CITY BULLETIN.

State of Thermometer This Day at the Bulletin Office. Weather clear: Wind Southwest.

THE FIRE MARSHALSHIP.

Resignation of Mr. Blackburn...His Career as a Public Officer.

Mr. Alexander W. Blackburn, the Fire Marshal, one of the most energetic and valuable officers of the City Government, has tendered his resignation to Mayor Fox. The reason assigned for this course is that the condition of his health is such as to make him no longer able to discharge the duties of the probling with insticate the public or estigate. position with justice to the public or satisfac-tion to himself. The resignation has not yet been accepted, the Mayor having held the subject under advisement for several days past. Mr. Blackburn was born in Stafford county, Virginia, and was educated at Kenyon Col lege, Knox county, Ohio. He served in the Second Dragoons, United States Army, during the Seminole, Indian war, in Florida, and came to Philadelphia for the first time in 1836, on business connected with the army. He fell on business connected with the army. He ten in love with the city, and at the conclusion of the war, in 1839, he settled here. He was first engaged in a drug store, where he got the soubriquet of "Doctor," which has clumg to him among his familiar friends and acquaintances from that day to this. He left the drug business to become a newspaper reporter, and was one of the pioneers of that profession in Philadelphia. His career as a reporter, for ten years, from 1840 to 1850, is well known to every editor, publisher and printer of that period, many of whom still survive, and are yet his warm friends. His minute and graphic accounts of the riots of May and July, 1844, written at times of intense public excitement, are among the most reliable chronicles of those memorable local events.

Mr. Blackburn-was the first local reporter of the Evening Bulletin, having been succeeded by our worthy and lamented colleague, Casper Souder, Jr., between whom and the Doctor the warmest friendship always ex-

In 1850, when lawlessness in the Fire De pariment of Philadelphia was rampant, and there was a reign of terror in some parts of the city—when the "Killers" and other kin-dred disorderly classes defied the constituted authorities, and nightly lighted the incendiary torch as a prelude to murderous affrays—the consolidated or Marshal's police was orga-nized-by an act of Assembly, with the brave, impetuous and noble-hearted John S. Keyser at its head, to put down the rioters and restore peace and order. Dr. Blackburn was one of the very first to enrol himself in its ranks. From a pure fondness for adventure he ex-changed the note-book and pencil for the re-volver, and entered that active and daring force and for four years under Marshals Keyse and Murphy, filling the positions of special officer and lieutenant, was a conspicuous actor in numerous dangerous incidents and thrilling scenes.

At the time of the consolidation of the city

and outlying Districts, in 1854, Mayor Conrad tendered Mr. Blackburn the highest office in the police in his gift, and afterwards offered him the position of private Secretary. Mr. B. served as High Constable and Detective under Mayers Courad and Vaux, winning great credit in the working up and preparation for trial of several celebrated murder cases, and the detection and arrest of shrewd counter teiters and desperate burglars. In 1857 incen-diari m became rampant, and Mayor Vaux created the office of Fire Marshal—an office which was first suggested by the EVENING BULLETIN, through the late Mr. Souder—and Mr. Blackburn was selected for that important position, and he has continued in it during the administrations of Mayors Vaux, Henry, Mc Michael and Fox-a period of more than thir-Detective Department is so well known to every class of the community as to be part of the local history of the city. The following extract from his last annual report shows what has been done during his term as Fire

