#### A FIREWORRS ESTABLISHMENT BURNED OUT.

A Fireman Killed and Several Injured.
This morning about five cclock a fire broke out on the first floor of a three-storied brick building, No. 107 South Water street, occupied by J. B. Bussier & Co., for the storage of fireworks. The flames spread rapidly, and the entire building was completely gutted. There was a pretty heavy stock of firewores on hand at the time. This was all destroyed. The loss of Bussier & Co. is estimated at \$10,000. Upon this there is an insurance of \$5,000 in the American Fire Insurance Company. The building is owned by Moro Phillips. It was damaged to the extent of about \$4,000. Insurance \$3,000 in the American Fire Insurance Company.

No. 109 South Water street is occupied by Phillips & Bro., dealers in foreign fruits, &c. Their valuable stock was considerably dam aged by water. It is insured for \$24,000, which will more than cover the loss. The insurance is in the following companies: Pennsylvania. \$6,000; Delaware Mutual, \$6,000; North American, \$6,000; and Home, of Hartford, Conn., \$6,000. The building belongs to the estate of Robert Burton. It was only slightly damaged and the loss is insured.

No. 103, Water street is occupied on the first floor by Wm. G. Porter & Son, commission merchants. The stock was mostly removed by the Insurance Patrol. Loss by water about \$1,000. Insured. The second and third stories of this building are occupied by H. C. Kellogg & Co., wholesale grocers; stock injured by water to the extent of about \$5,00. Insured in the Royal A Fireman Killed and Several Injured.

It is insured for \$2,900, which will more than cover the loss. The stock of Messrs. Bussier & Co. escaped injury by water or fire, but suffered some by thieves, who, it is said, entered the building by the trap-door. The drawers in the desks in the counting-room were also broken open, and some small change and a lot of postage and revenue stamps were carried off.

carried off.

The origin of the fire is not known, but it is supposed that some of the bad boys who infest that locality threw some matches into the store, and thus set it on fire.

About ten minutes after the discovery of the fire there was a tremendous explosion of fire-works. The concussion shattered all the glass in several of the buildings on the opposite side of Water street, and was distinctly felt in Camden, an in this city as far south as the Navy Yard.

in this city as far south as the Navy Yard.

Charles Rhoades, a member of the HopHose Company, was standing in the doorway,
of the building at the time of the explosion.

He had a branch pipe in his hand. He was
struck on the side of the head by a rocket, and also received several scratches from smaller explosive articles. He was removed to the Pennsylvania Hospital, and died in a short time after his admission. He was a singleman, about 25 years of age, and resided at No. 304 Union street.

James Walton, a boy, aged 12 years, was badly injured about the head. He was thrown across the street by the force of the explosion. He was removed to the Pennsylvania Hospi-

Tal.

The following members of the Hibernia
Fire Engine Company, No. 1, were also injured and are at the Pennsylvania Hospital
John Ward, face, forehead and breast badly

Daniel Foley, badly hurt about the arms an breast. Michael Buckley, breast injured.

LOCAL CHOWDER.-The mercury to-day LOCAL CHOWDER.—The mercury to day again reaches the nineties. This temperature is extremely enervating. In such weather the only kind of reading that seems endurable is that which tells of icebergs and the Arctic Sea. Soda fountains and dray horses are alike suffering from overwork. To keep in working order the fountain at Wyeth's this morning it was necessary every hour to rub it down with appropriated some People were in standing camphorated sponge. People were in standing line at Bower's this morning, waiting their turn with all the patience of as many persons waiting in a barber's shop to be shorn or shaved. —Mr. George W. Custis, so long the energetic Superintendent of the Camden and Atlantic Railroad, retires to accept a corresponding position on the Mobile Railroad, five hundred miles long. —The closing concert by the young ladier of the schools of the Holy Child Jesus, Thirty-ninth and Chestnut streets, was given yester day afternoon. The audience was made up of the relatives and friends of the pupils. That the study of music is here pursued with signal success was very gratifyingly evinced. In the performance of the younger children we were especially interested. The manner in which a knowledge of music was displayed by little girls from five to twelve years old knowledge of music was displayed by little gitle from five to twelve years old was an interesting illustration of thoroughness of tuition. To us the most interesting item in the programme was: "Fruhlings Einzug" (Oesten)—Trio. The young artists were: Misses Kaercross and Rucker, plano primo; Misses Leddy, Carroll and Whiteside, plano secondo; Misses Bennie Nathans and Pauline Blake, harmonica; Miss Marie Steward, bells; Misses Nellie and Florence Smith, triangles. This was encored. Rev: Father Carter, Chancellor of the Diocesewas present. At the close of the exercises he complimented the pupils in general, but these smaller rones he applauded in particular. The success of their undertaking the Sisters have acry reason for congranulation. They , cry reason for congratulation. They will now retire for a period of badly-needed repose to their country home at Sharon.

