THE TELEGRAPH STRIKE.—The following is the substance of the latest intelligence of the progress of the telegraph strike, viewed from the strikers side of the question:

At a meeting of the telegraphers, this morning on the strike, they received telegrams from Mr. Trevellick, the President of the Labor Unions of the United States, offering

them assistance, both of money and other aid; and also a message authorizing. W. F. Walls, of Philadelphia, the Secretary of the National Labor Union, to do all in his power to help the operators engaged in the strike, both with advice and neguniary aid, and to perfect, and the operators engaged in the strike, both with advice and pecuniary aid, and to perfect and sustain the organization. A Standing Committee of three was immediately appointed to wait upon the different Trades Unions in the

city. They proceeded at once to Mr. Walls's

They proceeded at once to Mr. Walls's office and waited upon him.

He assured them of his hearty co-operation with the strikers and also that the different organizations would uphold them.

He advised that a public meeting be held of all the Unions, and members of the press be invited to attend, and that the committee of the operators there publicly declare their grievances and set themselves straight before the public, and refute the erroneous impression the Associated Press and other. before the public, and refute the erroneous impression the Associated Press and other agents under the control of the Western Union Telegraph Company are trying to palm off upon the community. There will be a meeting of the principal heads of the unions in this city, at 2 o'clock, to determine upon some decided action, and appoint an evening for the public, and also to wait upon the operators and encourage them in their movement. The Committee on returning to movement. The Committee on returning to headquarters and reporting their success, were received amidst enthusiastic cheers, and

a vote of thanks was immediately tendered to Messis. Tovellick and Wall. Following are some of the despatches received this A.M.:

THE LYLE MONUMENT.—The monument to be creeted to the memory of the late David M. Lyle, Chief Engineer, by the members of the Fire Department, is now undergoing the finishing touches, and will probably be comploted to morrow. The monument consists of a statue of the deceased, six feet eleven inches in height, to stand upon a pedestal about fifteen feet in height, both cut out of Italian marble. It was executed at the establishment of Mr. Andrew Alexander, at Eleventh and Parrish streets, and Mr. Alfred Stauch, the

Parrish streets, and Mr. Alfred Stauch, the sculptor, has done his work in the most skilful, artistic and highly satisfactory manner.

The statue represents the late Chief standing in an easy and natural attitude, in front of a fire-plug. He is clad in the habiliments of his office, with head uncovered. On the left lappel of his coat is his badge. In his right hand there is a horn, and in his left hand he holds his hat, with 'the frontispiece inscribed 'Chief Engineer D. M. L.," prominently displayed.

played.

Mr. Stauch has made a very fine likeness of Mr. the deceased, and the many friends of Mt. Lyle who have viewed the figure while it progressed have complimented the artist highly for the correct and successful manner in which he has portrayed all of the features of the late Chief.

The base upon which the statue will stand is about fifteen feet in height, as before stated. The cap is highly ornamented, the prominent features being a laurel wreath, a monogram, "D. M. L." and a wreath of oak leaf branches. On the front of the die are the emblems of the Fire Department—horn, hook, &c. Beneath these is the inscription showing to whose memory the monument is erected. On the reverse of the die are the names of the fire companies composing the Lyle Monument Association. This base has a sub-base of Pennsylvania blue marble cut so as to repre-

sent small square blocks.

The project of creeting a monument to the memory of Chief Lyle was conceived soon after his sudden and sad death. An association was formed, and the contract was awarded to Mr. Alexander. Mr. Stauch, who has proved himself so competent for the work, commenced the model in the spring of 1868. This was completed in a few weeks, and then cutting the figure out of marble was begun. There were several delays from various causes, but within a couple of months past, the work was resumed vigorously, and has been pushed to a successful completion. The monument is very creditable to the artist. Mr. Stauch, to the establishment of Mr. Alexander, and to the various fire-companies which

supplied the funds to pay for it.

The corner-stone for the monument has already been laid in Old Oaks Cemotery. The dedicatory ceremonies have been fixed for the 122d of February next, and there will no doubt be a fine display of the Fire Department on

DEATH OF A WELL-KNOWN CITIZEN.—The decease of Mr. A. S. Robinson, yesterday, of consumption, will change the form of the oldest art-business in Philadelphia. The father of the deceased, very many years ago, carried on the enterprise in a location further down the street, on the site of the Jayne establishment. He did much to promote the taste of our citizens, in a day when none of our wealthy men ventured to profess a knowledge of ar men ventured to profess a knowledge of art for themselves. He was a steady and cautious merchant, and a particularly good landlord. Dr. Jayne, on negotiating for the property, tound tenants occupying the premises at a nominal rent, on a long lease, and was obliged to pay a heavy bonus to dispossess them. For many years past the firm has been located at No. 910 Chestnut street, where the dearh of Mr. A. S. Robinson leaves it without a head. This business has been in the family no less This business has been in the family no less than seventy-four years.

