THE HEAT -John Flaherty, aged 47 years. was found lying on the sidewalk on Lead street, in the neighborhood of Eighth and Locust street, yesterday afternoon, about one o'clock. He was evidently suffering from the effects of the heat. Policemen Cody and Townsend obtained a settee and conveyed the sufferer to the Pennsylvania Hospital. After entering the gate they were met by a young man, who represented himself to be physician in charge. He said that the man was drunk, and should not remain. The officers objected to removing him unsil it was definitely ascertained whether he was sick or drunk. Their remonstrance was of no avail, and they removed Flaherty to the Fifth District Police station. Dr. Allen was summoned and at once pronounced the case one of sun stroke. Last evening Lieutenant Flaherty called at the Hospital and related the circumstroke. stances to the physician then in charge, and was promply told to have the man immediately conveyed to the institution. This was done, and Flaherty is rapidly recovering from the effects of bisinjuries.

ORITUARY.--Mr. George C. Franciscus General Agent of the Pennsylvania Railroad Company at Philadelphia, died suddenly at Cresson Springs last night. Mr. Franciscus has been suffering, from consumption and a complication of diseases for several years, and in 1867 went to Europe for several months for the benefit of his health. On Wednesday last he took his family to Cresson Springs to spend a few weeks. He went to bed at the usual hour last night, and this morning about day-light, when Mrs. Franciscus awoke, she discovered that her husband was dead. He leaves a widow and one daughter.

Among the railroad officials and employes he was a universal favorite and as a citizen he was highly respected and esteemed. His death will be a surprise as well as a source of regret to a large circle of acquaintances.

DESCENT ON A DISORDERLY HOUSE .- FOR some past there have been complaints of the disorderly character of the house of Mrs. Pourtang, No. 311 Julianna street. Yesterday there were issued cards inscribed: "Miss Fan-nie Gilbert's compliments for Friday evenng, July 22, 1870, 9 P. M.,311 Julianna street." One of these fell into the possession of Lieut. Brurein. He took out a warrant for the arrest of all parties found in the house, and between 10 and 11 o'clock last night, with a squad of officers, made a de-scent upon the establishment. Ten girls were captured. The age of none of them was over of them was an ex-member of the Legislature. He was extremely anxious to get off and of fered the policeman a handsome gold watch and chain to release him. The offer was not accepted and then he said, "For God's sake dow'i let, Dau, Fox know you found me here." -Another of the persons is a prominent physi-cian, and three others are "gentlemen of leis-ure." They were all held to bail by Ald. Toland this morning. Mrs. Pourtang was not at home at the time and therefore escaped arrest.

#### LABOR IN LOUISIANA.

## Comparative Value of Swedes, Chinamen

A gentleman largely engaged in cotton-rais-ing in Louisiana, gives us some in-teresting facts about the comparative value of different kinds of labor employed on his plantation. His main force is negroes, about 150 in number whom he birse on the

Father Hyacinthe. The Christian Union says the position of this gentleman is generally misunderstood, in consequence of a false report by the Atlantic Ca-ble, that he had been "secularized" by a dis-pensation of the Pope; that is, relieved from his obligations as a member of the "regular or monastic clergy, and restored to good stand-ing as an ordinary priest. In a letter just re-ceived from him by the Rev. L. W. Bacon, he speaks as follows: "I observe, with regret, that there prevails

in some quarters in America a false idea of my position. It is now just what it was when I was with you. In order to obtain, at the prewas with you. In order to both an, at the pre-sent time, the privilege of being relieved from my monastic engagements, and instated in the secular clergy, I should have to 'pass under the yoke' of the party dominant at Rome, and renounce my deepest and holiest convictions. "I have told you nothing of the council. Bridouburge approaching a counting but Evidently we are approaching a solution, but the struggle is so violent, on either side, that it is impossible thus far to say what the solu-tion will be—the definition of infallibility, or the non-definition, or a compromise upon some vague and mitigated form of statement.

"Whatever may be the event on this par-ticular point, a profound movement of reacainst papal absolutism has been roused tion ag in the heart of Catholic Christendom, which sooner or later must have important results.

"God reigns, and He knows how to make the passions and errors of men subservient to his own sublime purposes. " Adieu. Courage et conflance !

