THE DAILY EVENING BULLETIN-PHILADELPHIA, WEDNESDAY, FEBRUARY 23, 1870.

base per la serie de la per la serie de la per la p to deal wisely with the most precious of metals will take into due government the uses of all

ones, they necessarily degrade themselves and it together, and have no right to complain afterwards that it will not acknowledge better grounded claims. But if every painter of real ower would do only what he knew to be best. nd refuse to be involved in the contention r undeserved or accidental success, there is, deed. whatever may have been thought of said to the contrary, true instinct enough in the public mind to follow such firm guidance. It is one of the facts which the experience of hirty years enables me to assert without qualifi-

cation, that a really good picture is ultimately always approved and bought, unless it is wilully rendered offensive to the public by faults hich the artist has been either too proud t abandon or too weak to correct." To this the lecturer added a personal con-

"It may, perhaps, surprise, but I think it will please you, to hear me, or (if you will permit me in my own Oxford the presumption of fancying that some may recognize me by an old name) to hear the author of 'Modern Painters,' say that his principal past errors have been not in overestimating, but in too slightly acknowledging, merit of living men. He whose power while he was yet among us I was able to perceive was the first to reprove me for my disregard of the work of his fellow-artists, and with this inauguration of the study of the arts of all time, a study which can only by true modesty end in wide admiration, it i surely well that I connect the record of these words of his, spoken then too truly to myself -and true always more or less of all who are untrained in that toil-'You don't know how

difficult/it is.? "

The/demand for art by the classes occupied solely in the pursuit of pleasure, he character-ized-as wholly unenlightened and powerful only for evil, being especially deadly in its inand for evil, being especially dealer and is wellers, works of existing conditiones and the length of as the member of the states of existing art as would best re-theter study, and the length of as the content remain heaving for the states of the for the length of as the content for the states of the for the study is indeed possible no less in peace that they for well being art the spot states and the dealer of the states of the length of the states of the for the states of the states of the for the states of the states of the for the states of the states of the states of the for the states of such design being usually produced by people of great natural powers of mind, who had no variaty of subjects to employ themselves on, no oppressive anxieties, and were 'in circumstances.

either of natural scenery or of daily life, causing consistently healthful excitement. The English had too much to think of, and hought of it too anxiously. Moreover, the lowers of doing finer ornamental work in-distant nations, transformed from savageness powers of doing finer ornamental work in volved hereditary discipline, and all our imita-tion of other people's efforts was fatile. More-

"For there is one strange but quite essential the Senate. But he has a head older than his the character in us ever since the Conquest, if not earlier—a delight in the forms of burlesque which are connected with some degree of foulness in evil. I think the most perfect type of a true English mind, in its best possible temper, is that of Chaucer, and you will find that while it is for the most part full of thoughts of the result of the gand will be the to form. A pril of the order of the true cool and efficient method of the true to form. beauty, pure and wild, like that of an April morning, there are, even in the very midst of adopted by Ames was exhibited the extraor-
