Weather raining. Wind Northeast THE PHILADELPHIA WATER WORKS.

What Work Has Been Done and What

The scarcity in the supply of water during the drouth of last summer has caused an ap-prehension among many citizens that the prehension among many citizens that the same trouble may occur during the next sum-mer, which is now close at hand. The Water Department has been actively at work, with the means at its disposal, and this year we are a little better off in the appliances for obtain-

ing a supply of water.
At the Schuylkill Works the new Cornish

engine has been in operation since last win-ter, and works very well. It is a side-lever engine, with a 72-inch cylinder and a 36-inchpump, both with a ten feet stroke. Its pumppump, both with a ten feet stroke. Its pumping capacity is eight million gallons per day. A larger engine, of the same pattern, capable of pumping ten million gallons per day, has been contracted for, and will be ready for service in about nine months. These engines take the place of the original one, which was placed in the works twenty-four years ago.

At Fairmount Works the second—large turbine wheel is almost completed, and it is expected will be ready for service by the first of June. Its capacity for pumping will be eight million gallons per day. For the third turbine wheel the contract has been entered into, and work will be commenced immediately. and work will be commenced immediately. This wheel will be in operation in about a year. These wheels take the places of two of the old wooden wheels, leaving two of the old wooden wheels.

the old wooden wheels, leaving two of that style remaining. For replacing these with turbines there is as yet no appropriation. For the Delaware Works an engine with a pumping capacity of six million gallons per day has been contracted for, and will be furnished in a year. There are now two engines with a capacity of six million gallous per day at these works. A reservoir for these works is now being built at Sixth street and Lehigh avenue. The work was commenced on the

lst inst, and it is expected to be completed about the close of next year.

For the West Philadelphia Works, the reservoir at Belmont is progressing favorably. One section—about one-half—will be ready for use in about two months. In a handsome for use in about two months. In a handsome new engine-bouse near. Belmont Cottage a new-engine-has been put up, and will be started as soon as the reservoir is ready for use. Its capacity will be ten million gallons per day. A second engine is building, and will be completed in about six months. The old works near Girard avenue, with a capacity of four million gallons per day, are to be dispensed with.

pensed with

At Chestnut Hill the reservoir is undergo At Chestnut Hill the reservoir is undergoing extensive repairs.

At the Roxborough reservoir, which has
been under repairs, the work has been stopped
for the want of money. The matter is now in
charge of a sub-committee of the City Councils, and, it is to be hoped, will soon be reported upon, so that the necessary appropriation can be made by City Councils.

Nothing has been done yet in regard to the
building of the storage reservoir recommended building of the storage reservoir recommended by Chief Engineer Graeff. It is proposed to put up this reservoir in the East Park. It will

cover eighty-five acres of graund, and will have a storage capacity of six hundred million gallons. It was intended to cover the expense by a loan of \$3,600,000, but as City Councils reduced the amount of the loan to \$1,000,000, the work cannot be commenced. The result of the work done since last sum-

mer will give us an increase of five million. gallons per day by steam power and eig million gallons per day by water power.

STAINING AFFIRM.—Last night, about 11 o'clock, Allaway Frich, aged 28 years, was stabbed, as is alleged by John Kelly, at a house No. 754 South Eleventh street. An association meets at that house. The two men have been in the habit of going there. Last night, after the close of the meeting, they had some words about a woman whom Kelly visits. A quarrel ensued, and then Kelly, it is alleged, drew a large-sized pocket-knife and stabbed Flich three times in the back and once in the head. The wounded man was conveyed to the home of his father, at Thirteenth and Bainbridge streets. Kelly walked away. He was subsequently arrested by Po-licemen Ryan and Snyder, at Eighteenth and Carpenter streets, while sitting on a step en-gaged in conversation with the woman about whom the quarrel had originated. He had a hearing before Alderman Collins, and was committed to await the result of the injuries of Frich.

The Bedford Street Concert.—Mr. James Pearce, the organist of St. Mark's Church, will give a concert at the Academy of Music on Thursday evening next, in aid of the Bedford Street Mission. He will be assisted by two boy choirs, and by a number of distinguished amateurs and artists. The programme includes selections of sacred and classical music, together with a number of those delicious old part songs and madrigals which gave so much pleasure upon the occa-sion of the performance at Mr. Pearce's re-cent concert at Musical Fund Hall. The concert will be good enough of itself to attract a large audience; but the object for which it is given is so praiseworthy that our citizens ought to crowd the house. The Bedford Street

Mission needs all the money it can get.

