LOCAL CHOWDEN.—The effects of yesterday's heat upon life of both man and beast, as will be seen elsewhere, were greater than those of any day during the present reign of Sirius. The passenger railroad companies are suffering The passenger railroad companies are suffering by it. Though every precaution is apparently taken, the suffering horse is seized with the same symptoms that mark the visitation upon the human subject, and—as suddenly die. The wet sponges upon the heads of the horses have been found to cause more injury than good. The water soon becomes almost hot. The difference is that the brain of the animal is boiled instead of baked. The cattle driven into the instead of baked. The cattle driven into the instead of baked. The cattle driven into the drove-yards suffer sorely. Three-fine bullocks on their way to Market street wharf yesterday were stricken down. As the tongues of the poor beasts loll, the spectacle they present is piteous. The expected rain of yesterday evening didn't fall. The night was extremely sultry. Traveled people describe the stifling atmosphere of such nights as more oppressive than that of the tropics—for the reason that no matter how broiling may be the sun during the day the sea breezes come to bring relief in the evening. The heat of to-day is quite as op-

ening. The heat of to-day is quite as opevening. The heat of to-day is quite as op-pressive as that of yesterday. When a loco-motive runs off a track while going at a hun-dred miles an hour, the danger that all the passengers will go to pot is very little greater than if the speed of the train had been but ninety-two. After reaching that point, so far as human comfort is concerned, the thermo-

meters can do no more.

—The only excitement to-day was the excitement attendant upon the foreign news. The anxiety as to what will be the result of the misunderstanding between Bismarck and Napoleon is especially manifested among our foreign residents. The French say that the King of Prussia began the quarrel. He did this not by arming, but by giving a snub to Napoleon's Benedetti. The snub in question, say our Prussian friends, was the beginning of the row. At the German cates the enthusiasm of the frequenters is especially warm. They semi-deity Bismarck. They fully believe that unless a compromise is effected the pride of France will be humbled, and the Pope sent a refugee to America. The political pulse of our French and German residents is not without significance as to the general opinion upon a subject that is to say the least important. Of Frenchmen in Philadelphia there are comparatively few. It is due to them to say that we have as yet encountered not one who doubted the ultimate success of

"Mon Oncie."

—The manufactories of Germantown goods are bustling with preparations for the trade of the coming fall. In producing the various kinds of worsted articles of apparel known as Germantown goods, Philadelphia is equalled by no other city in the Union. These factories give employment to a great number of hands. The goods find their way to all sections of the country. Their perfection is such that the importation of zepbyr garments has dwindled down to an insignificant item. Much of it that we see is made by hand, the zepbyr alone heing imported.

zephyr alone being imported.

The new style of mosquito appearing this season at Long Beach must prove very interesting to every entomologist. They are got-ten up like a snipe. Their bills are spiral like a gimlet, Having driven it an inch or so, the animal begins to describe a circle with his hinder parts. Having run in his stinger up to his nose, the wound begins to hurt. The vic-tim knocks off the mosquito. As this breaks off the animal's bill, the subsequent itching produced by it can hardly be considered un-

which is now wilting every shirt collar and dickey in Philadelphia.

—The soda fountains for the last few days have been overworked. The agent of the Society for the Prevention of Cruelty to Animals should take a position near the drug store of Wyeth & Brother. He should then arrest every gentleman in the place.

—People who engulph large quantities of water will do well to test the thirst-allaying properties of soda water as drawn from the fountains without the admixture of syrup. A single glass of it is a surer alleviator of thirst than a quart of ice water or a gallon of lager

beer.

Locusts were singing all last night. The -Locusts were singing an last light. The circumstance is unusual. In cases of protracted drought alone has our reporter ever previously heard this nocturnal demonstration. Even upon the smaller birds the heat of the nights appears to take effect. They began to sing this morning at 3 o'clock.

Nor so Much of a Joke.—Mr. Charles Arnhold, proprietor of a lager beer saloon. No. 676 North Broad street, took a snooze on his front step about ten o'clock last night. William Craig came along, took hold of the sleeper and said that he would pitch him down the cellar. Arnhold didn't like this and had Craig arrested. Craig said that it was all a Craig arrested. Craig said that it was all a joke, but Arnhold persisted in prosecuting the case, and this morning Craig had a hearing before Alderman Paucoast and was held in \$500 bail to answer the charge of assault and better.

A BULL ON BROAD STREET. - Yesterday afternoon, about one o'clock, a bull brok-away from a drove of cattle which was being driven along Thompson street, and took a run on the Nicolson pavement on Broad street. At Jefferson street a man who happened to be crossing was tossed out of the way, but was not seriously injured. After considerable dif-ficulty the bull was got into another drove and passed along quietly.

SUDDEN DEATH.—Edmund G. Booz, residing at No. 1310 Brown street, while on his way home, vesterday afternoon, fell, at Thirteenth and Brown streets, and expired before he could be carried into his house. The deceased was a well known wholesale liquor merchant. He was also a prominent member of the Masonie fraternity, and a member of the Board of School Directors of the Fourteenth

THE HEAT—The weather still continues very oppressive, and the thermometer moves very slightly from the point which it has main tained during the past week.

Yesterday afternoon, about five o'clock, a German named Thomas Stoll was overcome by the heat on Girard avenue, above Thirteenth Street. He was removed to St. Joseph's Hospital, and died there this morning.

UNSUCCESSFUL ATTEMPT.—Between twelve on or o'clock this morning an attempt was made to enter the grocery store of Mitchell & fletcher, No. 1204 Chestnut street. The thieves pried open a back cellar window, and were then frightened off by a couple of policemen. They left behind a pair of shoes and a dark lantern.

CHAIR FACTORY BURNED.—This morning, about half-past three o'clock, the chair manufactory of James Collins, at Belgrade and Palmer streets, Eighteenth Ward, was badly damaged by fire. The loss is estimated at \$5500.

This ordinance the

Mayor intends vetoing. Accident.—John Carmichael, aged 22 years, was engaged in putting in a drain in the rear of No. 2439 Callowhill street, yesterday afternoon, when a pile of earth fell upon him. He was seriously injured and was conveyed to his home, No. 1626 Shippen street.
