Let the Senators who have the power to defeat this obnoxicuts tax see to it that this majority is again recorded against it. CITY NOTICES.

HOW TO LOOK YOUNG-SIXTEEN.-DON' maint or use vile Hair Restorers, but simply apply Hagan's Magnolia Balmupon your face, neck and hauds, and use Lyon's Kathairon upon your lisir. The Balm makes, your complexion pearly, soft and natural, and you can't tell what did it. It removes freckles, tan-sallowness, ring-marks, moth-patches, etc. ; and in place of a red, rustic face, you have the marble purity of an exquisite belle. It gives to middle age the bloom of perpetual youth. Add these effects to a splendid head of the second hair produced by the Kathairon, and a lady has done her best in the way of adornment. Brothers will have no spinster sisters when these articles are around.

PANIC-STRUCK BEAUTY .-- It is a terrible shock to a charming woman-indeed, to ANY woman, to ind that her teeth are "beginning to go." Never will any human being who uses the fragrant Zozodont make THAT discovery. the Army Appropriation bill when it comes up before the Senate for action, and he entertains strong hopes that in this form it may pass both Houses.

McGarrahan's Claim.

The House Judiciary Committee to-day decided, by a vote of six to four, to report adversely to allowing the notorious McGarrahan claim for the Panoche Grande Ranche, in California, worth several millions of dollars. Contested Election Cases.

Eight contested election cases in the House go over until next winter for final action by the House, the election committee believing that it is useless to report them to the House this session, when there is no chance whatever

of action being had on them. Report on the Howard Investigation. The report of the Howard Investigating Committee will not be submitted to the House until next Wednesday.

Political Disabilities.

The Senate has had under consideration, all day, a Disability bill, introduced by Mr. Mc-Creery, of Kentucky, to remove the disabilities of about eighty persons living in Kentucky, one of them Gustavus W. Smith, who, at the beginning of the war, was a Street Commissioner for the city of New York.

The Deficiency Appropriation Bill is under discussion in the House.

The Funding Bill in Committee. WASHINGTON, D. C., July 8th.—The Confer-ence Committee on the Funding bill held a ence Committee on the Funding bill heid a meeting this morning, at which the foreign agency clause was much favored. They were unfavorable to the 4 per cent. bond as in the House Funding bill. They adjourned, how-ever, without accomplishing anything. Secretary Boutwell is urging a higher rate of interest than 4 per cent. He says he cannot fund at 4 per cent., and wants a 42 or 5 per cent. bond. Funding the Debt.

Funding the Debt.

The Conference Committee on the Funding The Contreence Committee on the Tunding bill, Messrs. Sherman, Thurman and Davis ou the part of the Senate, and Messrs. Schenck, Hooper and Brooks on the part of the House, held a meeting this morning and discussed the various funding propositions without coming to any conclusion. It seems to be the impres-sion that the Committee will be unable to agree. Each of the members hold to their re-spective views, and will not yield. Mr. Sher-

was disallowed at the department in the case of the House employes, on the ground that it required the joint action of the House and Senate. The amendment give rise to a long debate, in which Mr. Dawes opposed and Randall and Peters advocated the motion. Randall and Peters advocated the motion. Several sharp personal passages took place between Messrs. Peters and Dawes, during which the latter charged Mr. Peters with having steadily voted for all extravagant measures involving increased appropriations, and Mr. Peters replied by pronouncing the statement untrue, and not borne out in any particular by the record. Both gentlemen subsequently begged each other's pardon, disclaiming any intention to be personal or unparliamentary, and request-ing the Globe reporters to exclude their re-marks.

Mr. Randall's motion was adopted-yeas, 84

Mr. Brooks, of New York, submitted an amendment directing the Speaker of the House and the President of the Senate to de-vise some means of shortening the report of the proceedings in the *Congressional Globe*, and b keep out all irrelevant matter. He said that at present the Daily Globe was

a wonder in stenography and a monstrosity in literature, and no member could take time to wade through the mass of irrelevant matter printed in the Globe in order to find what had

printed in the Globel in order to find what had been done in former times. The press reports of Congress amounted to two or four columns, and contained all essen-tial information of the proceedings, but more lately the reports of the Associated Press lately the reports of the Associated Fress, have been so shortened as to be imperfect and unsatisfactory. He thought some plan ought to be devised to secure a semi-official report of the proceedings, which might be full and ac-curate enough without containing such an enormous, and voluminous amount of irrele-vant matter. If this business were left more to was an attractive full instice would be done. to press enterprise, full justice would be done not only to those who so often occupied the floor but to the more silent and unspeaking

members. Mr. Benjamin moved to amend Mr. Brooks's motion by providing that no speech not ac tually delivered in the House shall be pub lished in the Gobe. Mr. Brooks called attention to the practice

which prevailed in the House on the part of some members who were not capable of con-structing a speech in the English language, who procured speeches to be written by liter-ary men and lawyers, and had them printed in the Globe. It was a fraud upon the coun

Mr. Garfield moved that the Globe shall no be printed at the expense of the Government atter the present Congress. He would trust the newspaper reporters to sift out all that was worth saving, and would thereby purge the proceedings of the House of all that was superfluous and worthless. Even the vanity of the members was not subserved by the of the members was not subserved by the Globe. Nobody reads it. It was a perfect ob-livion trap, and men fall into it and are never livion trap, and men fall into it and are never more heard of. Mr. Johnston (Cal.) introduced a resolution directing the Secretary of the Navy to inform the House whether he has authorized the hiring out of any Government dredging ma-chines to private parties in the Bay of San Francisce, and if so, under what authority, what was the nature of the contract, &c. THE GREAT CRICKET CONTEST AT HUDSON CITY.