It is just thirteen years since I was de-

tailed from the detective department of the police for the special duty of investigating the ponce for the special duty of investigating the causes of fires and detecting incendiaries. During that time 914 persons were arrested on the charges of arson and suspicion of having committed or intending to commit that offence, and conspiring with and instigating others to perpetrate the same, and being accessory thereto either before or after the fact, or both. The number convicted, either by their own confession to the Fire Marshal, or by pleas on arrangement, or Marshal, or by pleas on arraignment, or verdicts of juries in the criminal court, was 163—an average of one conviction a month. The ages of these detected parties ranged from oight to seventy years. In no city in America or Europe, as far as I have been able to obtain information, has there been a larger number of persons found guilty of incen-diarism in the same period of time. For half a century immediately preceding the creation of the fire detective branch of the police by your distinguished predecessor, Hon. Rich and Vaux, convictions for arson in Philadel-phia were very unusual. The arraignment of an/incendiary was so unfrequent an occur-rence, that it convulsed the entire community. The records of the criminal courts show that sometimes there was not a solitary conviction for that offence in a continuous period of five years. Prior to 1840, a trial for arson was rare. Between 1840 and 1850, there was an occasional instance. After the formation of the Marshal's police in 1850, the instances became more frequent. But as in all other things, so in the detective operations of the police, what was everybody's business was nobody's business, and it was not until 1857, when fire detection was made a specialty by Mayor Vaux, that this alarming crime was grappled with in earnest."

Since the issue of this report, four more persons have been convicted of arson—one in Jannary last and one on his own confe sion in court on Saturday last and two on

Monday.
From 1850 to 1870 Mr. Blackburn has either form the refusal of every position in filled or had the refusal of every position in the Police Department from private up to Chief. This shows the confidence repos Chief. This shows the confidence reposed in his honesty and ability by his superiors. How well he has acquitted himself in his official acts his record tells. His good name and reputation are universally acknowledged. His integrity has never been questioned by any right-thinking or high-minded citizen.

The office of Fire Marshal is one of the most important, responsible and delicate positions under the City Government, and merits liberal pay: but, so far, it has never received.

tions under the City Government, and merits liberal pay; but, so far, it has never received the pecuniary appreciation it deserves. The most erroneous and extravagant ideas have been formed in regard to Mr. Blackburn's annual compensation. In view of the amount of physical and mental labor he has performed for the benefit of the city, he has been the worst paid public officer in the land, and we regret to learn that he retirse to private life poor. As his health has been completely broken down by his watchful efforts to protect property in the city, and fidelity in serving the cause of justice, and as he has a very large family to support, some little testimonial on the part of the city, authorities, the underwriters, or our business men, would not underwriters, or our business men, would not only be very appropriate but would, doubt-less, be very welcome to the recipient at this

We understand that Mr. Blackburn, as soon as his health is recuperated by rest and change of scene, intends to engage in a business in which the Underwriters and the public will, at all times, have the advantage of his information and experience, in all matters of fires and tion and experience, in an inatters of irres and the crimes connected with fire, life, accident and other branches of insurance. In what-ever new calling he may embark, we take pleasure in recommending him, and trust that he may meet with that success which he so justly deserves.

LOCAL CHOWDER.—In the way of hot weather during June, 1870, the trump cards were held by last Saturday and yesterday. At noon on Sunday the mercury soared up to 90, and without sufficient air to set into vibration the web of the gossamer. Not to put too line a point upon it, Sunday was literally hot. The larefooted children of Bedford street dance opon the heated bricks like hears upon heated plates. The tongues of dogs literally lolled from their fauces. The shady sides of the street during the afternoon were lined with people, from the baby to the grandmother, panting for a breath of air. The decks of the leasts supplied to Glovester, were set filled. hoats running to Gloucester were as filled with people as a sugar-box in front of a gro-cery store is "black with files." Smith's Island was allke thronged. For some reason or other at this place there is always a breeze

astir. Its willows are waving at times when not a puff of air can be felt by the person who slands upon the city wharves. There was who stands upon the city wharves. There was yesterday no visiting of cemeteries. The fairy little steamers on the Schuylkill did a business that taxed the capacity of the entire four. The heat kept away even from Fairmount Park the people that usually visit it from other sections of the city. The breeze that sprung up about 8 P. M. was a relief enjoyed by everyone.

