES S. WATSON, John McCarthy. Philadelphia, December 27, 1869.

Resolved, That the design for the new Public Buildings, submitted by the "Committee on Plans and Architecture," be and the same is hereby adopted.

Resolved, That the Walnut street portion of

the buildings be the first to be erected.

Resolved, That the "Committee on Contracts" be directed to advertise, in accordance with the second section of the ordinance "to provide for the erection of public buildings, for proposals for such materials and labor a may be required in the excavation of the cel lars of the Walnut street portion of the build ings, and in constructing the foundations, the cellar walls, and the walls of the basement, as high as the surface of the ground; and that the terms and conditions upon which the contract or contracts will be made be specified in the advertisements, as provided for by the third section of the aforesaid ordinance. The first resolution was read.

Mr. Dickinson said that he would like to have an opportunity to examine these plans and therefore moved to postpone the resolu

Mr. Robbins remarked that there was scarce y time for an adjourned meeting. The ordinance creating the Commission requires a plan to be adopted during the year 1869.

Mr. Billington thought that the greatest barrier to the erection of the buildings is the ne glect of City Councils to levy the tax to pro-

vide the means to pay for the work.

Mr. Spering said that it is probable that Mr. Spering said that it is probable that very little expense will be incurred during next year, and City Councils will no doubt provide for it by a loan or a special building-tax. This Commission has nothing to do with money matters, however. Councils may disapprove of the plans, and until that is done the Commission should go on with its work.

Mr. Dickinson did not like to be compelled to yote for or gazingt this resolution. Those

Mr. Dickinson did not like to be compelled to vote for or against this resolution. Those plans were not those for which the first pre-mium had been given, but were altogether other plans, and he had had no opportunity o examine them.

The motion to postpone was not agreed to. Mr. Billington said that he would like to examine these plans. It seems that the only duty of the Commission now is to agree to whatever may be reported by the Committee on Plans and Architecture. The members were told that it was all right, and then the reports were adopted. It appeared to him that this committee possessed more power than any committee of any legislative body that he ever knew of.

The first resolution was then adopted by the

The list resolution was then adopted by the following vote:

YEAS—Day, Gillingham Graff, Kneass, McCarthy, Orne, Pugh, Robbins. Spering, Walter, Jas. S. Watson, Jas. V. Watson—12.

NAYS—Billington, Dickinson, Miller—3.

Messrs. Dickinson and Miller explained that they voted nay because they had not had time to examine the plans.

had time to examine the plans. The other resolutions were then adopted.

Mr. Robbins moved that the Chairman of the Committee on Plans and Architecture be authorized to have photographs taken of the plans, for presentation to members of Conn-

ils. Agreed to.

After considerable discussion, it was agreed that City Councils shall be notified of the action of the Commission and asked for permission to exhibit the models in Independênce

Hall. Adjourne MURDEROUS ASSAULT.—A young man named Chestnut; residing at Dauphin and Hope streets, was before Alderman Sinex this morning, upon the charge of violently assaulting George Nixon, aged 12 years. Last evening Nixon was chasing a dog, when he was attacked by Chestnut, who, it is alleged. beat him with an oak club until his weapon broke and citizens interfered. Nixon is now lying in an insensible condition, at the residence of his parents, No. 2247 Hope street. Chestnut was held in \$1,000 bail for trial.

A JUST SENTENCE.—Judge Cadwalader, this morning, pronounced sentence upon George Mountjoy, convicted of whisky frauds. Mountjoy was sentenced to two years in the Eastern Penitentiary and a fine of three thousand dollars. Judge Cadwalader allowed the prisoner the privilege of a few days to settle up his business, committing him to the custody of the United States Marshal until Saturday next, when judgment will be recorded.

POLICEMAN BLACKJACKED.-C. W. Milham was arrested on Saturday night on Spring Garden street, near Thirteenth. It is then alleged that he assaulted Policeman McDonald with a blackjack. He was taken before Alderman Massey, and was held in \$800 bail on the charge of assault and battery and carrying

concealed deadly weapons. ASSAULTING POLICEMEN.-James Kane and John McLaughlin were chasing a colored man at Seventh and Shippen streets last evening. Policeman McCullough undertook to stop them, when, it is alleged, they assaulted him with blackjacks. They were arrested and Ald. Bonsall held them for a further hearing.

SUPPOSED LARCENY .- John Moran and Beniamin Smith were arrested on Saturday night at Eighth and Shippen streets, with several soldiers' coats in their possession. The gar-ments are supposed to have been stolen. Ald. Bonsall held the prisoners for a further

hearing. THE NEW IRON STEAMSHIP TENNESSEE built by Wm. Cramp & Son, for Mr. Thomas Clyde, of this city, made the trip to New York in twenty hours. She is one of the largest and strongest steamships, and is proving herself one of the fastest, in the country.

THE INSURANCES.—The following is a list of the insurances on the sugar refinery of Messrs. Bogers & Mitchell, No. 221 Vine street, as furnished by Soull & Newbold, insurance agents, and by Evans & Hare, insurance agents, No. 431 Walnut street: BUILDING.
