THE POPE AND THE GERMANS. Bitter Antagonism. A letter from Rome to the Vienna Presse says: It must furnish every thoughtful individual with food for grave reflection to see how German learning, and especially German theology, is so little appreciated in this vaunted capital of Christianity.

THE INDIAN OUTBREAK. Raid on the Railroad and the Town of Carson. The Denver (Col.) Tribune says: The horror news of the breaking out of Indian hostilities on the plains, eleven men having been killed and scalped yesterday, May 14th. So far as we can now learn, the uprising was as usual, well planned, and the blow struck at a dozen points at once, about nine o'clock in the morning, and extending from Kit Carson to a point more than thirty miles west on the railroad. One man was killed within two miles of town, and all the stock driven off that they could get, amounting to over four hundred head.

THE INDIAN OUTBREAK. The Denver coach left yesterday morning, but, after proceeding a few miles, discovered so many Indians that it put back to Carson, and the passengers were obliged to remain there until the morning. It will be in to-day. Great excitement exists in Carson, as may well be expected, but we cannot learn whether anything has been done to pursue the savages.

THE INDIAN OUTBREAK. From another letter, written by J. M. Myers, and dated Beloit, Mitchell county, May 11, we take the following: I presume you will hear of this reaches you that the Lo family has given us a taste of what we may expect this summer. They killed three citizens on Limestone creek, at its junction with the Salomon. There were four men and a boy who had crossed the river to plant corn. It so happened that, for the first time, they had looked their door, leaving their arms, ammunition and accoutrements inside; therefore they were unarmed.

THE INDIAN QUESTION. Mr. Editor: The following letter from a zealous missionary, who has just returned upon his work, will interest and encourage the many tender-hearted readers of your paper. The Rev. Mr. Cook is favorably known in this city. He was graduated at the Divinity School in Philadelphia. He felt called to preach to the Indians, but as no field opened, he established a successful church at Cheyenne, Wyoming Territory, and then came to help the 2,600 Yankeet Sioux Indians in their desire for Christian civilization, as soon as the way was opened. Schools, hospitals and other Christian institutions are needed to prepare the way for the Gospel. Then its influence is soon manifested. Preaching without practical illustrations of the influence of religion yields little permanent benefit.