The Court Mourning for Jerome Bona parte.

A letter from Paris to the Evening Post

says: To the great surprise of everybody, the Court has received an order to go into nin-days' mourning for Mr. Patterson Bonaparte Perhaps there would have been less amazement had this action been immediate on the announcement of the American cousin's death The true reason for the delay, however, wa that the Emperor waited the return of Plon-Plon from Switzerland before taking a step which might have been construed by that testy and disagreeable person into a slur upon his legitimacy. The story of the Patterson Bonaparte branch is well-known to all Ameri cans, and the French papers are taking every pains to make it equally current among their countrymen. Plon Plon apparently agreed at once with the Emperor, who put it on the ground that "this tribute of respec to a nephew of his uncle would be personally a satisfaction de cour himself,' but the Prince was seriously raged, and, as he always does when in a bad humor, went on board his yacht and put out to sea. He was fortunate in engaging twelve Chinese at New Orleans, who had served eight years under coolie contracts in Cuba, and were experienced in plantation work. To were experienced in plantation work. To these hegives one-half of the profits over all the these hegives one-half of the profits over all the expenses; supplying mules and the other working capital, and advancing means for supplies as wanted. His Swedish em-ployés, but few in number, were obtained in New Orleans, where he found them out of work, and glad to accept the same terms that he made with the negroes. These terms, as also those with the Chinese, are considered by all hands very liberal; and if the cotton crop turns out as well as expected, they will each make a handsome sum of money during the season. The Swedes, though not as skill-ful in the use of the hoe (for want of prac-

ful in the use of the hoe (for want of prac-

ice) as the Chinese and negroes, are in other respects the best hands. They cul-tivate thoroughly and carefully, keep the nules in fine condition, and take good care of the tools. The climate and the labor seem to agree with them perfectly. But, of course, a large supply of Swedes or other white laborers from any part of the world cannot be depended on, although their remunera-tion in a good season would be am-ple. Next in order of value stand the Chinese—and these employed in the case under notice are decidedly inferior to the Celestials more recently imported direct from Hong Kong. They are fully as industrious as the negroes, neater in details, belter mechanics, and in all respects more satisfactory. In the use of liquor they are more temperate than the blacks. It should be said that the freedmen do onach more work when Chinescore others are competing with them (on 'separate portions' of estates, however, since it is not deemed expedient to have them labor together.) A last year, when the negroes had a monopoly of the work, our informant had occasion to find much isolit with their informant and others. nuch fault with their idleness and shiftles-ness and carelessness. This year they are doing their best, under the stimulant of competition—which we take to be

to by Chiproof that the importation of Chi-ese to the South will have a good effect in bringing out the industrial resources of the educen. Subsequent to the engagement of three classes under mention, the same reedmen. danter hired eight Pennsylvania farm hands but for some reason they have not taken rea-ily to cotton culture, though he has not tried thene long enough to determine their real then tong enough to determine their real worth for that business, as compared with the others. This gentleman, like other planters in the same region, is im-pressed with the desirability of im-porting as many Chinese as possible. Wher-ever they have been set at work in the South 'bey are doing well. The Arkaness Associathey are doing well. The Arkausas Associathey are doing wen. The Arkansas Associa-tion report very favorably on the success of their importation. Hon. Oakes Ames, who has a sugar plantation near New Orleans, has just received one hundred and fifty Chinamen direct from Hong Kong. A large influx of the same race may be expected during the year. Our informant says that the cotton crop.

for such is his reputation, is frightfully jealous of his rights and prerogatives, but knows that his claims to rank and title were only countenanced because of the complications which might have resulted from a recognition of the American son of old Jerome, yet he lords it as though he were the heir apparent to the French throne, and as if there was no Prince Imperial in existence.

#### CITY NOTICES.

A NEW ENTERPRISE.-The intensely hot A NEW ENTERIPRISE.—The intensely hot weather of the past few weeks has given rise to a new idea in demestic economy, i.e., that of bottling up the heat in self-sealing cans for winter use. This, it is claimed, would ethed to moderate the temperature at the present time, and in view of the high rates which rule for coal would etherwise seem to be a desideratum. But we have no faith in the enterprise, and would advise our readers to supply themselves with good old fashioned Anthracite, such as our friends, Mesers.