—The Democracy go through the motions, to-day and to-morrow, of making their nomi-

to-day and to-morrow, of making their nomi-nations. They are then to select the lambs for the October slaughter. The tree-frogs of the Row are uttering their distinctive cry in front of the State House, this morning. They vary the music by dipping at frequent intervals into the recesses of the various gin mills. For promoting one's morals, politics are not strongly to be recommended. One Demo-cratic candidate, who, three months since, left church on Sunday evenings in his carriage, left a gin mill, last evening, on a shutter. He was seen walking up Chestnut street this morning with a prize-fighter on each arm.

-The supply of ice, yesterday, was so limited that the stock of dealers who didn't refuse to sell only to their regular customers ran out before 2 P. M. The consequence was that many a poor creature went to bed in a condition akin to suffering. With the temperature at 24 the uniced water of the Schuylkill is a literal emetic.

The plane stores are to be closed during the months of July and August, by agreement of their proprietors, at five o'clock each afternoon. This is with exception of Saturdays noon. This is with exception of Saturdays.
With a view to giving all hands an opportunty to rusticate until Monday at Atlantic City or Smith's Island, they will on that day put up shutters at three o'clock. People who want to buy pianos at a moment's notice will pleas

buy pianos at a moment's notice will please take notice.

—In the absence of any-public celebration of the coming Fourth the preparations all around us for private blow-outs are far from inconsiderable. At the villas of our rural residents arrangements are very generally being made to do honor to the fowl of liberty and the stars and stripes. The lawns upon the banks of the Delaware will probably present an array of protechnics that will send the an array of pyrotechnics that will send the "lightning-bugs" into temporary exile. By many of our manufacturers especial entertainments are in preparation. A number of the heads of large industrial establishments, their with force of constitute will be taken. their entire force of operatives, will be taken to the seaside. Most of them bring up at At-lantic City.

—A city clergyman, yesterday morning, thought, when he entered his pulpit, that the manuscript of his sermon was in the pocket of his coat. As it wasn't, he was obliged to go to the vestry room, bring out a volume of printed sermons, and stumble, with exeruciating torture, over an apology for a discourse. The gentleman was a candidate for a call to the pulpit in question. That he will receive it nay be set down as doubtful.

may be set down as doubtful.

The public schools are on the eve of closing. This will-fill many sections with urchins who are only out of mischief when within the walls of the school-houses. In some of the populous parts of the city there is one set of inhabitants so nervous that they take no rest excepting that taken while the children of another set are immured in school. -A gentleman tells us that for one-half of the bell on Rev. Albert Barnes's church he would pay a liberal sum. Having secured possession, he says, he would also secure a sledge hammer, and immediately proceed to sledge his balf of it into smithereens. The tone of this bell is certainly discordant. That bells upon three-fourths of city churches are a mere superfluity in the shape of din and clangor, is an idea entertained by many. People in the vicinity of this church, who are wrestling with illness, are deeply to be pitied. THE BOARD OF SURVEYS.—An adjourned meeting of this body was held this morning at their rooms, in South Fifth street.

their rooms, in South Fifth street.

President Kneass occupied the chair.

The plan of the street lines south of the Navy Yard and east of Swanson street was adopted. A large number of interested parties were either present or represented by counsel. The Board, with every disposition to defer in every possible way to the interests of all parties, very naturally found it impossible to please all.

The plan, as adopted, goes to the courts for confirmation. It then acquires a legal validity.

A petition for a sewer on Woodland street for one on Beach street, between Green and Coates; on Buttonwood street, from Eighth to Franklin; on Morris street, west of Seventh, First Ward; on Third street, between Culvert on Lawrence street, from Thompson to Jeffer north to Wager; a remonstrance against a proposed sewer on Oxford street, from American street to Mascher, were presented and referred to Committees. Also one for a culvert in North street, be-

tween Fifteenth and Sixteenth streets.
This was the extent of the busines transacted, possessing public interest. Adjourned.

