ROBINSON CRISOE'S ISLAND.

Present Condition of Juan Fernandez Juan Fernandez, it is said, has he in pur-chased by an enterprising German, who has experted thither a considerable colony of his couptrymen and supplied them with suitable implements of agriculture. The popular notion of the island, derived from Robinson Grusoe, is a very incorrect one, and Mr. H. Kingsley, the most recent editor of Defoe's Kingsley, the most recent editor of Delots story, assures us that the two islands have nothing in common except caves and goats. Juan Fernaudez is a long, rocky island, somewhat larger than New Jersey, and lying fin the South Pacific, about 400 miles off Valparaiso, on the coast of Chile. If things have not deteriorated since Selkirk's time, the German allowing will have plagent our tars. colonists will have pleasant quarters—a climate so good that the trees and grass are verdant all the year round, and a soil so fertile that everything thrives luxuriantly.

CURE OF GRAVEL OF FIVE YEARS'STANDING-STONE PASSED AND TO BE SEEN.

SAVANNAH, Tenn., May 14, 1869.

DEAR SIR: We introduced your "Fluid Extract Buchu" in this country about eight months ago, and ore happy to state that it is meeting with universal favor. We wish to inform you of one instance (among many) where your "Buchu" has worked wonders. A man in our county, named J. B. Estell, has been suffering about five years with gravel. About six weeks ago e bought of us one bottle of your "Buchu," and before he was through with one bottle he passed a gravel that weights eight grains, which we now have on exhibition in our drug store. He says that he will never be without the "Buchu" in his house again. Your preparations are gaining favor every day.

Very respectfully, yours, &c., ECCLES & HINKLE, Druggists.

CURE OF BLADDER AND KIDNEY AFFECTION OF LONG STANDING-STONE PASSED AND TO

WESTPORT, Conn., Sept. 5, 1869.

H. T. Helmbold, Esq.-DEAR SIR: I commenced taking your " Extract of Buchu'' about two weeks since for an affection of the bladder and kidneys. I have suffered by spells very much for a few days past. But yesterday relief car through the effect of your "Buchu." A stone passed from my bladder about the size of a large pea, and I now feel perfectly well and entirely free from the pain that I have suffered with "so hard." I attribute my cure to your medicine entirely, and would recommend all per-

sons similarly affected to try it. I have great faith in its curative powers. Yours, truly, THOMAS J. BENNETT,

> THANKS TO MR. HELMBOLD. GIRARD, Penna., March 31, 1839.

EDITOR COSMOPOLITE: I desire, as an unsolicited tribute to the merits of Helmbold's Buchu, and for the benefit of those similarly afflicted as myself, to say that after consulting many eminent physicians, and trying nearly all the best advertised remedies, in the vain hope of finding relief from aggravated kidney and bladder liseases, from which I have suffered excessively for many years, good fortune finally suggested to me Helmbold's Buchu, which I commenced using with little faith, and no apparent beneficial results for about a month. At the expiration of that time, however, I thought, I commenced to experience slight relief, which encouraged me to persevere in us use, and now, at the expiration of four months, although I am an infirm old man, hearly 78 years of age, and consequently medicines cannot be expected to favorably affect me as they otherwise would, I have found such unspeakable relief and permanent benefit from Mr. Helmbold's valuable discovery, that I feel I ought to publicly record the fact as an acknowledgment to him and a valuable suggestion to the public. Yours, respectfully,