Provision Markers.—If people can't just now get the requisite variety for the table, it isn't because of any churlishness on the part of Nature. Fifth street market never looked of Nature. Fifth street market never looked better than it did early this morning. Its offerings were never more fresh. It was so early stripped in consequence of the large quantity of butcher's meat sent from it to Cape May.

offerings on the stalls.

For veal, thirty cents is the average price.
So long as farmers kill new-born calves with a
view to a treater profit on the milk the price
of veal will continue high. The demand for it
is limited. We never see it upon the bills of
fare either at hotel or restaurant. Working people prefer something more substantial. The only use to which a hotel steward applies it is as "stock" for the basis of his soups. Mutton is low. It brought this morning from 10a12o per pound, and lamb 18c. For the latter this is a decline that to mint sauce and green peas must be especially encourag-

Spring chickens are abominably dear. They spring cinckens are aboundary dear. Incompany bring to-day from 45a56e. a pound. The birds average about a pound and a half each. Adult chickens sell for 25c., Squabs bring \$350 a dozen. Besides these feathered people there are none other in market. Game birds just now are engaged in perpetuating their species. Until after September they will have no time

to visit the markets.

Salmon is lower this week than last. For the middle of the fish you are asked 60c. per pound; the head and tail come to for for 40c. Lobsters are higher. The catch this season isn't a large one. At the fisheries they are sold to canners at 4c. each. Last year they were sold for? The fish hugheters say to day to visit the markets. sold to canners at 4c. each. Last year they were sold for 2. The fish-hucksters say to-day that at less than 12c. a pound their profit would be literally "nichts." Green turtle is furnished to order at 28c. a pound, including his shell. We saw a gentleman ordering one this morning for a Fourth of July dinner in Germantown, whose weight it was atipulated should be not less than 90 lbs. Hard crabs are plentiful at 50c. a dozen. Soft crabs this morning took a notion to advance. They bring \$2 50 per dozen. For other fish the figures are just as when we last overhauled the prices.

Raspberries brought 15 to 35 cents a mnt. That they come to us in small packages is because of the difficulty in preventing them from crushing. Currants bring 15al8 cents a quart. Green apples in any quantity bring cholera morbus, and gooseberries 18 cents a quart. For getting up a criting in the diaphragm they are emi-

Another week, and the rush of provisions from the city will probably be the double of the rush to-day.

BROAD STREET.-The subject of the im-BROAD STREET.—The subject of the improvement of Broad street seems to be one of the most absorbing topics, of a local character, of the day. All feel the urgent necessity that exists for the paying of the entire thoroughfare of that street, and nothing short of immediate preparation for the work will satisfy the people. It is needed now, and will be needed even more a few years hence, when the Contennial of American Independence the Centennial of American Independence shall be celebrated. Of course, long before that event, the street will be improved, and that grand occasion will receive tresh clut and renewed lustre from the aid that Broad street will furnish for the proper commemoration of the episode in our history that made us a nation. The effort, however, that is now being made to improve the street has not the observance of the prove the street has not the observance of the great centennial only to foster and encourage it. There are hundreds of other reasons, equally as valid, why an avenue, acknowledged on all sides to be the grandest in the world, should be kept no longer in a disgracefully deplorable condition. The people are out of patience with the miserable policy that has made many nortions of it an eye sore, and at their meeting on Thursday evening next, at the Academy of Music, such a cry. should go up for a thorough reform in the matter as will make the improvement of the street a ques-tion of the shortest possible time.

ORITUARY.—Colonel John Bingham, who has filled the important position of Superintendent of the Adams Express Company for many years, died at his residence, in this city, yesterday. He was born in Annville, Lebanon county, Pa., in the year 1804, and was, accordingly, in the 66th year of his age. He came to Philadelphia in 1836, and was one of the six brothers composing the old Transportation and Forwarding Railroad line of Bingham & Dock, so extensively known in business circles. He continued in the forwarding business until 1853, from which year until the period of his decease he was one of the Directors and General Superintendent of Adams ors and General Superintendent of Adams Express Company, with his headquarters in Philadelphia. In all of his business transactions he was upright and scrupulously honest. As a citizen he was exceedingly liberal and enterprising in his views. Everybody who enjoyed his acquaintance entertained for him the highest personal regard.

BEHIND THE TIMES.

The man who was opposed to newspapers paid a hundred dollars, last week, for a galvanized watch. In going from Philadelphia to New York, he always takes the Delawarc and Baritan canal, not being awarc that there is any railroad on that route. He purchased of some peter Funk the other day at a high price, a compound of slate, dust, &c., for prime anthracite, not knowing that mit of the world article of them, he would have got a pure article, careful accreened and picked. Hundreds of our citizens, we are pleased to learn, are availing themselves of the advantages of dealing with this enterprising firm. By soding, they get a really superior article, and that, to, at a lower rate than at any other place we know of their Coal Depot and Office is, as every one knows, at the northeast corner of Ninth and Girard avenue.
