CONSOLIDATION OF MUSICAL SOCIETIES .-For some time past negotiations have been in progress for the consolidation of the Männer-chor and the Junger Männerchor, two of the most prominent German musical societies in most prominent German musical societies in the city. Each society appointed a committee of twelve members, and the joint committee so created has had several meetings on the subject. All of the preliminaries for the consolidation have been satisfactorily arranged To agree upon the name for the new society was the most difficult task of the committee was the most difficult task of the committee, Neither society seemed willing to give up the title by which it had been so long and favorably known. Finally "The Old and Young Männerchor" was agreed upon as the future cognomen. Both societies will hold meetings this evening to ratify the proceedings of the committees. The Männerchor is composed of about 60 singers and 500 contributing members, and the Junger Männerchor hashout 75 singers and 700 contributing memabout 75 singers and 700 contributing mem bers. Both societies are celebrated for their excellent singing, and each possesses a number of prizes gained at different sängerfests. When consolidated the society will be one of the strongest and best of the kind in this country. Mr. Wm. Hartmann, who, as the leader of the Junger Männerchor, has contributed so much to its encours is to be the tributed so much to its success, is to be the leader of the new organization. It is very probable that a large and well-appointed music hall will be erected by the Society.

HEAVY RAIN.-The farmers have been com plaining for some time past of the want of rain. The ground had become thoroughly parched and everything appeared to be drying up. There were also some indications of a scarcity of water in the Schuylkill. Relief has come at last, however. Rain commenced to fall very heavily at an early hour, and continued to come down for several hours. As the price of eggs and butter has been mate-rially advanced in consequence of the threatened drought, it remains to be seen whether the farmers will make any change now that they have had plenty of rain.

### SINGULAR ACCIDENT.

Killed by Lightning.

The Worcester Spy says:
"At about three o'clock Thursday afternoon. "At about three o'clock Thursday afternoon, during the thunder shower, a double house on Mitchell street, South Worcester, belonging to Hugh Rourke, and occupied by Minseh and Joseph Wharton, was struck by lightning on the side occupied by Mr. Wharton, and a girl named Katie Pollard was instantly killed. She was sitting on the door step at the time, and in the room was Mrs. Wharton (the girl's sister), her three children, and a brother of the girl that was killed. The fluid came down the chimney, tearing the stovepipe down as it entered the room, and turning the lids on the stove bottom side up. It passed out through the door where the girl sat, tearing the corner of the house apart and knocking down the ceiling. When the girl was struck she immediately fell back, and gave not the least sign of life. Her brother, who stood behind her a few feet, was somewhat affected, his face few feet, was somewhat affected, his face being blackened, and his eyes blinded for a while. The other inmates of the room were not seriously affected, but were somewhat

Is IT MEDICINE?-A friend of ours, who Is IT MEDICINE?—A friend of ours, who hais from one of the upper districts of South Carolina, alled at the Pick office, and among other novelties, he mentioned "Wolfe's Aromatic Schiedam Schnupps, and stated as a fact, that in his section of the country, nearly all of the physicians, in criain cases, when they deemed ardent spirits necessary to prolong or save life, invariably used these "Schnapps," justly regarding it as the only spirits that could be procured pure and unabulterated. He also stated that this medicine or "Schnapps" was becoming the only leverage sold on the great stage or railroad routes. He says those physicians who have used and analyzed it, state that for diseases such as gravel, gout, rhoumatism, &c., it is the comparable.
