State of Thermometer This Day at the Bulletin Office. 107A. M...... 85 deg. 12 M.......87 deg. 2 P. M......88 deg. Weather clear. Wind Southwest.

LOCAL CHOWDER.-Fairmount and vicinity are full of young sparrows, still in the nest. The linds are said to be the second brood of the season. They grow exceedingly fast. The carlier fiedglings are nearly of the size of the parent birds. Their tameness, unlike that of the animals on Selkirk's island, is not shockthe animas of Scientiff's island, is not "stock their bar as regularly as the canary in his cage. Wherever water is procurable these feathered folk may be relied upon as permanent settlement.

-Woodcock are in market. They retail at 75 cents each. As two of them are little enough for a breakfast our long-nosed friends may be set down as somewhat expensive eat-ing. In this vicinity the woodcock is pretty nearly exterminated. He takes about as much comfort as an English hare when outside of a nobleman's preserve. At present the markets are bare of game, and game depots are such

only in name.

—The fraternity of commercial travelers provided with samples of woolen textiles in provided with samples of woolen textiles in winter colors are already on the movel. The specimens of domestic dress goods thus far shown point plainly toward a prevalence of plaids. Retail dry goods trade is extremely dull—Dealers are working off-stock as low appossible, irrespective of cost. If any one has a loose bundred or so the opportunity for wisely investing it in lawns, organdles and other delicate tissues, of a style that must always be appropriate, is precisely the present moment.

-Part of a human skeleton was brought to light this morning from the rubbish of a rag cellar at the corner of Jayne and Decatur streets. They were coolly thrown into the highway. The sight of human remains, under any circumstances, causes an involuntary and yet not unmauly shudder. To see them exposed in the cartway is simply shocking. The cellar is said, long years ago, to have been in the occupancy of a physician. As the skull and upper portion of the trunk is missing, the inference is that the remains are those of some

Interence is that the remains are mose of some long-forgotten subject of the dissecting scalpel.

—To witness the transit of Venus it isn't necessary to go to the middle of the ocean. Our reporter sometimes witnesses that phenomenon a dozen times a day. It took place nomenon a dozen times a day. It took place no less than twice this morning. It came of immediately in front of the BULLETIN BULLDING. It crossed Chestnut street in all the splendor of azure lawn, and eyes to match. It was plainly visible to the naked eye. The Venus in question appeared to be about 20 years of age, with lips like a bursting rosebud, and a style of cheeks that would cause a japonica to hide its head.

-A chronic eye-sore, in the shape of a di lapidated building at Ridge road and Button-wood streets, is in rapid course of removal. The old building has listed, and its roof tree

The old building has listed, and its roof tree was awry and askant. It will give place to a handsome store. The lot is 28x67 feet in area. The front, which is upon Ridge road, will be converted into an ornament to the neighborhood. The author of the improvement is Mr. Joseph Lewis.

—When iron comes into question the position of Philadelphia is impregnable. To the U.S. Arsenal at Springfield, Mass., to Chicago, for its splendid Court House, and to Danville, Pa., for its Hospital for the Insane, is now being shipped the Gilbert corrugated iron ceiling, every foot of which is made by artisans of Philadelphia. This particular branch of iron manufacture is in constant branch of iron manufacture is in constant operation. The utmost diligence and push are necessary to keep up with the demand. The new Court House at Reading has just been furnished with it.

THE WATER SUPPLY.-The long spell of hot and dry weather has caused apprehensions of another-scarcity-in-the-supply-of-water similar to that during the drought which presided that summer. These fews have been somewhat heightened by the appearance of the dam at Fairmount. No water has passed over this structure for several days past. This is caused, however, by an extra strip having been placed on top of the dam within a week been placed on top of the dam within a week past. This retains the water, and there is now seven inches more than formerly. Therefore people should not be alarmed when they see the dam perfectly dry. The Schuylkill Navigation Company has placed a similar strip on the dam at Manayunk, and this causes a shortness of the supply of water at Fairmount at nights and during Sundays, when the mills at Manayunk and vicinity are closed.

The new Cornish engine which has been erected at the Spring Garden Works since

The new Cornish engine which has been erected at the Spring Garden Works since last summer, is now pumping about eight millions of gallons of water per day. The old Cornish engine, at the same works, which was out of order during the trouble of last summer, is now in good condition. In addition to these engines, there are two others, which are held in reserve, and only worked occasionally. They can be brought into requisition at any time. sition at any time. The new turbine wheel, at Fairmount, has

been in operation about a month. It is capable of pumping about eight millions of gallons of water per day.
With these additional facilities for obtaining

a supply of water, there is no more room for storage than there was last summer. The new Worthington engine at Belmont will commence operations next week. It will pump about five millions of gallons per day, and is intended to supply the residents of West Philadelphia. One section of the large reservoir near George's Hill is completed, and at the present time is capable of holding six-teen feet of water. Its capacity is to be in-creased, however.

