PRÉSBYTERIAN GENERAL ASSEMBLY Fourth Day's Proceedings.

The Assembly met this morning at 9 o'clock, and passed an hour in devotional exercises, conducted by the Moderator. At 10 o'clock, the business of the day commenced with the reading of the minutes of Saturday morning's

session.
The Chairman of the Committee of Arrange. ments announced that pages had been provided for the purpose of carrying messages for members of the Assembly.

Dr. P. H. Fowler, Chairman of the Committee—on—Bills and Overtures, presented a large number of overtures from various Presented to the approver.

large number of overtures from various Presbyteries, which were referred to the appropriate committees. Among these overtures was one relating to the desecration of the Sabbath by railways. The Committee recommended that in view of the previous utterances of the Assembly on this subject, no further action be taken at this time.

The following overtures were also confident of importance.

in the Presbyterian Church, in the New School, humbly showeth that—
Whereas, Being now the nineteenth century of our Lord, "it is high sime for the Church to awake out of its sleep," and to exert its dormant energies for the conversion of the World lying in wickednoss, and in order to supply the "lack of service" by the regular churches. Mission Stations are being erected for teaching and preaching the Gospel in destitute localities, and to the Poor who are averse to enter our more expensive and and fashionable churches.

And whereas. At a moof these Stations it is not always convenient or possible to have ministers present to admit the converts to the scaling ordinances of the Church; therefore.

mit the converts to the scaling ordinances of the Church; therefore, therefore. The object of this memorial is to lay the matter before you, and ask your counsel and advice as to whether, in the absence of a college-bred ministor, an ordained elder (known in our ecclesiastical comenciature as a "Ruling Elder," and in Bible language as "Bishop," Elder, "or "Presbyter,") may admit new converts in "Ruleng Elder", "or "Presbyter,") may admit new converts in Swieb-places and circumstances into the visible-church by baptizing them, and presiding at the Family Feast (the Lord's Supper).

Do you know any Scripture that renders it uslawful for the 'Ruling Elder," (as he is called in our Church parlance) ministering to the wants and edification of the Church when called on for "Can any man forbid water that these should be baptized!" Acts. X., 47.

Answer—Reference to our standards, which we accept as throughout.

Dr. Reed, of Camden, announced the same

partial arrangements of the Committee on Theological Seminaries.

On motion of Mr. Page, the privileges of the floor were extended to the Foreign Missiona-

Dr. Beatty, from the Joint Committee on Reconstruction, presented the following resolutions, which were adopted:

1. That this report be taken up and continued as unfinished business, in preference to any order of the day hereafter appointed, until it is finally disposed of.

2. That it be considered in its parts separatoly—first, the arrangements of Synods; second, of Fresbyteries; third, or representation in the General Assembly; fourth, the limitation of appeals; fifth, the constitutional changes; sixth, suggestion or overtures.

3. In the arrangement of Synods, each shall be taken up separately, and, when no amendment is proposed, that item shall be considered, passed, or adopted. When amendments are proposed, remarks shall be confined to five minutes; and if no amendment is adopted, the item shall be passed or; adopted. At the close of the part on Synods, a vote shall be taken on its whole

and final adoption.

The Assembly then took up the consideration of the report of the Reconstruction Committee. In regard to the organization of Synods the first paragraph was submitted as

Dr. Spear, of Brooklyn, moved to amend by attaching these Presbyteries to the Synod of

New York.

Rev. J. H. Hopkins, of Long Island, opposed the amendment, claiming that Long Island contained the third largest city in the United States, and was entitled to a Synod of its own. Dr. Fowler suggested that at this stage of the proceedings the Assembly was hardly the proceedings the Assembly was hardly prepared to decide on the boundaries of Synods. He therefore moved to docket this portion of the report and permit the com-missions of the different States to hold con-ventions to consult on the subject.

Dr. Musgrave judged that the motion was out of order—the House having determined to

act upon this report seriatim.

By consent of the House, Dr. Fowler withdrew his motion.

Dr. Lambert, from the Presbytery of New

York, opposed the consolidation with the Synod of Long Island. Mr. Adams thought that the question for consideration was now whether personal feelings or prejudices should be consulted, or the great question of the extension of the Church. The vote being taken on the amendment of Dr. Spear, it was declared lost. The question then recurring on the original recommenda-

tion of the committee, it was carried by a large majority. Ex-Gov. Pollock moved to reconsider the vote to proceed on each item of the report seriation, Lost.

