THE HEATED TERM.—The dog star since the 12th instant has had everything its own way. Boreas has been sick abed in his cave. The heat has been continuously intolerable. It yet continues to be so. At the hour of 3 P. M. on the days from the 12th to yesterday it respectively registered 91, 86, 92, 892, 931 and 97. This was the registry at the Pennsylvania. Hospital. In locations a little more exposed the mercury was even higher. People who have been raralizing during this torrid spell are to be envied. To sit in church yesterday was something like enduring a religi-ous fry. Until yesterday our reporter never fully realized the sensation experienced by St. Francis when broiling upon a gridiron. The heat of the nights during all this term has been as little endurable as the heat of the days.
Last Saturday night found a large portion of
the people in various sections of the city occupying positions upon cellar heads or front
door steps. This was equally true of last, night.
A promised shower just before sun down
passed away like a piece of ice in a boiling teakettle. To read Dickens's picture of Marseilles in summer, in the initial chapter of
"Little Dorit," would have been a trying
task. In the several hours of noontide heats
the streets were very nearly deserted. To risk
exposure to the rays of the sun was doubtless as little endurable as the heat of the days

the streets were very nearly deserted. To risk exposure to the rays of the sun was doubtless deemed by many to be equivalent to suicide. Protestant churches, as a matter of course, were very sparsely filled. The Catholics have their early mass and finish their day's devotions, if they please; in "the cool" of the morning. The patronage conferred upon the public drinking fountains has of late been incessant. Even the rum-sellers, who steal their cessant. Even the rum sellers, who steal their cups and get their valves out of order, must, yesterday, have looked with extenuation upon yesterday, have looked with extenuation upon the multitude who drank from them. At the hour of noon the sidewalks were so hot that through thin soles the effect wasn't altogether pleasant. The statement that the BULLETIN flagstones were blistered is based upon a mistake. Very few persons were sun-stricken. Instead of recording some scores of cases we find reported but half a dozen. One reson why, so few auffered dandozen. One reason why so few suffered dan-gerously or fatally is that on Saturday as well as on to-day outdoor mechanics are keeping as on to-day outdoor mechanics are keeping themselves from exposure. A black man named James Ring was the first victim reported. He was taken to the Pennsylvania Hospital in an unconscious condition. Frederick Schooridge, of Germantown road and Thompson street, followed him. Both men were respectived in the same day.

were resuscitated in the same day.

An unknown man, about 50 years old, was found in an insensible condition from the effects of the heat on Sunday afternoon, in Chance street, above Eighteenth. He was taken to St. Joseph's Hospital.
Charles Guckenberger, aged 40 years, residing at No. 228 Thompson street, died suddenly

from sunstroke during the same afternoon.

Thomas Car, aged 30 years, residing in the rear of 1313 Cherry street, was admitted to the Pennsylvania Hospital suffering from the effects of the heat.

fects of the heat.

A man named Fisher was found on the side-walk; in an insensible condition, at Second-street and Germantown road, this morning He was taken to his home, No 1305 Palethorp street, and shortly afterwards died.

The appearance of a man thus suffering 18

far from pleasant. When a person pours into a stomach at a temperature of 120 degrees a volume of water with the coldness of 35, something or other may safely be expected to give away. The chances are that it will be the man. LOCAL CHOWDER.—The Japanese lily and

the Cape jessamme are now alike in the perfection of their fragrance and their bloom. The tuberose and the gladiolas will soon

-Impetuous people always suffer. In an attempt at murder in the first degree yesterday morning, at church, a citizen nearly knocked off his own nose. He badly bloodied his shirt-bosom and his hymn book. Outside the church doors the case would have been less flagrant. The gentleman, unlike Uncle Toby. flagiant. The gentleman, uninke Uncle Toby, didn't admit the world to be sufficiently big for him and a fly. As the gentleman mashed the centre of his mug the boys in the gallery set up a laugh. Who could blame them?

—If ever there was a time when the market-

houses should be kept clean, that time is now. Against infraction of sanitary regulations in this matter no citizen need feel delicacy in lodging formal complaint.

-Work in sewer-building is extremely active. The Board of Surveys at its last two

meetings authorized a great number of culverts. They are big and little. The duller other things happen to be the more busy is Mr. Secretary Sturges, of the Department of Surveys. People who want private culverts are glad to have the work done when business is rectified. is resting. City Councils annually authorize a batch of work just previous to their adjournment for the summer. Ground was this morning broken for the culvert in Coates street, be-tween Sixteenth and Nineteenth streets. Work was also begun upon the one in North street There is work for everybody who is willing to

-Mr. Sturges. Secretary to the Survey I)epartment, was the first person as a boy to ride a horse against time at Point Breeze Park. The second was the well-known Jesse Christopher. For fifty-one years Mr. Sturges drove blooded horses in the different parks. Mr. Christopher afterwards became Commis-sioner of Highways. The love of horses in many cases surpasses the love of women. The prettiest picture you can show to either of the gentlemen of above named is the picture of a quadruped that does up his miles after

the manner of Dexter.