The Game decided a Draw--The Phila-delphians Ahead at the Close.

Play was resumed yesterday morning, Bance and W. Stead-not out Wednesday, facing the bowling of McIntyre and J. Hargreaves. Stead was bowled after running up a total of 19 by McIntyre, and Bance was soon caught out by F. Hargreaves, after batting finely for 36. Nothing further worthy of note occurred, and the inning closed finally for 146 runs for the St. Georges, or ten more than their oppon-ents had obtained.

ents had obtained. In the second inning, which was begun at half-past twelve o'clock. P. M., with the Ger-mantowns at the bat, there was some lively run-getting for a time, McIntyre rolling up torty-five, Barclay lifteen, J. Hargreaves twelve, Large ton, and T. Hargreaves eight. The batting was very brilliant all around, and the St. George men were quick to take all the chances offered them. The bowling of Norley was particularly fine, while-Butterfield was also very effective. The result of the inning was a credit of one hundred and one more runs to the visitors. Shortly after four o'clock runs to the visitors. Shortly after four o'clock the St. George players again went to the bat, to try and could the hundsome score of their opponents. Rain now began failing, and the wickets went down in quick succession, as follows: first for eight, second for eleven, thurd for twelve, fourth for twenty-four; but Carpenter finally came in and put a stop to the successful bowling for a time, running up eighteen in fine style. The game finally re-sulted in a draw, in consequence of the rain, wickets being down at three-quarters past five o'clock, St. George having four wickets to go lown. The Germantown Eleven evidently ad the best of it, and if the match had been carried out they would probably have won.-N. Y. Stondard.

AN INTERESTING RELIC.

Dickens on the Stage. The Tribune says:

An interesting theatrical relic of Dickens has found its way to our table—namely, a play-bill, dated May 27, 1851, giving the pro-gramme of a performance which took place at Devonshire House on that date, and in which Mr. Dickens bore a conspicuous part. The novelist, as is well known, was an excel-lent actor. Those who only heard him read could easily divine his talent for the more comprehensive and satisfactory art. On this occasion he not only directed the entire per-formances, but played in comedy and farce. The representation was given by "the Amateur Company of the Guild of Lit-erature and Art." Sir Edward Bulwer Lyt-ton's comedy of Net so Bud as We Seem"— then acted for the second time—and a farce called Mr. Nightingale's Diary, made up the en-tertainment. The scenery was painted by Stanfield, Roberts, Telbin, Pitt, Absalom, Grieve and Hagle—au unprecedented combi-nation of talent in this department. In the "comedy Mr. Dickens played "Lord Wilmot," " a young man at the head of the mode more than a century ago." In the farce he enacted " Mr. Gabblewig," of the Middle Temple." The casts of these pieces include some re-markable names, and we present them as thecomprehensive and satisfactory art. On this markable names, and we present them as the atrical curiosities :

Messrs. Cox and Bingham opposed the amendments. Mr. Woodward would not couamendments. Mr. woodward would not con-sent to the abolition of the *Globe*. He declared the daily reports of the Congressional pro-ceedings in the New York papers were a car-icature and libel. His own speeches had been so mangled and misrepresented in the Associated Press reports, that he had asked the reporter to exclude his name altogether hereafter. He would rely on the accuracy of the Globe reporter.

Body Identified. NEW YORK, July 8.—The body of the man found in the North river, at the foot of Beach street, on Thursday morning, has been identi-fied as that of James W. Lingard, the former partner of G. L. Fox, in the management of the old Bowery Theatre, destroyed by fire a form make since Dequainer and domestic few weeks since. Pecuniary and domestic disabilities preyed on his mind, and he was ob served to be exceedingly low-spirited and de spondent. He visited the Crystal on Wednes ap afternoon, and wrote some letters to his wife and friends, in which he expressed his determination to destroy himself, and it is said he was seen by some parties in or near Hudson street about 12 o'clock the same night. He was no doubt then on his way to the plea from which he threw himself into the river The deceased normal. The deceased was a native of England and

SINGULAR CRIME. An Attempt to Commit Soleide by Woman of Seventy.

[From the Oincinnati Times, July 5.] An old German woman of seventy years

anned Bertha Daring, made a desperate at-impt to commit suicide in the Ohio river, opposite the Little Miami depot, at 11 o'clock opposite-the Little Minim depot, at 11 o'clock to-day. Some of the meu connected with the depot saw her approach the river, (deliberately divest herself of a portion of her clothing, and then take what she evidently intended to be the leap of death. The men, however, ran to her resin time to save her life. After being with The infector serves in the infect or a first order of the residence of the resuscitated, she was taken to the residence of the rson, on Sixth street, near the market-house, and placed under the care of a physician. It seems that, during a recent trip from Louisville, on one of the mail line steamers, she was robbed of all her little store of money and that the loss had ye prevent on of money, and that the loss had so preyed on her mind that she resolved to end her troubles by death.

THE SAMANA BAY TREATY. The Annexation of Dominica Not Aban-doned. The Government will take immediate mea-

sures for the extension of the time for the ratithe atom of the treaty for the acquisition of the Bay and Peninsula of Samana by purchase. One hundred and fifty thousand dollars have already been paid by the United States, that being the amount of the annual instalments of the purchase-money. The year expires in Oc-tober next, when another payment will have to be made. It is doubtful whether Congress will be able to act on this measure before the adjournment. If not, the new negotiations will be opened. The St. Domingo treaty will not be abandoned, but if an agreement can be settled it will be brought up in some shape next session. The treaties—that of annexa-area tion and that for the purchase of Samana – are distinct. The latter has not yet been acted upon at all. The claim of the United States, however, until October next, is established, and beyond that time, if the money be not paid, some arrangements will have to be made so as to await the reassembling of Congress.-