Rev. Dr. Shaw, of Rochester, from the Com-

mittee on Correspondence, by the consent of House, read the following report, stating that the following delegates are entitled to a seat

Salutations received from the Bohemian Churches were referred to a Special Committee consisting of Rev. Dr. Croeby and Prof. Edward North, to prepare an answer.

The consideration of the second item of the report was then resumed. The item is as fol-

LOCAL CHOWDER.—Among the delgates to the Presbyterian General Assembly, now itting in this city, is lkev. J. M. Priest, of Liberia. He is the guest of Mr. William Sill. He served several terms in the Senate

Liberia. He is the guest of Mr. William of Liberia, and four terms as Vice President of that Republic. He preached last night in the Central (colored) Presbyterian Church in Lombard street. The auditorium overflowed some minutes previous to the commencement of the exercises. Mr. Priest took a plain Gospel subject. He treated it in a manner indicative not only of carnestness in his sacred cause, but with a display of learning as instructive as it was unostentations.

—Fairmount Park, yesterday, was alive with people. In the afternoon, for neither leve nor money, could any sort of vehicle be hired. The picture was a living commentary upon the large numbers of people who don't habitually attend church. A hundred of Park hacks could have found employment. The crowd strung along the river for miles together. What was true of the Park was also true of the cemeteries. Hundreds of people are unable to perform upon any other day the pious duty of planting flowers upon the graves of their loved ones. So well is this understood that on Sundays the sides of the cars running in the vicinity of the cemeteries are placarded with the respective amouncements. Yesterin the vicinity of the cemeteries are placarded with the respective announcements. Yesterday afternoon, from Fairmount Park there was no other way of returning than returning on foot

The hatters have for once gotten up a novelty. It consists in a style of tile gotten up in silver-colored plush. Let the sun shine upon them, and from the opposite side of the street they might be mistaken for wateringpots, with the spouts knocked off. Persons who believe in being conspicuous can do so by ordering a specimen of this singular head-

gear:

The bail-storm to the northward, on Saturday, has cooled the air of to-day, and given a showery look to matters and things overhead. This gives to our retail store-keepers a chance to straighten out their stocks, and prepare to profit by the next rush. Wholesale spring trade is now at its height.

HONOR TO WHOM HONOR IS DUE. - We have no desire to be invidious, but there is one mercantile house in Phil to be invidious, but there is one necessitie nouse in rainadelphia which has so thoroughly engrafted itself in the
confidence and good wishes of our people as to be worthy
of public commendation. We refer to the popular Millinery establishment of Messrs. Kennedy & Brothers,

They have gratified our wives and daughters by placetop before them the west grantiste and tasteful grant

ing before them the most exquisite and tasteful geme that Paris affords, or that American ideality ever con-ceived, and we feel like thanking them for having been mainly instrumental in gracing our ladies with a more artistic and becoming head toilet than we have wit-

nessed in many years.

We speak thus pointedly of this firm from the fact that they have this season more than ever stamped this de-partment of trade with their genius. So true is this that whenever something surprisingly novel and beautiful is observed in the streets or in the Park, there is an involuntary compliment paid to Konnedy's by every in telligent observer.

Their new things, brought out with each additional day as the season advances, are really so attractive that the ladies of our city seem to be making regular weekly visita at their warerooms in order to keep thomselves booked." The first of July will probably show that the latter applies in a double sense. Should this be even so, the most economical husband- will have no reason to complain, as the prices of the Messrs. BONDS OF A

DIVIDEND-PAYING COMPANY

We offer for sale a limited amount of LOUISVILLE and NASHVILLE R. R FIRST MORTGAGE

At Ninety and Accrued Interest from April I. The above bonds are issued on a road that cost about double the amount of the mortgage, and that has a PAID-IN CAPITAL STOCK BEHIND THE BONDS OF NEARLY NINE MILLIONS OF DOLLARS, upon which for the PAST SEVEN YEARS DIVIDENDS OF FROM 7 to 8 PER CENT. PER ANNUM have been regularly paid. The net carnings of the road last year

\$1,000,000.

The gross earnings of the first six months of this year show an increase of THIRTY PER CENT, above cor-responding six months last year. This is caused by the immense business the Company is doing—more freight offered than they can carry. The money procured from these bonds has been used to purchase feeding roads, and to add needed facilities for moving freight. We would call the attention of investors to these bonds, as they are issued by an old Company with a large paid in stock capital, which has demonstrated its ability to pay its liabilities and make money.