—The wind, or rather the air, shifted this morning to the westward. Relief to suffering Philadelphia in the shape of rains may soon be confidently expected.

THE BEDFORD STREET BATHS.-The Rev Mr. Long, of the Bedford Street Mission, has got his free baths into full operation, and invites the public to visit his bathing establishment to-morrow (Tuesday), between the hours of 9 and 11 A. M. The arrangements consist of two large tanks, one about sixteen feet square, and the other about twelve feet square, and three feet deep. These are placed in the building adjoining the Mission Building on the east, and are in almost constant on Monday, Wednesday and Friday are appropriated to women and girls, and the alternate days to men and boys, and the demand for the use of the baths is rapidly on the increase.

use of the baths is rapidly on the increase.

On Friday last, 120 women and 116 girlwere bathed. On Saturday, about 250 men and
boys enjoyed the same privilege. The baths
are open from 9 A. M. to 12 M., from 2 P. M.
to 6 P. M., and from 7 P. M. to 9 P. M.
The Missionary reports a gratifying decorun; among his numerous visitors, having had
but two instances among the women of any
disorderly behavior, and as these two were
promptly furnished with lodgings in Moya
mensing, there is not likely to be any repetition of similar conduct.

In the erection of these baths, which are
such invaluable aids to the true missionary
work of Bedford street, the Police Committee

CORONER'S INQUEST.—Deputy Coroner Sees held an inquest, this morning, upon the body of William Dugan, aged 40 years, who died yesterday at a boarding-house at Second street, and Ledger place. The deceased had two cuts over the left eye, and some of the neighbors said that there had been a row in the house. Therefore the Coroner was notified. Dr. E. B. Shapleigh made a post-mortem examination of the deceased and testified that the cuts were undoubtedly the result of a fall, that they were not sufficient to cause death, and that death was the result of natural causes. Witnesses who were examined testified that Witnesses who were examined testified that deceased complained of feeling sick, and for that reason had eaten nothing all day yester-day. The verdict of the jury was death from natural causes, and Jorenniah Sullivan, who was under arrest in connection with the affair,

Drowned.—A man known as Henry, who has been employed as private watchman at callowhill street wharf, was drowned some time during last night. In consequence of ome thieving operations having been carried on in that vicinity, there were rumors that the watchman had been put out of the way, and the matter was investigated by Detective Ben

Thomas H. Hamilton, a night watchman of the Custom House force, states that he was sitting on the Norwegian vessel Mindet, and, about two o'clock this morning, saw two men in a boat stealing from from the wharf. He followed the boat as far as Lombard street, meeting and taking with him two Delaware Harbor officers. At Lombard street there was an order for the boat to haul in, but it was not obeyed. The occupants then threw the iron into the river? Hamilton fired a shot and it was returned from the boat. This is the explanation of the thieving opera-tions, and Mr. Hamilton does not think the watchman had anything to do with them. The body was recovered this morning under the Mindet. There were no marks of violence visible, and the impression is that the drowning was accidental. Deputy Coroner Sees will fully investigate the case, however.

Assault with a Knife.—Henry Smith was before Ald. Cabill, this morning, upon the charge of assault and battery on Jeremiah Donovan, with intent to kill. Donovan and a friend week product Effeth and Callagabill. friend were passing Fifth and Callowhil streets about noon yesterday. Umbrage was taken at a remark made by Smith or a companion. A quarrel ensued, and Smith is alleged to have drawn a knife and cut Donovan in the head. The wound is quite a serious one. The injured man was conveyed to his home, No. 340 North Fifth street. Smith was arrested by Sergeaut Gilchrist. After the hearing he was committed to await the result hearing he was committed to await the result

ANOTHER NEW YORK BAY EXCURSION.—
The New York Bay Excursion, given by Beck's Band, on Saturday last, was very successful, and it has been determined to have another one on Thursday next. The excursionists leave Walnut Street Wharf at 7,30 A. M. proceed by rail to Amboy, and then take the splendid steamboat William Cook. The trip around New York Bay and Staten Island is delightful, and every opportunity is given for a view of the magnificent scenery which lines the steamer's course. The members of the band furnish both promenade and dancing music. The fare for a single ticket is but \$2.50; for a lady and gentleman, \$4.50. Tickets can be procured at the office of Beck's Band, \$28 Market street; of Charles Brintzinhoffer, \$60. Charles Brintzinhoffer, \$60. Charles Meritainhoffer, \$60. Charles Brintzinhoffer, \$60. CITY NOTICES.

How TO LOOK YOUNG-SIXTEEN .- Don't paint or use vile Hair Restorers, but simply apply Hagan's Magnolia Balm upon your face, neck and hands, and use Lyon's Kathairon upon your hair. The Balm makes your complexion pearly, soft and natural, and you can't tell what dis it. It removes freckles, tan sallowness, ring marks, moth patches, etc.; and in place of a red, rustic face, you have the marble purity of an exquisite belle. It gives to middle age the bloom o perpetual youth. Add these effects to a splendid head of hair produced by the Kathairon, and a lady has done her best in the way of adornment. Brothers will have no spinster sisters when these articles are around.