THE FEVER DISTRICT—While the Inspector of the Board of Health is recommending that there shall be a cessation of the labors of the Board in the Bedford street district, the fever is still raging, and there is no evidence whatever that it is nearly at an end. There were two deaths in the district last night from were two deaths in the district last night from the fever, and another victim was dying this morning. Two ambulance loads of patients were taken to the small-pex hospital yesterday, and two were carted off this morning. There is work in Bedford street yet for all the physicians now comployed and for forty more scavengers than those now at work. Instead of discharging men, the Board of Health ought to increase its force tenfold.

CHARGED WITH BURSTARY .- James Young. Charged with Bureland,—James Young,—Michael McTaig, Wm. McTaig, and John Dougherty, clies Reddy Dougherty, have been arrested upon the charge of having been concerned in the robbery of the house of Z. C. Howell, at Forty-fifth and Chestnut. The house was broken into on Sunday night and robbed of some wearing apparel and a large quantity of silverware. The stolen property has been recovered. The prisoners are at the Central Station, awaiting a hearing.

Assaulting a Policeman.—A row occurred at a ball, Fourth and George streets, last night. Policeman Hagan, of the Tenth District, attempted to quell the distarbance. He was attacked, knocked down, kicked, and severely injured. A man who gave his name as John Smith was arrested on the charge of having been one of the assailants. Aid. Eggleton held him in \$1,600 bail for trial.

CAUGHT IN THE ACT .- Gilbert Ball went into a confectionery stors on Sixth street, below Pine, last evening. He put his hand into the money-drawer. Before he could secure the money-drawer. Before he could secure any cash a little bell began to ring. Ball was captured and was taken to the Central Station for a hearing.

LOSS BY THE STORM .- John Dick, the florist who less extensive nurseries on Darby road, lost 15,000 feet of glass by the hall storm on Sunday. He estimates his loss for the glass alone at \$8,000. He also lost a large quantity of very valuable flowers.

OWNER WANTED - A. quantity of old canvas this morning, and awaits an owner at the Second District Police station.

Local Chowdre.—The damage by hall to Fairmount Park, last Sunday, is more severe than at first supposed. Much of the shrubbery and trees have yielded their symmetry to the blows of the storm.

blows of the storm.

Among the visitors now in the city is Col. Audenried, U. S. A. He is a native of Philadelphia. He is one of the few good-looking soldiers we ever saw who wasn't conscious of his personal graces. He is upon the staff of General Sherman. The purpose for which he was sent to Philadelphia was to verify the idea of the War Department that by plating the United States small arms with nickel their durability would be a good deal more than doubled. The expectations of the Colonel, he assures us in person, were fully realized.

To secure the services of house-painters today is simply impossible. The reason is that the entire fraternity is engaged in replacing the glass broken by Sunday's storm. In this direction the claims of the sufferers by the late fusilade of solid boulders are literally impera-

fusilade of solid boulders are literally impera-tive. To a merchant beneath whose shattered fusilade of solid boulders are literally imperative. To a merchant beneath whose shattered skylights are reposing a good many thousand dollars' worth of perishable merchandise, the cost of restoring to its normal condition the riddled glass is a matter entitled to not a moment usually set apart for consideration. Where painters were at work on Saturday their places are now vacant. What the bosses" tell us is that to the superior claims of putty not only white lead but china gloss will play second fiddle for some weeks to come. By some of the more penurious losers the work of making repairs has been indefinitely postponed. We this morning passed a large establishment. In the stead of glass its saches were filled by pasteboard. Their owner will inflict upon his many employés the misery of serving in semi-darkness, rather than purchase light at the prices that are ruling to-day.

In the present-case the harvest to the fraterchase light at the prices that are ruling to-day.

In the present-case the harvest to the fraterinty of glaziers is plenteous. People having
painting to be done will do righteously by excreising a certain amount of patience and
forbearance, and by remembering that the
enforced fulfillment of existing obligations between the painters and themselves might
bring to many a pocket-book a comparatively
rulinous wrench.

tween the painters and themselves might bring to many a pocket-book a comparatively ruinous wrench.