BARN BURNED.—A large stone barn, belonging to Mr. Charles Palmer, and located near Cobb's Creek and the West Chester and Phila-Cobb's Creek and the West Chester and Phila-delphia Railroad, was discovered to be on fire about half-past four o'clock yesterday afternoon. The flames spread rapidly, and the structure was completely gutted. All the cattle which were in the building were rescued, but a large quantity of grain, &c., was consumed. The total loss is estimated at \$10,000. The fire is supposed to have been the work of an incendiary, as a daughter of Mr. Palmer observed a man leaving the barn a few minutes before the discovery of the fire.

A BIG CHUNK OF SILVER .- A large button of pure silver, weighing 683 lbs. troy, arrived at the office of the Brown Silver Mining Company of Colorado, No. 430 Walnut street, in pany of Colorado, No. 430 Wainut street, in this city, this morning. This huge piece of silver is the product of one month's run of ore from the mines and works of the Company in Colorado, and is the largest piece ever smelted. It is valued at nearly \$13,090, and will remaining the Company's office for a few days for the inspection of the durious; then it will be sent to the U.S. Mint for coinage and Salmon streets, were visited. In the rear of No. 1610 Salmon street, five barrels of whisky were captured. The still had evidently just been torn out, as the bricks were yet warm. The cap and worm were found. The property seized was successfully brought away by the officials.

Religious Revolution---The Queen Barns the Royal Idols, and with Her Aristoc-racy Embraces Christianity. [From the Dally News, Dec. 21.] A remarkable religious revolution has taken place in Madagascar. We learn from a letter from Rev. W. Pool, dated from the capital on the 23d of September, and published in a weekly contemporary, that the Queen has had the royal idols publicly burned, that she and her aristocracy have embraced Christianity, and that the whole province of Imerina, in which the capital is situated, has followed the example of the Government. The Queen embraced Christianity early in the year, and has all the Summer been building a chapel royal. Meanwhile, the wooden fence around the Temple of the great national idol had been pulled down, and the priests assumed a threat pulled down, and the priests assumed a threat-ening aspect, even hinting that their god had medicine which would avenge him on the heretic Sovereign. On the 8th of September they came in force to the capital to claim their rights as nobles. A Council was called, and it was decided to send the Chief Secretary of State and other high officials to the sacred village grown these from the capital and village, seven miles from the capital, and burn the idol before its keepers returned They set off the same afternoon, and by an authority from the Prime Minister They set on the same atternoon, and by an authority from the Prime Minister seized the idol's house. The wood of the fallen fence was collected, and a fire was made, and the contents of the temple were brought out to be burned. First, the long cane carried before the idol in processions was thrown in; then twelve builbocks? sions was thrown in; then twelve bullocks' horns from which incense or holy water had been sprinkled; then three scarlet unbrellas and the silk robe worn over the idol by the keeper who carried it. Then came the idol's case—the trunk of a small tree hollowed and fitted with a cover—and last of all the idol itself. Hardly any of the present generation had seen the god, and great was the surprise when he was produced. Two pieces of scarlet when he was produced. Two pieces of scarlet silk about three feet long and three inches wide, with a small piece of wood about as big as a man's thumb inserted in the middle be-tween them, so that the silk formed as it tween them, so that the silk formed as it were two wings, was the great god of Madagascar, whose touch was sanctifying, and whose nearness was preservative. "You cannot burn him, he is a god," said the people. "If he be a god he will not burn," said the officers; "we are going to try," and held it on a stick in the fire, that the nearly might see it as it was consumed."

The Government, o'clock. Several places on William, Edgmont says the English Independent, adding to the interaction contained in Mr. Pool's letter; therein on street five harrels of the restrict they sent to the Queen to ask what, they were to worship for the future. The Government, says the English Independent, adding to the information contained in Mr. Pool's letter; thereupon appealed to the native Unristians to send Christian teachers, and they at once responded. It was found that of 280 towns and villages in Imerius, 120 already had Ohristian churches, and teachers were at once found for all the rest. This movement, which is refor all the rest. This movement, which is remarkable for its purely native origin, is another proof that in certain stages of civilization nations may be converted by authority. The conversion of Madagascar has been accomplished in the nineteenth contury much as that of the Saxons was accomplished in the sixth. The iconoclast is the reformer's forcumer. FIRST MORTGAGE CONVERTIBLE SINKING FUND BONDS AT 95.

ISSUED BY THE Burlington, Cedar Rapids and Minne-

sota Railroad Company. Yielding about 10 per cent, currency ; principal fifty

years to run, payable in gold. Secured by the railroad branches, depot grounds, rolling stock, equipment and franchises of the company. These bonds are only issued upon each section of the road as fast as the same is completed and in successful operation. Two and a half millions of dollars have been expended on this road. Eighty-three miles are nearly completed and equipped, and strendy show large earnings, and the remainder of the line is rapidly progressing in construction. 🖖

This Loan has been selected by our firm after a thorough and careful investigation, consequently we have no hesitation in recommending it to our friends as a perfectly safe, profitable and first-class security. Our opinion is fully confirmed by the following strong letter from the experienced and eminently successful manager of the Pennsylvania Railroad Company:

PENNSYLVANIA BAILROAD COMPANY. PRESIDENT'S OFFICE,
PHILADELPHIA, May 11, 1869.