The rain of last evening had a beneficial effect on the water-supply, and to-day there is about one inch more of water in the river than there was yesterday morning.

ALLEGED Systematic Violation of Revenue Laws.—Before Commissioner Biddle, this morning, Guither Allstaedt was arraigned. The charge was that he had reduced to a science the art of defrauding the government of revenue by the sale of stamps upon cigars. Many little consistent has upon cigars. Many little operators have lately been gobbled up by the authorities These victims were impecumous people who operated in garret rooms, and who operated in garret rooms, and who sold the products of their daily labor—as one of the unfortunates recently admitted—"whenever or wherever I can." The authorities were satisfied that at some head centre they were sure of a market for their unstamped productions from the raw material. Mr. Peter Lane, Assistant Assesso. of the Third District, undertook to solve the knotty problem. What he now thinks is that he has done so. He communicated with the Collector of the District, Mr. George C. Evans. Collector of the District, Mr. George C. Evans. The result was visits to No. 90st Ridge avenue. At this point Mr. All-staedt had a flourishing cigar store. His premises and himself were alike seized A large quantity of cigars, in bundles, and of course turstamped, were found upon the premises. At the hearing this morning he interposed not a syllable. When invited to interrogate Collector Evans he sullenly declined to do so. From the large gathering of certain class of people, has excited no little

LARCENY OF A HORST AND WAGON.—Two boys named Henry Jones and Michal Creador boys named Henry Jones and Michal Creadon were before Alderman Becker this morning upon the charge of the larceny of a horse and wagon; valued at about \$150, the property of Richard Thatcher, of Darby, Delaware county Mr. Thatcher left his team in Strawberry street and engaged the accused to take charge of it. When he returned it was missing. The young sters drove to Chestnut Hill, and offered to sell it for \$59. As the price was extremely low it created suspicion. In the meantime Mr. Thatcher had left word of his loss at the created suspicion. In the meantime Mr. Thatcher had left word of his loss at the Central station. The accused were arrested by reserve officer Roach and policeman George E. Styer of the Fourteenth district. They were committed for trial.

. THE LATE FIRE.—The portions of the walls of the Pennsylvania Steam Sugar Refinery at Crown and Race streets, which remain standing, are in a dangerous condition, and in order to prevent accidents, the Chief of Police has

ropes across the street. This prevents travel and is a serious inconvenience to many perons. Chief Mulholland has made various sons. Chief Mulholland has made various efforts to have the walls taken down. Messrs. Newhall,—Borio-&-Co. refuse—to have the walls removed without the permission of the insurance companies. The insurance agents won't assent to the removal of the walls for fear that any interference with the building at this time might vitiate the policies. The his time might vitiate the policies. The Chief has therefore called upon the Building Inspectors to take charge of the matter. These gentlemen are to hold a meeting this afternoon, when, it is probable, the dangerous walls will be condemned, and an order for heir immediate removal will be issued.

MILITARY VISITORS.—The Fifth Regiment MILITARY VISITORS.—The Fifth Regiment Maryland National Guards will leave camp at Cape May to-morrow morning, and will come to the city by a special train, arriving at the West Jersey ferry at 10½ o'clock A. M. They will then be met by the Second Regiment (National Guards), Lieut. Col. Harmanus Neff commanding, and will march up Market to Eighth, up Eighth to Race, and thence to Franklin Square, where they will stack arms. Then they will be given a banquet in National Guards' Hall, after which the line of march will be taken up, and they will proceed over will be taken up, and they will proceed over the following route: Down Sixth to Walnut, up Walnut to Thirteenth, down Thirteenth to Locust, up Locust (passing the residence of Locust, up Locust (passing the residence of Gen. Robert Patterson) to Broad, and thence

to the Baltimore depot. The National Guards are ordered to assem-de at the armory to-morrow morning at 91 o'clock, in full-dress uniform.

NEW YORK PICKPOCKET" NAILED "AT AT LANTIC CITY.—On Wednesday, July 27, on the arrival from this city of an excursion, at the new Excursion House, Atlantic City, De tective Officer John McKibben detected a wo man in the act of removing a pocket-book from the pocket of an elderly lady, and at once arrested her. She proved to be Mary Ann Taylor, a noted New York pickpocket. The culprit was taken before Mayor Gardner, who, after hearing the testimony, committed Mary Ann to jail to await trial at the September term of the Chiminal Court of Atlantic her term of the Criminal Court of Atlantic county.

BASE BALL VS. CRICKET.—The return game between the Olympic and a nine from the members of the Germantown and Young America Cricket Clubs, was played on the Germantown grounds yesterday, and again resulted in favor of the cricketers by a score resulted in favor of the chartest  $2.3 \times 10^{-2}$  of 37 to 5 at the end of the sixth innings.