D. M. LAREN.

A PERMANENT CURE OF GRAVEL OF TWELVE YEABS' STANDING-STONE PASSED AND TO

BURNSIDE, Conn., Dec. 15, 1869. Dr. Helmboid-DEAR SIR: It is with much pleasure that I write you upon facts respecting myself. I do not know hardly low to express myself. I have been for the last ten or twelve years the greatest sufferer man could be and live. but more sometimes than others. The complaint was the "kidueys" and "bladder." I have been sometimes from twelve to fourteen hours, and wanted to make water every minute, and could not. Have consulted doctors, both in Massachusotts and this State, and taken pills, I may say by the quart, also liquored medicines, but found no relief from any, and got worse the last six months. I was so that I could scarcely get about. I could not rest night or day. It would soon have been "all up" with me, if I had not seen your advertisement in the Berkshire Courier, headed "Kidneys," I read it through and thought I would try it. I purchased a bottle, but, mind you, had not much faith in it. Why should I, when I had been trying so many things and cost me so much? Well, I began taking it, and before I had taken the first bottle. I felt bad; but I finished it and got another. By the time I took half of the see I still got worse (apparently). When I walked it seemed as if my right kidney was falling from its place, and I felt really had. I felt so before I had unished the second, that I had made up my mind it was of no use trying any more—and all this time the "Buchu" was doing its work. but I did not know it; so I save it up and went to Hartford on Saturday to one of the best doctors in the city. He said it was the neck of the bladder, and I should have to undergo an operation. He gave manuclicine, and I went home quite compleared. On Sunday I was mable to go to charch. I had not taken any of his modicine, but on my return continued using the "Buchu," and in the after-mont I had a desire to make water, but could not. About one from riter this I tried again, with the same result but the next time I took the vessel It was the same as turning a famet and stopping it off again. It was so for three times, and the third time there w 2 something come through the passage and struck against the side of the vessel. I examined it, and it is the ugliest stene or pravel you ever saw, covered over with little pieces which coblected together. It looks the color of a mud turtle, and is as hard as filmt. Boyou see the "Buchu" was doing its work, although I was feeling so badly I projured another buttle, thinking there might be some more behind; but since that has passed, which is eight weeks a both the three the stone securely wrapped, and these who have seen it in this place are surprised I councited you all; but this is a true story of my case, and you are welcome to make such use of my name

as you think proper. I am pretty well known in Berkehire; also in Connecticut. The advertisement would me, Why not publish more? The

BEARSFORD, Hartford, Coun. All of whom treated me for the disease Dr. KEYSER is a physician of over thirty years' experience, and a graduate of the Jefferson Medical College, and of the University of Medicine and Surgery of Philadelphia.

Mr. H. T. Helmbold-DEAR SIR: In regard to the question asked me as to my opinion about Buchu, I would say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form or preparation of it I have not used, or known to be used, in the various diseases where such medicate agent would be indicated You are aware, as well as myself, that it has been ex tensively employed in the various diseases of the blad der and kidneys, and the reputation it has acquired, in

my judgment, is warranted by the facts.

I have seen and used, as before stated, every form of Buchu-the powdered leaves, thicture, fluid extracts-and I am not cognizant of any preparation of that plant at all equal to yours. Twelve years' experience ought I think, to give me the right to judge of its merits; and without prejudice or partiality, I give yours precedence

over all others. I value your Buchu for its effect on patients. I have cured with it, and seen cured with it, more discusses of the bladder and kidneys, than I have ever seen cured with any other Buchu or any other proprietary compound of whatever name. Respectfully yours, &c.,

No. 140 Wood street, Pittsburgh, Penns. August 11, 1865. A CASE OF TWENTY YEARS STANDING.

PHILADELPHIA, Ponn., June 25, 1867.

H. T. Heimbold, Druggist-DEAR SIR: I have been a sufferer for upwards of twenty years with gravel, bladder and kidney affections during which time I have used various medicinal pre-parations, and been under the treatment of the most eminent physicians, experiencing but little relief.

parations, and been under the treatment of the most eminent physicians, experiencing but little relief.

Hazing seen your preparations extensively advertised, I consulted my family physician in regard to your Extract of Buchu.

I did this because I had used all kinds of advertised remedies and had found them worthless, and some quite injurious; in fact, I despaired of ever gotting well, and determined to use up remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advortised, that it was composed of buchu, cubebs and uniper berries, it occurred to use and my physician as an excellent combination, and with his advice, after an examination of the article and consulting again with the druggist, I concluded to try it. I commenced to use it about eight months ago, at which time I was confined to my room.

From the first bottle I was astonished and gratified at the benefic fall effect, and after using it three weeks was able to walk out. I felt much like writing to you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to deter, and see if it would effect a perfect cure, knowing that it would be of greater value to you and more satisfactory to me.

I am new able to report that a cure is effected after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use on such affections.

All my friends (with mysein) came to the conclusion that my case was incurable. Accident placed your advertisement in my hands. I commenced taking your "Buchu." I followed the directions, and to my utter astonishment, before I had taken seven hotties of your valuable medicine, (I would give 3100 a bottle, if I could not get it at any other price,? I amentirely cured. I most earnestly recommend it to all those suffering from disease. I have told many persons to take your valuable medicine, and they are doing so with great success.