Messrs. HENRY CLEWS & CO., 32 Wall street.

Gentlemen: In answer to your request of the 7th ult. for our opinion as to the condition and prospects of the Burlington, Cedar Rapids and Minnesota Bailway, the character of the country through which it passes, and e probable success of the enterprise, we would state that before accepting the trust imposed upon us by the First Mortgage Bonds of this Company, we had fully atisfied ourselves as to the practicability of the enter

The Road starts at one of the most flourishing cities on the Northern Mississippi river, and runs in a Northwesterly direction up the great rich Cedar Valley, cor necting at prominent points along the line with six different Railroads, now in active operation, nearly all of which must be, more or less, tributary or feeders to this

This enterprise is destined to become, in connection with others now in operation or being constructed, one of the great trunk lines from Lake Superior, via St. Paul, Cedar Rapids and Burlington, to St. Louis, and to the Bast, over the Toledo, Peoria, and Warsaw, and the Pennsylvania Railroads, which we present. But aside from this, the populous condition of the country along the line of this road, its great productiveness and wealth, give sufficient guaranty of a good local business, which, for any road, is the best reliance

A good index of the prosperity and wealth of the country_through_which_this_road_passes: may be found in the fact that the Company report over a milon and a quarter dollars subscribed and expended by individuals residing along the line in pushing on one hundred and sixty miles of the work, and it is also a strong proof of the local opularity and necessity

e road.
Yours respectfully,
J. EDGAR THOMSON,
President of the Penn'a R. R. Co.
Trustees. CHARLES L. FROST, Pres't Toledo, Peoria & Warsaw R. R. Co.

As an evidence of the resources and immeuse traffic of the section of country through which this road runs we present the following official statement of the SURPLUS AGRICULTURAL PRODUCTS SHIPPED FROM THE STATE OF IOWA by the different railroads therein, during the year ending April 30, 1869, just issued by the ecretary of State :

Number of horses... Number of cattle... Number of hogs... Number of sheen. 52,733 Dressed hogs, lbs. Lard and pork, lbs..... . 7.582.579 2,866,196 Wheat, bushels..... .. 9,196,543 Corn. bushels . 2.210.303 Other grains, lbs. Other grains, bushels 1.808.047

Animal products not otherwise specified, lbs......10,983,110 The preceding official statement is made up almost ex-clusively of the shipments Eastward, and does not include the amount of Produce shipped Eastward from Dubuque or McGregor; which would swell the totals materially. If the shipments Westward by the railroads were given, they would swell immensely this surprising exhibit of surplus products.

THIS ROAD ALSO RUNS THROUGH THE RICH AND GROWING STATE OF MINNESOTA. Reference to the map of the United States will show that THE ROAD PASSES THROUGH THE MOST EN-

TERPRISING AND GROWING PORTION OF THE WEST, AND FORMS ONE OF THE GREAT TRUNK LINES IN DIRECT COMMUNICATION WITH NEW YORK, CHICAGO and ST. LOUIS, being to the latter city 90 miles nearer from Northern Iowa, and all portions of the State of Minnesota, than by any other road now built or projected, and also the nearest route from Central and Southern Iowa. This road is required by the wants of that section where a large and increasing traffic is waiting for it, and

needs railroad communication. THE BUYER OF THESE BONDS IS THEREFORE GUARAN-TRED BY, A GREAT BUSINESS ALREADY IN EXISTENCE, AND HAS NOT TO RUN ANY OF THE CONTINGENCIES WHICH ALWAYS AT-TEND UPONTHE OPENING OF ROADS INTO NEW AND UNSETTLED COUNTRY.

We offer these bonds for the present at 95 and accrued interest, WE RECOMMEND THEM TO IN-

TO BUSINESS MEN.

Our Agency affords such perfected arrangements and such superior facilities that we can offer the very greatest inducements for advertising in all the Newspapers of the Northern and

Western States. But we call particular attention of advertisers to the Newspapers of the Southern States which are now so greatly increasing in importance. The Southern people are constantly advancing in all material prosperity. With almost boundless agricultural resources they are rapidly introducing all the mechanical arts, and their manufacturers are adding immensely to the value of their agricultural products. The Southern States present to merchants, tradesmen and business men generally, the most alluring prospects for bountiful returns for their invest-

ments in advertising. Our "INDEX" contains a complete record of the Southern Newspapers-in which we can ffer extraordinary inducements to advertisers—and is furnished without charge on application.
