The Death of General Thomas—The News Received by the President. f Special Despatch to the Philada, Evening Bulletin.] WASHINGTON, March 29.—There is a general gloom in military circles, caused by a atch received this morning by Secretary Belknap, from San Francisco, announcing the death of Maj.-Gen.Geo.H.Thomas, by apoplexy at a late hour last night. The sad news was communicated to the President as soon as rereived by the Secretary of War. An official notice of his death will probably be issued

from the White House to-day, with an order to close the War Department on the day of The San Domingo Purchase. Senator Morton has been closeted with the President nearly all the morning in reference to the St. Domingo treaty; and, as it has bedaily.

The Bare and Brazen Blondes. obtain a two-thirds vote in the Senate, some new move will probably be made by the friends, of the Administration in the Senate to prevent any action on the treaty at present. Senator Sherman's proposition to postpone the subject indefinitely, until the Commissioners can be sent to the Island to make a thorough examination into its condition and resources, is not likely to pass. The opponents of annexing the Island seem to favor the settlement of the question at the present time, without further delay, in order

New York, March 29.—The girl Margaret were very quiet and dull. So inactive a market has selden been sent to the Governor in the same shape. But an entirely different bill had been signed by the Governor. Instead of putting money into the City Treasury, the one as signed is to take \$100,000 from the Treasury and place it in the pocket of an individual. He had inquired in the transcribing room of the House in relation to the matter, but there was no copy of the bill there, and one of the clerks had told him that there was a mystery connected with matter investigated, and he thought the best way to proceed was to offer a bill repealing the actional process.
