

ANOTHER ERIE DISASTER.

Collision at Hankins' Station—Two Freight Trains Demolished—Narrow Escape of Engineers and Firemen—Ponton, Tuesday, Jan. 25, 1870.—A disastrous railway accident occurred about 1 o'clock this morning at Hankins' station on the Delaware Division, Erie Railway, west of Fort Detroit. A regular eastward-bound freight train, Dewitt, conductor, laden with flour, butter and other products of the West, took the switch at Hankins', and, awaiting the passage of the express passenger train East. After the train had passed, the engineer of the freight train started to pull out his train, and when fifteen or sixteen cars had reached the main track an extra freight train came thundering along and ran into the regular, demolishing locomotive No. 380, attached to the extra train, and killing the cars one upon the other, and smashing them and scattering their contents in all directions. The engine, which was wrecked, keeled over on its side, and was mounted by the cars following. Between fifteen and twenty cars were shattered and badly broken up, and both tracks were strewn with the wreck. The engineers and firemen were brothers, named Smith, and when they saw the collision evident, jumped from their engine, and thus saved their lives. Their injuries were but slight. Benson, the conductor of the extra, was cut about the head but not seriously. A brakeman on the extra was holding on to the foot-board of the forward car when the engine struck the regular, and was thrown off, but escaped with slight injuries. A wrecking train was despatched from this place, and succeeded in clearing one of the tracks sufficiently for the passage of passenger trains, which were detained about five hours. The loss to the Company by this accident is heavy.—Times.

SEVEN PER CENT. INTEREST IN GOLD.

FIRST MORTGAGE CONVERTIBLE SINKING FUND BONDS AT 95,

ISSUED BY THE Burlington, Cedar Rapids and Minnesota Railroad Company.

Yielding about 10 per cent. currency; principal fifty years to run, payable in gold. Secured by the railroad, branches, depot grounds, rolling stock, equipment and franchises of the company. These bonds are only issued upon each section of the road as fast as the same is completed and in successful operation. Two and a half millions of dollars have been expended on this road. Eighty-three miles are nearly completed and equipped, and already show large earnings, and the remainder of the line is rapidly progressing in construction.

PENNSYLVANIA RAILROAD COMPANY.

President's Office, Philadelphia, May 11, 1869. Messrs. HENRY OLWEBS & CO., 32 Wall street, Gentlemen: In answer to your request of the 7th ult., we beg to inform you that the condition and prospects of the Burlington, Cedar Rapids and Minnesota Railway, the character of the country through which it passes, and the probable success of the enterprise, we would state, that before accepting the trust imposed upon us by the First Mortgage Bonds of this Company, we had fully satisfied ourselves as to the practicability of the enterprise. The road starts at one of the most flourishing cities on the Northern Mississippi river, and runs in a North-westerly direction upon the great rich Cedar Valley, connecting at prominent points along the line with six different Railroads, now in active operation, nearly all of which must be, more or less, tributary or feeders to this Road.

This enterprise is destined to become, in connection with others now in operation or being constructed, one of the great trunk lines from Lake Superior, via St. Paul, Cedar Rapids and Burlington, to St. Louis, and to the East, over the Toledo, Peoria, and Warsaw, and the Pennsylvania Railroads, which we present.

Outside from this, the populous condition of the country along the line of this road, its great productiveness and wealth, give sufficient guaranty of a good local business, which, for any road, is the best reliance or success.

A good index of the prosperity and wealth of the country through which this road passes may be found in the fact that the Company reports over a million and a quarter dollars subscribed and expended by individuals residing along the line in pushing on one hundred and sixty miles of the work, and it also a strong proof of the local popularity and necessity for the road.

Yours respectfully, J. EDGAR THOMSON, President of the Penn. R. R. Co. CHARLES L. FROST, Trustee. Pres't Toledo, Peoria & Warsaw R. R. Co.

As an evidence of the resources and immense traffic of the section of country through which this road runs we present the following OFFICIAL STATEMENT OF THE SURPLUS AGRICULTURAL PRODUCTS EXPORTED FROM THE STATE OF IOWA by the different railroads therein, during the year ending April 30, 1869, just issued by the secretary of State:

Number of horses..... 1,623  
Number of cattle..... 80,287  
Number of hogs..... 512,257  
Dressed hogs, lbs..... 62,753  
Lard and pork, lbs..... 13,487,778  
Wool, lbs..... 2,956,196  
Wheat, bushels..... 9,156,843  
Corn, bushels..... 2,210,283  
Other grains, lbs..... 25,478,854  
Other agricultural products..... 1,988,947  
Flour, and other agricultural products, lbs..... 23,703,307  
Annual products not otherwise specified, lbs..... 10,983,110

The preceding official statement is made up almost exclusively of the shipments Eastward, and does not include the amount of Produce shipped Eastward from Dubuque or McGregor, which would swell the totals materially. If the shipments Westward by the railroads were given, they would swell immensely this surplus exhibit of surplus products.

THIS ROAD ALSO RUNS THROUGH THE RICH AND GROWING STATE OF MINNESOTA. Reference to the map of the United States will show that THIS ROAD PASSES THROUGH THE MOST ENTERPRISING AND GROWING PORTION OF THE WEST, AND FORMS ONE OF THE GREAT TRUNK LINES IN DIRECT COMMUNICATION WITH NEW YORK, CHICAGO AND ST. LOUIS, being to the latter city 90 miles nearer than Northern Iowa, and all portions of the State of Minnesota, than by any other road now built or projected, and also the nearest route from Central and Southern Iowa.

This road is required by the wants of that section where a large and increasing traffic is waiting for it, and needs railroad communication. THE BUYER OF THESE BONDS IS THEREFORE GUARANTEED BY A GREAT BUSINESS ALREADY IN EXISTENCE, AND HAS NOT TO RUN ANY OF THE CONTINGENCIES WHICH ALWAYS ATTEND UPON THE OPENING OF ROADS INTO NEW AND UNSETTLED COUNTRY.

We offer these bonds for the present at 95 and accrued interest. WE RECOMMEND THEM TO INVESTORS AND OFFICERS OF FINANCIAL INSTITUTIONS, WHO DESIRE TO CHANGE THEIR HIGH-PRICED INVESTMENTS FOR A SECURITY WHICH PRESENTS EVERY ELEMENT OF SAFETY, AND AT THE SAME TIME YIELDS A MUCH HIGHER RATE OF INTEREST.
