## CITY BULLETIN.

-The children's playground at Fairmount Park (Sweet Brier Farm) was formally opened erday afternoon. It embraces 12 acres of ine rolling land located on both sides of the ansdowne drive, a short distance above Firard avenue bridge. There are a number of patent safety swings, and a pavilion around which revolve a number of miniature horses and coaches, on and in which the children can thoroughly enjoy themselves. Spaces have also been set apart for croquet, ten-pins, shuflle rd, American skittles and the Saratoga lawn game. On the ground there is a large stone mansion, in which there will be a saloon for the sale of ice cream, cakes, &c. From a portico at the rear of the house a magnificent view of the Schuylkill and the surrounding country can be had. The play-ground and restaurant will be under the charge of Mr Henry Eggeling, who has had much experience ing such affairs, and who has se lected careful and polite assistants. Arrange ments have been perfected with the Philadelphia-and-Reading Railroad-to-run-the Park accommodation trains across Columbia bridge, and thence to the play-ground, via the Juncon Railroad, thus giving all a chance to visit that portion of the park lying on the west side of the river.

--Mr. Jacob E. Ridgway has patented a new and improved city railway car. The front platform is inclosed, so that ingress or egress to or from the car is entirely cut off at this end. This will prevent accidents to persons attempting to get on or off the front while the car is in motion. The rear end is provided with two doorways, access being had thereto by means of a low, broad corrugated iron step. Between the doors is Slawson's patented box for the reception of fares. Behind this, on the from which a full view of the car can be obfained, and the wants of the passengers therethe great inconvenience of overcrowding will be
