The reaction was operative in the Gold Room as soon as the board had formally assembled. The first sales were at the closing figures of the previous day; but the market thence strongly advanced in sympathy with the firmer tone of the foreign exchange market and on purchases to cover speculative sales not out voctories by chases to cover speculative sales put out yesterday by those who had been induced to believe that the gold market was to follow the course of the stock market and decline as tharply. The clearances to-day, as well as the rate for carrying gold, show the extent of business transacted on short account in this movement. The belligerent feeling in the Committee on Foreign Relations, concerning the outrages on Americans by the Spanish authorities in Cuba.

Holders of gold had their balances carried for rates ranging from one to four per cent. the average figures being one and a half and two per cent. The European steamer took out \$380,000 in gold bars. The scarcity of commercial bills was again the found tion for another advance in the rates of foreign exchange, and the leading bankers put up the rate for sixty change, and the leading bankers put up the rate for sixty change, and the leading bankers put up the rate for sixty change, and the rates of foreign exchange, and the radion lower, and more are yet on the market was hardly firm at the new quotations, for the reason that a great many bills were old out of second hands at a fraction lower, and more are yet on the market, but the bunkers were unwilling to draw at any concession beyond the usual brokerage, and then not for heavy amounts. The life in the previous question, and the friends of the bill would occupy another hour. He yielded to Mr. Hawley, upon whose amendment several onposition members had united. Several members objected to limiting discussion upon such an important bill to two hours. The difficulty was not settled, but Mr. Hawley proceeded to address the House in provide the station of the bill was for the same of the belances trade to the committee on Pacific Railroads, reported the Senate joint resolution to authorize the Northern Pacific Railroad Company to issue its bonds to authorize the Northern Pacific Railroad Company to issue its bonds to authorize the Northern Pacific Railroad Company to issue its bonds to authorize the Northern Pacific R cession beyond the usual brokerage, and then not for heavy amounts. These rates are on the verge of the specie shipping point, and their future firmness will depend on the excres of the balance of trade against us for the past six months. So far, it seems that we are not heavily in debt to Europe, and the demand for the exchange has been comparatively moderate. A few shipments of specie this summer would doubtless equalize the account. Meantime, should gold advance, it will be the occasion of further shipments of produce and government bonds.

But, though he received the bisnops very graciously, he adhered to his purpose, and positively refused to withdraw the propositions.

This proceeding is regarded as a sign of increased strength in the Opposition; and, during the last few days, the ranks have cerainly been reinforced, a number of Austrian and Hungarian bishops having returned to Rome, in consequence, they say, of telegrams from Cardinals Rauscher and Schwarzenburg Other bishops have arrived who were not here before. Some declare that the mine will number 150 on the question of infalli-bility, and their weight is now acknowledged by the *Unità Cattolica*, which, in its last two issues, has spoken of the Opposition in terms almost flattering. As the *Unita* is completely under the control of the Jesuits, and is nothing more than an echo of their Roman organ, the Civiltà Cattolica, this altered strain of Doi Margotto's is thought significant.