The enterprising house of Albertson & Co., No. 1425 Chestnut street, will prove to everybody that they can sell the cheapest bedding, curtains, and shades in the city.

This is a Free Country, and if people-like to use hair-coloring compositions full of dirt they have a right to do so; but reason suggests that when Phalon's VITALIA, OR SALVATION FOR THE HAIR-pellucid, sweet and pleasunt—can be obtained at every drug store, none but the mirefined will use any other. Sold by druggists.

NEVERMORE can the coarse, gritty tooth powders and tooth-destroying chemical fluids find a place in the toilets of sensible people. The fragrant and preservative Sozonow has superseded them all. "SPALDING'S GLUE" mends Furniture, Toys, Crockery and all ornamental work.

A QUEER WAY TO FRY POTATOES—Some chap in Manayunk carries a watch so large that his wife uses the case to fry potatoes in. To fry potatoes nicely you should have a good fire, and to have a good fire good coal is indispensable. To procure good coal visit MITCHELL & WROTU'S Family Coal Yard, northeast corner of Ninth and Girard avenue. They have just received choice lot of white ash coal, large out size, which they are selling at \$675 per ton. This is certainly very low.

LADIES can find every description of Corsets at Hopkins' Hoop Skirt, Corset and Ladles' Under-garment Emperium, 1115 Chestnut street.

OFF FOR THE SEASIDE.—
But before you go, call upon Sloan, 806 Market street. He has an infinite variety of Bathling Dressos, Oil Caps: Straw Hats, Leather Belts, etc., for Ladies, Gentlemen, Misses, Masters and Children.

CORNS, Bunions, Inverted Nails, skillfully treated by Dr. J. Davidson, No. 915 Chestnut street. Charges moderate. BROWN'S ESSENCE OF JAMAICA GINGER This article is now deemed indispensable in hot weather. As a gentle and healthful stimulant ginger has no rival; and in the peculiar form in which it is prepared by Mr. Frederick Brown, at the northeast corner of Fifth and Chestnut streets, it is at once convenient and palatable. Those who design making voyages by land or water should not be without the essence.

AFFAIRS IN NEW YORK

A Philadelphia Excursion Party

FROM WASHINGTON. [By the American Press Association.]

The French Government and the War in Europe. Washington, July 18.—No official communications have passed between the French Government and M. Prevost Paradol, since the arrival of the latter in Washington. No information in official circles in this city re-garding the reported battle of Forbach has been received, and the report is not credited. ti is known here that agents of the French Government have, for the past seven months, been actively engaged in purchasing large quantities of breadstuffs, as well as general

army supplies, in this country.

Schuetzenfest.

Schuetzenfest.

Washington, July 18.—The annual fest of the National Schuetzenverein was inaugurated, to-day, with great splendor. The entire German population is out, and the procession is over a mile long, with bands, banners and appropriate devices.

The procession paraded through the principal streets, passing the White House and saluting the President on their way. A huge triumphal car is filled with ladies, representing the Goddess of Liberty and all the States of the Union, drawn by eight horses; another car, representing the different races of Caucasians, Indians, Mongolians, Africans and Malays, attracted much attention.

The procession reached the park about noon, when the festivities of the day commenced. A number of distinguished speakers were present, and upon the conclusion of the speech-

present, and upon the conclusion of the speech making incident to the occasion, the various societies entered with zest into the various con tests for prizes, a very large number partici-pating. The festivities will be continued five

Funding the Debt. While Secretary Boutwell is confident in his ability to negotiate without difficulty in this country the higher rate provided for under the new Funding bill, he will probably await the result of pending events in Europe before actively entering upon the work of refunding, as he desires to negotiate the three several classes of new bonds as much as possible to gether, thereby making one class help the other through

An Extra Session of Congress. It is stated in high political circles that in the event of the pending war in Europe in-volving a complication with other nations, the President may find it necessary to call an extra session of Congress, in order that action may be had to protect American interests. During the next six weeks it is understood

that nearly all the members of the Cabinet will take occasion to absent themselves from the city for a brief period, with the general agreement that there will always be at least a majority of the inembers accessible to the national capital in case of a necessity to call the Cabinet together.

The excursionists are accompanied by Beck's brass and string band, and enjoyed a merry time ancing on the boat on the trip from Amboy. Among the features of the excursion are the programmes, which were imported especially for their use. They are much admired for the extreme artistic beauty displayed.

An inquest in the murder case of Alderman Scannel is in progress to-day. No Further War News.

At the office of the North German Consul here no despatches have yet been received, although telegrams asking instructions have been sent to Count Bismarck. It, has every convenience for holding the bed clothes, is easily managed, and it is impossible for it to get out of order. The use of props or hinged feet to support the mattress when extended, or ropes to regulate it, are entirely done away with, as they are all very unsafe and liable to get out of repair. The BEDSTEAD is formed by simply turning out the ends, or closing them when the SOFA is wanted. They are, in comfort, convenience and appearance, far superior to and cost no more than a good Lounge.
