FROM WASHINGTON. [Special Despatch to the Phila. Evening Bulletin.] WASHINGTON, April 27.-The Ways and Means Committee have evidently become alarmed at the action of the House in refusing to increase the duty on the various grades of iron. A full meeting was held this morning, and, after a discussion, the Committee decito strike out all those sections in the Tariff bill, not already considered by the House, re lating to iron, which propose an increase of the duty now imposed by law. This course was advised by the leading protectionists for fear that the House would reduce the duty on the various kinds of iron if the bill continued to contain sections open to amendment. The bill, as modified this morning by the Committee, does not propose any increase in the
