THE FERRARIAN SYSTEM.

It has long been acknowledged, by people of advanced liberal ideas, that the theory of a Federal system of government is unexceptionable.

Now, who is to blame for this standing issue? The Mayor says that it is not to blame, and that it is the fault of the Federal system.

Some of the most selfish and ambitious despots of the present time have been found to be found in the Federal system.

We suggest to the Committee of Councils that a public table, that a disposition of one thousand of the fifteen thousand dollars would be given to that end.

Not a war has occurred between different powers in Europe for centuries that could not have been avoided, if the Federal system, as established on truly republican principles, as it is now in the United States, had been in existence.

It is in answer to several inquiries, it may be stated, that our worthy countryman, Benjamin, is a native of the Ninth Ward of this city, being a son of the senior partner of the firm of Benjamin & Co., of Philadelphia.