Policeman Assaulted with an Axe.—
John Decroft, residing at No. 1310 Wood
street, abused his wife last night. Policeman
Thorn, of the Eighth District, attracted by
the noise, entered the house. Decroft then, it
is alleged, seized an axe, and made an attack on the officer. He succeeded in somewhat dis-figuring the nose of Thorn. He then fled into the cellar, taking the axe with him. He stowed himself away in the coal-bin, and de-fied the officer to arrest him. Thorn captured him without sustaining any further damage. The assailant bad a hearing before Alderman Massey, and was held in \$800 bail.

YOUTHFUL HIGHWAY ROBBERS .- Three boys, aged 12, 14 and 16 years, attacked a boy-on Sargeant street, below Cumberland, yester-day afternoon. They knocked him down and then rifled his pockets. The amount of plun-der obtained was three cents. The youthful robbers were arrested by Policeman Nichols, and Alderman Heins sent them to Moya

MAYHEM.—Two colored men, named Russel Thompson and George Thomas, quarrelled at Sixth and Pine streets yesterday. During the wrangle Thompson, it is alleged, bit off a portion of the ear of Thomas. He was arrested, and, after a hearing before Ald. Carpenter, was sent to prison in default of \$1,000 bail.

CONCEALED WEAPONS.—George Hubbs, re-iding at No. 1114 Allen street was arrested yesterday by the Seventh District Police for earrying concealed deadly weapons. He had a pair of brass knuckles in his pocket. He was taken before Ald. Cahill and was held in

SLIGHT FIRE.—This morning, about seven o'clock, a fire occurred in the picker-room of the woolen mill of Campbell & Pollock, at Twenty-first street and Washington avenue. The flames were extinguished before any serious damage had been done.

FAST DRIVING.—Benjamin Ambler and Charles Daniels, residents of Plymouth, Mont-gomery county, were arrested on Main street, Germantown, yesterday, for fast driving. They were fined by Alderman Good.

More Bathers in Trouble.—During yesterday sixteen young men, who were indulging in a bath in the Schuylkill, were captured by the Harbor Police. They were all fined. LARCENY.—John Bell has been held in \$800 bail by Alderman Collins for having stolen \$12 from John Moore, at Sixth and Shippen

DISORDERLY HOUSE—Geo. W. Hibbs, charged with keeping a disorderly house at 610 Shippen street, has been held in \$800 bail by Alderman Collins.

THE FIFTH DISTRICT POLICE STATION.— A meeting of the Committee on Police of City Councils was held this afternoon, and the propossis for the erection of a new station-house in the Fifth Police District were opened. The bids were for two and three storled buildings with

C. D. Supplee & Son, two story....... 24,700
The contract was awarded to Henry Phillippi for a three-storied building with Mansard

FIRE.—The alarm of fire about half-past one o'clock this atternoon was caused by the explosion of a car of coal oil in the depot of the West Philadelphia Passenger Rallway Company. No serious damage was done.

Run Over.-Win. Stevens, residing at Cedar and Dauphin streets, was run over by a wagon at Shackamaxon wharf, about seven o'clock this morning, and had a foot and leg badly injured.

Assaulting a Woman.—Charles Bevins was arrested on Saturday night, at Front and Spruce streets, for assault and battery on Annie Adams. He was taken before Ald. Carpenter, and was held in \$800 bail for trial. THE HEAT.-Win. McGinley, residing at

Twenty-fourth and Pine streets, was overcome by the heat at Second and Callowhill streets, on Saturday. He was conveyed to St. Mary's Hospital. THE DOG WAR.-During last week sixty four unmuzzled dogs were captured in the city Of that number eight were redeemed. The remainder were killed.

MAD Doos.—Two mad dogs were killed yes terday by the Seventh District Police.

Brown's Essence of Jamaica Ginger.