FIRE AT CHESTNUT HILL.-Last evening, about half-past nine o'clock, a large stone dwelling-house, located above Chestnut Hill, the insurance of \$3,500. The fire is upposed to have been the work of an incon-

Run Over.-Andrew Jordan, aged nineteen years, was run over by a cart at Delaware avenue and Poplar street this morning and was seriously injured. He was removed to his esidence, Frankford road and Huntingdon treet.

ROBBING A FELLOW WORKMAN.-Joseph Gwin, a shoemaker employed in an establish ment No. 419 Arch street, was arrested yester day upon the charge of having stolen a silver watch belonging to a fellow workman. Alder-man Quirk held him in \$600 bad for trial.

WIFE BEATERS.-John Fejeton, residing n Jones's alley, Eleventh Ward; Casper deiss, 926 Cumberland street, and James Mc Cahen, Fisher street, Twenty-lifth Ward, were ach held to bail this morning upon the charge of assault and battery on their wives.

House Robbery.—John Sheridan has been committed by Ald. Thompson to answer the harge of having broken into the house of Wm. Welsh, on-Cotton street, Manayunk, and having stolen therefrom \$60 in gold, on the 7th inst.

CRUELTY.—Jacob Herman was arrested at Manayunk for cruelty to animals, in driving a horse which had a sore shoulder. He was taken before Alderman Thompson, who charged him \$12 50 as fine and costs.

DEAD BODY FOUND.—The body of a boy named Jeremiah Ryan was found last night on the Limekiln road, by Watchman Douglass, attached to the Park Guard.

SWIMMERS ARRESTED.—Three more swimmers were arrested yesterday by the Schuylkill Harbor Police. They were all fined.

CAMP-MEETING AT LONG BRANCH.—While the sporting world is flocking to Long Branch to witness the vaces, the Methodist religious world is flocking thither, attracted by a great camp-meeting at Ocean Grove, a beautiful piece of woods within easy distance of the fashionable watering-place. The Camden and Amboy Company have arranged to accommodate those desiring to visit this camp-meeting with excursion tickets, by the two trains, leaving Walnut street at 7 A. M. and 3.30 P. M., including stage fare to the Grove, for \$5 25 for the round trip.

THE DOTY WASHING MACHINE is, in our opinion, not equalled by any rival now before the public. Its strong points are cheapness, implicity of construction, ease of operation, durability, and working on the fulling mill principle, i.e., squeezing and not rubbing. There is considerable less wear and tear of garments than in the old-fashioned system of wash-hoard and knuckles. In fact, we question if the saving thus secured would not be ufficient even in a small family, to pay the cost of a Doty in the space of a single season.—
N. Y. World, March 30, 1870.

ATLANTIC CITY.-For the information of those who wish to visit the seashore, we will inform them that the Camden and Atlantic Railroad are now running five trains daily to he City by the Sea, one at 8.00 and at 9.15 A. M., and at 4.15 P. M. In addition to these, the ast train (through in one hour and three quarters) is now running, leaving Vine street wharf at 2.00 and 3.15 P. M., and on Saturdays only an additional fast express train leaves at 2 o'clock P. M.. The Surday train will be run as usual, leaving Vine street wharf at 8 A. M. Iteturning, leaves Atlantic at 4 P. M.

CAPE MAY.-The season at this favorit watering place is now about at its height, and presents many attractions. The hotels are well filled, and promise, notwithstanding their xtensive enlargements and additions, to find xtensive enlargements and additions, to find visitors for every available space. The fast express train, by the West Jersey Railroad, eaving Philadelphia at 4 o'clock P. M., this tternoon, makes no stops for passengers between Philadelphia and Cape May. The mail rain leaves on Sunday at 7.15 A. M., reurning at 5.10 P. M. Fair for round trip mly 85.

A Good Hotel.-The Ocean House located of the upper end of Atlantic City, near Congress Hall, and in close proximity to the each, is one of the finest and best conducted hotels in the City by the Sea. Hinkle & Boardman are the proprietors, and Mr. Boardman devotes his entire attention to the comfort and welfare of his guests. There is no bar attached to the house, which fact makes it-pleasant for ladics and children. The Patent Life Lines have been put up for the accom-inodation of bathers directly in front of the

THE MONMOUTH PARK RACES.—The grand Branch, will commence to morrow afterhoon, and be continued on Tuesday, Wednesday, Thursday and Saturday of next week. The trains of the Camden and Amboy Railroad Company leave Walnut street wharf at seven o'clock A. M. and half-past three o'clock P. M., stopping at the entrance of the Park, on returning, at three-quarters past eight o'clock A. M. and twenty minutes past six o'clock P. M. Fare for the round trip, \$3 50.

The Columbia House, Cape May, is full. Still there is room for a few more. Mr. Bol-Still there is room for a few more. Mr. ton will accommodate all of his patrons.
