B. A. on Monday morning last. At this time all the operations in the Lehigh, except one or two operations in the Lehigh, except one or two at Hazleton, and all but the Delaware and at Hazleton, and all but the Delaware and the suspension which has been impending for several weeks was inaugurated in portions of the coal region by order of the W. B. A. on Monday morning last. At this time all the operations in the Lehigh, except one or two of the coal region by the imports and experise of merchandise and specie, and who was done; and while upon this subject I would recommend that a strong effort be made, this spring, to get as much land broken as possible, to give the Indians a start in planting; and whilst recommending, I securities sliped to Europe during the same period, it became avident to the Gold Room that gold and Budson, Delaware, Lackawanna and Western, and Pennsylvania companies in the Wyoming and Lackawanna have stopped. Schuylkill has not yet turned out. If the suspension can be extended over the whole coal region, and all productions stopped, it will accomplish its object; i.e. the decrease of the immense supply of coal and the consequent recuperation of the market. This was intimated a short time since when we expressed a doubt as to the probability of a general strike. The whole question hinges here. If the Schuylkill and Lackawana regions disregard the action of the Lehigh and Wyoming men, and continue work, the latter will be obliged to resume; but if the mandate of the Union is enforced, the strike can be continued indefinitely. The Lackawanna companies triumphed over the basis last spring. and their men are apparently loath to turn out while their good wages continue under the present brisk trade of that region. Load complaint is made against wanna companies triumphed over the basis last spring, and their men are apparently loath to turn out while their good wages con-tinue under the present brisk trade of that region. Loud complaint is made against them by the Union men of this region, and their action in the premises is awaited with anxiety. The position of Schuylkill will greatly depend upon Lackawanna. Whether a prolonged and general suspension occurs or not, the market will be ease. and prices must advance. Coal cannot be sol ew of the prospect of an interruption in oduction, dealers are inclined to hold off for advance, and we look for better prices