This article is now deemed indispensable in hot weather. As a gentle and healthful stimulant ginger has no rival; and in the peculiar form in which it is prepared by Mr. Frederick Brown, at the northeast corner of Fifth and Chestnut streets, it is at once convenient and palatable. Those who design making voyages by land or water should not be without the

THE GEORGIA BILL.

The Need of Legislation.

essence.

After long unnecessary debate, the Senate and the House seem to be at last approaching an agreement on the question of admitting Georgia, and their differences are now so slight that we have good reason to hope the work of reconstruction will speedily be completed. There is no time to be wasted in use less discussion, and, besides, the whole subject has been considered in every possible light, till the country is tired of the war of words votes, and not arguments, are what we want now.

Everybody knows that the rebels them selves are to blame for the present condition of Georgia. The original plan of reconstruc-tion-was as liberal as even the most unre-pentant could desire; no class was denied representation in the Legislature; the members were required to subscribe to no test oath representatives were admitted to seats in Con of speedy restoration, when evil counsels prevailed, and loyal colored members of the General Assembly were expelled. But we cannot afford to be ungenerous and proscriptive because a few misguided men have set at any other the principles on which are General. naught the principles on which our Government is based. The ratification of the Fifteenth Amendment has disposed of the only valid argument for delaying the admission of the last rebellious State and the final and com-plete restoration of the Union.

The bill, as it passed the House on Friday, is an improvement on the one which passed in March last. It imposes no conditions, but recognizes those already fulfilled by the ratification, in good faith, of the XIVth and XVth Amendments, and it does not seek to continue Amendments, and it does not seek to continue in power the present State Government by postponing any election beyond the time fixed by the State Constitution. It also, by repeal-ing a portion of the Act of March 2d, 1867, ing a portion of the Act of March 2d, 1867, allows the organization of militia and its use in suppressing violence and disorder within the State.—Tribune.

"DER FREISCHUTZ" IN PARIS. Another Failure.

Der Freischutz has failed again in Paris for the twentieth time. A correspondent of the London Herald writes as follows: Der Freischutz is doomed to remain unappreciated in France. At the Odeon, where

appreciated in France. At the Odeon, where it was first given, many years ago, in the guise of an adaptation by Castil Blaze, called Robin des Bois, at the Opera, and at the Lyrique, it has always failed. It has been revived in the Rue Lepelletier; but although the miscenseene exceeds in splendor anything hitherto attempted, Weber's master-piece excites no interest. Nothing is omitted; but the "Invitation a la Valse," instrumented by Berlioz, is introduced as an excuse for a sureptuous ballet; and the masterly recitatives of the clever Frenchmen are also employed without effect. It is possible that the essentially German character of the weird tale and romantic music may be unsuited to the Parisian temperament; but where so much ex-pense is incurred in scenery, it might be worth pense is incurred in scenery, it might be worth while to spend a little money in singers. There is not one fully capable vocalist in the present cast. Mlle. Hisson is a fine-looking young lady, with a powerful voice; but she is quite unequal to such a part as that of "Agatha," while M. Villaret, the tenor of the troupe, is unfit for any important character in the opera. A new Italian dancer, Mlle. Boccachi—a clever, bright-eyed, neat-limbed damsel of sixteen—in a new ballet, "Coppelia," founded on one of Hoffman's fantastic stories, and provided with music by M. Delibes, gratified the audience much more than "Der Freischutz;" and the audience were right. A well-danced ballet is better than a badly sung opera.

THE NATURALIZATION BILL.

Praiseworthy Legislation.

The Naturalization bill is to be voted upon in the Senate next Saturday. From the carnest manner in which the Democrats procarnest manner in which the Democrats pro-tested against it on last Saturday, the bill evi-dently has some positive merits. It cannot have less than the bill which finally passed the House, and we hope it is to prevail in lieu of that incasure. The clause which takes away from the State and Municipal Judges, elected in sec-tional and local interests; the right to decide who shall be citizens of the United-States, ought to be strenuously insisted upon. There is no reforming this matter without it, and that it must be reformed, if we want free and honest government, there is no one so blind as honest government, there is no one so blind as not to see. That the Senate will adopt it we do not doubt. Let the members of the House who were frightened into false action on their own bill recover from their demoralization in time to pass the Senate measure.—Tribune.