Some of the bricks in the pavement of Independence Hall are worn by the constant attrition of sole leather to the thinness of old-fashoned tiles. A young gentleman walking yesterday with his Dulcinea shed saline tears when her little gaiter disturbed the centre of the gravity of a deceptive brick, and spotted her Grecian bend with the dilute gravel constituting the geological stratum beneath it. The young gentleman was not satisfied with preserving the offending brick. He sent it to our reporter. We this morning received it, accompanied by a note. The young gentleman seems to have organized a meeting on the steps of the State House. He then elected himself President, Secretary, Treasurer and Vice President. He then paid the expenses of the meeting by transferring from the pocket of his yest to that of his pants a live-cent coin. He then offered a set of resolutions "against the sidewalk." He unanimously adopted them. He then forwarded them to our reporter. The brick came in their company. pany.

THE BEDFORD STREET DISTRICT .- The Port Physician, H. Earnest Goodman, M.D. pre-sented the following report to the Board of

Health to-day:
"Dr. McShane sent six patients to the Hospital yesterday, and sent one from the Station House, at Thirty-seventh and Market streets. Five new cases are reported to day, three of which I found in a visit yesterday evening. *

* There is a case of fever in 715 St. Mary street, reported by a doctor. The people still throw filth in these streets, and it is impossible to keep them cleaned without its being done

Dr. McShane visited twenty-six houses in St. Mary street, and twenty-five houses on courts running from that street between Seventh and Eighth, and reports that there are no cases of relapsing fever in any of the

A MURDRROUS WEAPON.—Last evening a middle-aged, well-dressed man was discovered acting in a suspicious manner about a house on Brown street, above Fifteenth. He tried the door and also endeavored to unlock it with a key. He was arrested by a policeman, and up his sleeve was found a big knife with a very keen edge, apparently but recently sharpened. It seems that the wife of the man has left him and is living in the house mentioned. For that reason the prisoner has had no ill feeling against the occupant of the house, and it is supposed that he intended to use his knife on him. The prisoner had a hearing before Ald. Pancoast, and was held in \$800 bail on the charge of "carrying con-cealed deadly weapons with intent to kill."

RESCUING A PRISONER. - William Ecken-RESCUING A PRISONER.—William Eckenbran was arrested last night at Beach and Green streets upon the charge of assault and battery on Policeman McCaulley, and rescuing a prisoner. McCaulley arrested a man on Saturday night, when he was attacked by twenty or thirty/persons and his prisoner taken away from him. Eckenbran is alleged to have here one of the assiluate. have been one of the assailants. He was held in \$800 bail by Ald. Cahill.

Science - An unknown woman supposed to String.—An unknown wonan supposed to have been an immate of the Almshouse, walked into the Schuylkill, near that institution, and deliberately drowned herself on Saturday evening. A bridge watchman saw the act but was unable to prevent it or rescue the woman. The body has not been recovered.

SERIOUS ACCIDENT.—This morning Benjamin Shallcross and William Crispin, Assessors of the Twenty-third Ward, started in sessors of the Twenty-third Ward, safeted in a carriage to attend to their duties. The horse took fright and ran away. Both gentlemen were thrown out of the carriage. Mr. Crispin is so severely injured that his recovery is considered accordance to the constituent of the carriage.

sidered scarcely-possible. VESSEL INSPECTORS.—The Board of Health, at its meeting to-day, elected Captain Andrew 1). Evans and Lewis A. Messenger Vessel In-

THE ACADEMY OF FINE ARTS.—At a meet ing of the Directors, last night, Messrs. Henry C. Gibson and Henry G. Morris were elected to the directorship in place of Raphael Peale, deceased, and Samuel Welsh, resigned. Mr. Gibson is, a well-known patron of art. Mr. Morris is a gentleman of cultivation, who. Tasker & Co., has used his lessure and opportunity to develop a, natural artistic taste Both will be working members and an acqui-

The Academy suffered less than might have been expected from the hall-storm of the 8th instant. But two paintings were injured—one a fine poultry-scene by Hondekocter, a Dutch master who lived from 1639 to 1695; the other a copy from part of a Holy Family by Raphael, of no great importance. Neither is hurt beyond repair. Buchanan Read's picture of "Sheridan's Ride," being hung, in su inclined position, received the glass and hail on its frame, as a cornice, and escaped injury. The autotype copies of the old masters, tacked up in the southeast room, and worth from two to The Academy suffered less than might have in the southeast room, and worth from two to

in the southeast room, and worth from two to eight dollars each, were badly cut and torn. The Academy's annual exhibition will undoubtedly take place this year in the autumn. We suggest that the fall months, as the period when the city is filled with business travelerand with returned citizens, might be a better time for the regular exhibition than May and June, and would offer a hint towards a permanent change to that season.

