"Poetry," he says, "may kindle a loftier fire,
"Poetry," he says, "may kindle a loftier fire,
"Poetry," he says, "may kindle a loftier fire,
"Poetry," he says, "may kindle a loftier fire, Johnstown is situated at the western slope of the Allegheny Mountains, distant two hungers and pullosophy may touch a deeper spring, but no works argest city between the two above-named, and many houses, or attract so many readers as the contains about twenty-two thousand inhabit- romance or novel of modern times." Throughants. Here are located the great Cambria Iron out he speaks of a good novel as an unmixed Works of Wood, Morrell & Co., of which the good; as, in fact, the same sort of teaching by fact that the new bootmakers are possessed of Hon. D. J. Morrell, chairman of the Committee vivid illustration which we may observe in the on Manufactures of the United States House parables of Scripture. He indicates a connection between the Tom-all-alone of Bleak House bronze statue, which was sent to Geneva. It and manager. These works are considered the and the Lazarus of Holy Writ, and accredits proved to be a Bacchus, of the best period of argest on this continent, or even in the world. the modern author with continuing the mission They have a capacity for sixteen hundred tons of Christianity. The profound importance of is considered equal to the Faun and the Narcis-

of railroad iron per week, besides other clevating what was hitherto considered a trifling sus of Pompeii. manufactured iron. From these works or frivolous pursuit to such a position cannot are sent forth some of the best qualities of iron the country can produce. Dr. Newman approaches the novel, the city itself is largely manufacturing in novel-reader, and the novel-writer in a totally other branches, as among many may be men-different spirit. He admits that the fruits of tioned the large Mechanical Works, Woolen talent are acceptable gifts to God. "St. Luke Mills, Cement Works, Steel Works (in which was a polished writer, and yet an Evangelist." Bessemer process is introduced), potteries, He then goes back to the building of the Situated in the midst of mountains filled ernacle, and extracts the description of Bezawith iron ore and coal, it has great facilities leel, who was tilled with the Divine Spirit, "in for production. The spirit of enterprise has wisdom and in finderstanding and in knowlmarked the progress of this place for many edge, and in all manner of workmanship, to years, and from being an old way-station of the devise cunning works, to work in gold and in Portage Railroad it has sprung into a first-class silver, and in cutting of stones, to set them. inland city. Many beautiful churches have and in carving of timber, to work all manner been erected, and the finest and most complete of workmanship." So far both Dean Stanley water-works outside of Philadelphia or New and Dr. Newman agree; but the former went York may be found here. From a distance of on to glorify the sincere labors of the modern aree miles below the city water is made to writer of fiction, the latter speaks of them in force itself to a height of sixty feet from the street-plugs. Other improvements have been "Such works (novels) contain many goo made of equal importance, and the energy and sentiments (I am taking the better sort o enterprise thus manifested is largely due to them); characters too are introduced, virtuous, el J. Morrell, Esq., who, it may not be noble, patient under suffering, and triumphing amiss to mention, will receive a renomination to the position he has so ably filled in the House of Representatives. The good people forced, and our affections excited and interested of this city are strongly urging the importance of removing the county seat of Cambria county to this place, and with some chance of success.

in what is good and true. But it is all fiction; it does not exist out of a book, which contains the beginning and end of it. We have nothing to At present their county capital is located at do; we read, are affected, softened, or roused, n insignificant little place up in the moun- and that is all; we cool again, nothing comes ains, hard to reach and equally hard to of it. Now, observe the effect of this: leave when there. Johnstown is certainly has made us feel in order that we may go on to the commercial and business centre of act in consequence of feeling; if, then, we althis entire region, and why a city of the num- low our feelings to be excited without acting per of impabitants which it possesses should be upon them, we do mischief to the moral sysput to the inconvenience of traveling twenty- tem within us, just as we might spoil a watch ve or thirty miles to a small village of one or or other piece of mechanism by playing with two hundred inhabitants to have its legal in-the wheels of it. We weaken its springs, and terests attended to, is a mystery yet unsolved. they cease to act truly. Accordingly, when we arge and enthusiastic meetings have been have got into the habit of amusing ourselves Legislature, pledged to support their views, has to feel the excitement without the slightest been placed in nomination. Politics have been thought or tendency to act upon it; and since cast aside in consideration of the gravity of the it is very difficult to begin any duty without some emotion or other (that is, to begin on Several newspapers are published here, but as mere principles of day reasoning), a grave

