"We learn from several Swiss Cantons, and

friendly neutrality. Switzerland knows she has nothing to fear from France, her natural ally and firm friend. The measures taken by Switzerland to secure the respect of Prussia for her neutrality are in our favor, and by her geographical position she protects important positions on our frontier." The friendly feeling of the Spanish people towards France is also pointed out by the Journal, which says: "We hear from Spain that all notice how carefully in the present conflict our government and Chambers have avoided any act or an expression of unfriendliness toward that power. This results from a feeling of sympathy between the two nations."
