Strasbourg has been commenced from the Prussian batteries posted upon the right. The Prefect of Strasbourg and the Commandant of the French forces garrisoning the city having refused to listen to a summons to surrender, heavy siege cannon have been entrenched at the bridge-head of Kiel and at other points upon the river bank opposite Strasbourg, and yesterday morning the batteries opened fire upon Strasbourg with effectiveness. The garrison of Strasbourg are slowly reply ing, evidently reserving their fire, from the

citadel and batteries upon the water front. The French Demands in Case of Victory London, August 20th.—It is reported that the Prussian Government will shortly publish a fac simile of a document detailing the claims which France intended to advance in case she should prove victorious in the war, with should prove victorious in the war, with Prussia, to justify Prussia's determination to demand the annexation of the Provinces of Alsace and Lorraine to the Grand Duchy of Baden.

No War News in Paris...Telegraphic Communication Stopped. London, Aug. 20, Noon.-The French official journals of Paris, this morning, are devoid of news of army movements. Even the Journal Official contains nothing relating to war news.

It is too evident from this barrenness of information in the Paris press that telegraphic communication has been destroyed between that city and the Emperor's headquarters at Chalons and Bazaine's position near Metz, possibly by detachments from Frederick William's corps of Prussians.

Battle Near Chalons Imminent. A rumor was in circulation last night in this city that a battle was imminent between the vanguard of the Prussian forces under the Crown Prince and the French under Marshall MacMahon, in the vicinity of Chalonsshal MacMahon, in the vicinity of ChalonsMark MacMahon, in the vicin Health of Napoleon. BRUSSELS, Aug. 20.-The Etoile Belge has

posted an extra announcing that the Emperor Napoleon was taken extremely ill on Wednesday, on his arrival at Chalons, and that it is

cut by the Prussians. Unfounded Rumors.

Reports of the death of the Emperor Napoleon have reached Paris, but they meet with no credence whatever. The people of Paris lisbelieve these rumors.

condition of trustfulness in which almost any startling agnanouncement would obtain credence, was greatly agitated this morning by the statement which appeared in the morning papers, in the shape of a telegram, of the serious and, it was feared, dangerous illness of Commodore Vanderbilt, at present sojourning at Baratoga. At irist very few thought of questioning the truth of the report, and ageneral rush was made by the holders of Vanderbilt stocks to sell, in the expectation that upon the removal of the great director from the control of the roads represented by these stocks the latter would suffer a rapid depicciation, if it were only temporarily. The result was a sharp decline, and the stock market opened excited, with a generally bearish feeling, particularly exhibited in New York Central Comodidated, do. scrip and Lake Shore. The first sale of Central was two per cent. off the closing price of last night scrip 1½ and Lake Shore 1 per cent. The other active shares of the list were in sympathy with this movement and mostly lower. European cable advices were without much influence upon the markets, even of gold and governments. The war news is still of that puzzling character as to present altogether too intricate a problem for average human intelligence in determining the precise. results of the conflict thus far, or with any degree of satisfaction; that is, such a conviction as to encourage investment— who's ahead?" Dealings are consequently upon a very restrictive scale, the expectation of decisive news at an early day and tho gravity of the situation deterring even the boldest operators from extended ventures.
