The above bonds are issued on a road that cost about double the amour tof the mortgage, and that has a PAID-IN CAPITAL STOCK BEHIND THE BONDS OF NEARLY NINE MILLIONS OF DOLLARS, uson which for the PAST SEVEN YEARS DIVIDENDS OF FROM 7 to 8 PER CENT. \$1,000,000. The gross earnings of the first six months of this year show an increase of THIRTY PER CENT, above cor-responding six months last year. This is caused by the

offerst duan they can carry. The money procured from these bends has been used to purchase feeding roads, and to add needed facilities for moving freight. We would call the attention of investors to these bonds, as they are issued by an old Company with a large paid in stock capital, which has demonstrated its ability to pay its liabilities and make money.

Holders of gold paid 3, 3%, and 4 per cent to bave their halonces carried over. The Bremen steamer took \$125,-1000 in specie. The advance in gold led to a strong and improved market for government houds, the upward <u>movement</u> therein being assisted by the light offerings at the sub-Treesury. A strady investment was also reported by the leading dealers. The Assistant United States Troasurer received pro-pocals to day for the sale to the government of one nu itom of bonds for the Sinking Fund. It was ex-programme the government would purchase at least two millions, bat during the afternoon the award was made for enly the million egcidied in the advertisement.