CITY NOTICES.

"WHAT is that you say?" "I say that Rockhill & Wilson are not under one half the expense of some of the clothing bouses, and their clothing is so much superior, so much better in style, and 20 per cent. lower. These are four good reasons why L. and thousands of others give them our patronage." "Aye, you are right, Jonathan: Til go to Rockhill & Wilson's Great Brown-stone Hall also." "Yes. try them, Job, at Nes. 503 and 60 Chestnat street." t Nes. 503 and 606 Chestnut street."
P. S.—I believe there is where they sell the magnificent all-wool \$10 Spring Sults.

KILBURN & GATES'S FURNITURE -In an other column of our paper, to-day, our readers will find a timely "caution" from the extensive Cottage Farniture manufacturers, Messrs. Kilburn & Gates, of this city.
The Furniture of this firm has deservedly attained a wide reputation, and the knavery of certain dealors has led them to sell the productions of other manufacturers as the Kilburn & Gates article. In order to expose this imposition, and place the people on their guard, the lat-ter firm has adopted the plan of stamping every article they manufacture with their initials and trade mark This prudent safeguard will serve to protect purcha

HOBSON'S CHOICE.—Whoever attempts to restore gray hair with the ordinary preparations, must choose between the tar-like dyes and the muddy coloring fluids. Both are dirty. Phaton's Vitabla, or Salvation por the Hair, is the only orticle in existence capable of changing gray hair to any natural shade; it is transparent, fragrant, limplé and infallible, hold by all druggists and lancy goods dealers.

LADIES DESIRE WHAT MEN ADMIRE,— And this little thing is Beauty. What do we say is beautiful? A transparent complexion and a luxurisat head of hair. What will produce tiese? Hagan's Magnolia Balm will make any lady of thirty appear but twenty; and Lyon's Kathairon will keep every hair in its place, and make it grow like the April grass. It prevents the hair from turning gray, eradicates Dandruff, and is the finest Hair Dressing in the world, and at only half ordinary cost. If you want to get rid of Sallowness, Pinpiles, Ringmarks, Moth-patches, etc., don't forget the Magnolia Balm, ladies.

OFF FOR THE SEASIDE.-But before you go, call upon S.O.A.N. 305 Market s reet He has an infinite variety of Buthing Dresses. Oil Caps Straw Hats, Leather Belts, etc., for Ladies, Gentlemen. Misses, Masters and Children.

BEHIND THE TIMES.

The man who was opposed to newspapers paid a hundred dollars, last week, for a galvanized watch. In going from Philadelphia to New York, he always takes the Delaware and Raritan canal, not being aware that there is any railroad on that route. He purchased of some Peter Funk ithe other day at a high price, a compound of state, dust, &c., for prime anthracite, not knowing that Bitchell. & Wroth are selling a splendid article of waite ach, large nut coal, at §5.75. Had he purchased of them, he would have got a pure article, carefully screened and picked. Hundreds of our citizens, we are pleased to learn, are availing thomselves of the advantages of dealing with this enterprising firm. By so doing, they get a really superior article, and that, too, at a lower rate than at any other place we know of. Their Coal Depot and Office is, as every one knows, at the northeast corner of Ninth and Girard avenue. BEHIND THE TIMES.

GLITTERING TEETH. GLITTERING TEBTH.

Not only does SOZODONT impart the WHITENESS of the purest porcelain to the teeth, but its rollest. too. They glisten after being brushed with it like the inner surface of an occan shell, and the effect of this peerless dentrifice is to render the enamel as hard and indestructible as advanced.