The School of Design for Women, N. W. Penn Square, is open to-day and for a week henceforth on free exhibition, in order that the public may appreciate its importance as an aid to young ladies in gaining an honorable limits of the property of the control of the ble livelihood. Its principal statue-gallery, with its multitude of Greek statues intermixed with tropical plants, exhibits a more imposing and beautiful arrangement than anything of the kind in the country.

LARGE SALE OF BOOTS AND SHOES .- T. L. LARGE SALE OF BOOTS AND SHOES.—T. L. Ashbridge & Co., auctioneers, will sell at their store, 505 Market street, to-morrow morning, at 10 o'clock, about 1,500, packages of boots, shoes and balmorals, embracing a large assortment of first-class city and Eastern made goods, to which the attention of city and country large states. buyers is called. Open early in the morn-

ing for examination.

RELIGIOUS.—Rey. Herrick Johnson, D. D., will preach a sermon this evening at 8 o'clock, in the new lecture-room of the Central President Court, N. L., northeast corner of byterian Church, N. L., northeast corner of Franklin and Thouseon streets, in continuation of the services connected with the completion of the lecture-room.

A SPLENDID ENTERTAINMENT.—On Friday night next, Mr. John Toy, well and favorably known to this community as an amusement caterer, will have a testimonial benefit at the Academy of Music. A magnificent programme has been arranged for the occasion, and a large number of parallel and telephone. Academy of Music. A magnineent programme has been arranged for the occasion, and a large number of popular and talented artists have volunteered their services and will appear in specialties. Mr. Robert Craig and Mr. F. F. Mackey, two of the best actors upon the Philadelphia stage, will give personations, while Chas. W. Brooks, Eso, will assist at the entertainment. Among the other participants we may mention Mrs. Susan Galton Kelleher, Mr. Alfred Kelleher, Miss. Blanche Galton, Mr. Thomas Whiffin, Signor Blitz, Theodore Blitz, Prof. Wyman, B. F. Duare, Prof. Lubin, and others of equal note. Of course with this array of diverse talent there will be plenty of variety in the entertainment, and every person will find something to his taste. The attraction offered is so great that the house ought to be crowed to the roof; and we sincerely hope it will be, for the sake of the beneficiary, who is a worthy and estimable gentlemen, who deserves the handsomest testimonial given in this city during the present senson.

NEW RALEGAD ROUTES—FACILITIES FOR TRANSPORTATION.—The North Pennsylvania Railroad Company, keeping pace with the development of territory recently made by its several connections, is giving great despatch in the transportation of freight into Northern Pennsylvania, interior and Western New York, the West and the Great Lakes. The opening of the Nesquehoning Valley Railroad, just completed by the Lehigh Coat and Navigation Company, gives a short and expeditious route into the Catawissa region, while the Pennsylvania and New York Railroad, stretching through the fertile and flourishing the Pennsylvania and New York Rairoud, stretching through the fertile and flourishing counties of Wybming, Bradford and Susque-hanna, renders available to this city a populous and thriving section of country that has here-tofore been held in possession by some of our rival marts.. This route also affords the shortest line to Rechester Buildo the many enterest line to Rochester, Buffalo, the many enter-prising towns on the line of the Erie Railway, and offers a cheap and desirable means of ship-ment to all points on the Great Lakes. The advertisement of the Company in another column gives some items in regard to the facili-ties offered by this route.

SALE OF ITALIAN MARBLE MONUMENTS, STATUES, &c.-Mr. James A. Freeman will sell on Thursday morning next, 12th inst., an invoice of Italian Marble Monuments, Garden and Monumental Statuary, Marble Garden Vases, &c., recently imported from Italy by Messrs, Vitt Bros. The sale will take place at the salesrooms, No. 422 Walnut street. The catalogues are now ready, and contain quite a number of choice designed Monumental Sta-tues, among them the finely-executed figures representing the Angel of Resurrection and Victory, which are well worthy of particular examination.

CAMDEN HOME FOR FRIENDLESS CHILDREN.—The anniversary exercises of this popular charity will take place this evening, in the Third Street M. E. Church. Rev. Dr. Reed and General Gregory will make addresses, and Miss Clara Hindle, with the choir of the church, will add to the musical entertainment of the evening. of the evening.

POINT BREEZE PARK.-To-morrow afternoon, at Point Breeze Park, there will be a trot, open for all horses on the premises of the association, with mile heats, best threefin five, to harness. An exciting contest may be expected.

CITY NOTICES.