yet no daily. Arrangements are being made question arises—bow, after destroying the conton send, and a first-class daily journal will nection between feeling and acting, how shall great age of most of its members and the heat soon be issued, and there are no doubts of its we get ourselves to act when circumstances of the weather, is really quite alarming. Week success. The inhabitants are intelligent and make it our duty to do so?" adustrious as their literary and other organizations sufficiently prove, and this combined with the many natural facilities afforded them, will enable them to soon distance all competition in the way of real progress.

A new and beautiful opera house has been erected which is surpassed by none and equaled by few, even in our large cities. In regard to something nature, which die out as they are stirred without any definite action on our parts which could be referred to by few, even in our large cities. In regard to the impulse and though there was an original to something might be done with regard to the gambling-tables which have recently been opened at the neighboring town of Monaco. As most people know, Monaco is one of the three republics in Europe; and is quite independent of the Government of Italy, by whose the impulse and though there was an original to saw. by few, even in our large cities, in regard to the impulse, and though there was an original territory it is surrounded. Strange to say, peauty and finish. It possesses all the modern connection in our minds between feeling and although a republic, Monaco possesses a prince conveniences and appointments of a first-class opera house, and reflects great circuit on the as they may be called, are loosened and powercity, and also upon its enterprising proprietor, less."

Seeing that his whole principality is only of Mr. John Parke, who has spared neither time What shall we say to all this? That Arnold about 3,000 acres, this was not surprising—took jeio-lyrp nor means in fitting it up.

The principal drawback to be noticed in this city is the want of proper hotel accommodation. ("Oliver Twist," one of Dickens's most abundance ose in this respect, and many make his sermon)—or that there is a tide of all-preto taxation; so the prince did what a great many ferman princes have done before him. He opened a gambling house, and did all in with the property of the prince of the pri

to which it properly belongs, and although at present its light is partly hid under a bushel, the time will come when it must shine forth as one of the greatest manufacturing emporiums of the traveling to a science, and in regard to speed, appointments, comfort of travelers, and polite and gentlemanly officials, it is second to

none on the continent. It has more than developed the hidden resources of our State, and stands forth to-day as one of the powers of our country. Traversing for the most part a fertile other in doing honor to the moral influence as region, it has taken with it to every place much well as to the literary genius of Charles Dick-The print has been transferred by Harper's ment. It passes in almost a straight line from the castern to the western boundaries of the State. the guides of youth at that period when the Weekly.

—The castern to the western boundaries of the State. Its course takes it through some of the wildest and most romantic scenery of which our country can boast. From Philadelphia to the eastern slope of the Allegheny Mountains one continuous succession of highly cultivated farms is one of the mest pernicious enemies to the slope of the Allegenny Mountains one continuous succession of highly cultivated farms is brought to view, especially in Lancaster, Dauphin and Huntingdon counties. Ascending the Allegennies by a gentle slope, it carries the traveler gradually and gently to the wild and grand beauty for which these mountains

ing the Alleghenies by a gentle slope, it carries the traveler gradually and gently to the wild and grand beauty for which these mountains are celebrated. From Altoona to the summit the view is anobstructed, and for a hundred one upon another; till their peaks are almost hidden in the clouds. Here might the artist use all his powers with good effect. As the iron-horse feels his way along the ledges of the mountains, the eye can scarcely peer into the depths far below. Soon the great through, like some mad demon bent on destruction, the image of something like some mad demon bent on destruction, the image of something like some mad demon bent on destruction, the image of something like some indo and carries are almost through, like some mad demon bent on destruction, the image of something like were, drop by drop, did they possess it so

absorbed in this, unknown to himself, he was Chinamen, who, by some means, had discovered the purpose of the stranger's visit. The sketch was very clever, and disclosed the accomplishments not before suspected.—A classic art. The figure is nine inches high, and
