As it is, the trains come in lightly laden. That to-morrow they will carry away full freights of recreation-seekers may be set down as highly probable.

—The arrivals of fruit in our markets were never greater than during yesterday and today. The market at Delaware avenue is a literal Malakoff of fruit and vegetable baskets, lip-full of all the products of the season. This so much was the case this morning as at times to render the thoroughfare impassable. The peach trade is nearly at its height. The price varies, according to quality up to \$3 00 per basket. trade is nearly at its height. The price varies, according to quality, up to \$3 00 per basket. The article bringing the latter figure is extremely fine. Watermelous sell at from \$14 to \$26 a hundred. Canteloupes at from 40 to 80c. a basket. The latter is the price of selected fruit. Plums reach us in limited quantities; the greengage is supplied only in diminutive lots, and at fanciful prices. In the prices of meat and poultry there is no change. Until the close of the season at the watering-places no change in them is to be expected.

no charge in them is to be expected.

—At the Commercial Exchange rooms this morning the attendance was probably the slenderest of the season. As a matter of course its transactions were exceedingly light. A few weeks more and the members will again re-occupy their splendid building, so unfortunately eviscerated by fire. By fishing for them with nets the prolific fishing shallows at Long Beach and Tuckerton have been nearly depopulated—The watches that took the prize at the World's Exposition were the production of Humbert Ramuz. They have just been introduced into this city by Messrs. C. & A. Pequinot, No. 608 Chestnut street. That any more claborate piece of mechanism was ever contrived may be set down as doubtful. They not only wind and set the hands from the stem, but they strike the hour. Not only this, they strike at the touch the quarter, half and three-quarter hours, and the number of minutes beyond either point that are indicated by the minute hand. A blind man can tell the exact time by them as well as a man who can see. The Messrs. Pequinot are ready to resee. The Messrs. Pequinot are ready to receive orders for these watches. The price of the sample shown to us is \$500. The Messrs. Pequinot carry on, at Fifth and Minor streets, upon an extensive scale, the manufacture of watch-cases of every desirable description.

The bath-house located at Otis street wharf broke from its moorings, yesterday afternoon and floated down the river as far as Poin Airy, but was towed back to its place. The bathers were all enjoying themselves in the house at the time of the trip down stream.

THIEF CAPTURED-PRESENCE OF MIND OF A WOMAN.—The dwelling of Mr. Nathaniel Fry, No. 1012 Fitzwater street, was entered by a thief, who sneaked through a door last evening. Mrs. Fry had occasion to go up stairs during the evening. She heard a noise in the bed-chamber, and took a hasry glance around the room. Lying at the foot of the bed she espied a pair of boots which did not belong there, and it was evident that a man was concepted under the bod. At this time was concealed under the bed. At this time Mrs. Fry displayed great presence of mind Instead of fainting or making an outery, she instead of fainting or making an outery, she got what she wanted, and quietly left the room. She proceeded to the front door, and called in Policeman Lare. He captured the owner of the mysterious boots. The prisoner gave his name as John Frengs. In his pockets were found some money and several articles of jewelry, which belonged in the house. There were also found under the hed a bundle of clothing, which had been packed up ready for removal. Frengs will have a hearing at the Central Station this afternoon.

MAN DROWNED.—William F. Keepers, aged21 years, a tinsmith, residing on Seventeenth
street, below Master, went to the Falls of
Schuylkill on Thursday evening. He had
made some sort of an apparatus to attract the
attention of fish so that they could be more
readily caught. He desired to try this contrivance, and, as he's wished to keep the matter got a boat and rowed out on the river. While there, engaged in fixing his

An ELEGANT AND SUBSTANTIAL IMPROVEMENT.—Mr.J. E. Gould, the well-known Pilano Dealer, No. 923 Chestnut street, has just completed an extensive and elegant addition and improvement to his already ample warerooms. The rapidly increasing sales of George Steck & Co.'s and Haines Bros. Pianos, and the popular Mason & Hamlin (Boston) Cabinet Organs, have compelled an enlargement of facilities, which comprises the entire second-story ties, which comprises the entire second-story front of the building now occupied by him. This upper apartment has been fitted up with exquisite taste; its walls papered deep blue, with parallel gold stripes at intervals of several feet; while a row of supporting white pillars adds a substantial effect to the ensemble. Customers enter the new wareroom through a wide and newly improvised doorway on the first floor, and passing up a short and convenient stairway find themselves in the midst of a splendid stock of instruments, whose general style and finish are seen to great advantage. rai style and minish are seen to give a tarting in the brilliant sunlight that streams into the spacious windows. The acoustic effect of the elegant new apartment has also been well cared for; and, in short, no expense has been spared to make the entire establishment equal. spared to make the entire establishment equals if not superior, to anything of the kind in this country. An immense stock of personally selected instruments will be constantly offered at nearly the same as in old times.

TRUE HEROISM. A Cambria County Ida Lewis.

We take the following item from the Johnstown Democrat:

Instances of genuine heroism often happen that the world knows little or nothing of. An instance has been brought to our attention which occurred quite recently at Sulphur spring, near the Somerset county line and which is worthy of note. Carrie S., aged seven years, the little daughter of Mr. Joseph Lare, of the Pittsburgh Post, along with her mother had been stopping near that place for several weeks, and one day last week she, in company with a young lady and Miss Emma, daughter of Joseph Orris, Esq., of Scald Level, this county, aged about thirteen years, were rossing a brook at a shallow place to get to the spring, when the child slipped upon the mossy rocks and was rapidly drifted by the current into deep water. The young woman at once plunged into the water to rescue the little girl, but, being unable to swim, they were both in imminent danger of drowning. The girl Emma Orris, a good swimmer, with great coolness and remarkable presence of mind, hurried further down the stream and, venturing boldly to the rescue, succeeded after they had sank twice in saving both from a watery We take the following item from the Johnshurried further down the stream and, venturing boldly to the rescue, succeeded after they had sank twice in saving both from a watery grave. The gratitude of the parents towards this heroic and self-sacrificing little girl can readily be imagined, and a few days ago a beautifully-wrought solid silver cup, appropriately inscribed, from the parents of Carrie, was presented to Miss Orris as an acknowledgment of her bravery and successful efforts. We are proped of Miss Orris as a daughter of Camre proud of Miss Orris as a daughter of Cambria county.

A QUERY AND AN ANSWER.-What is the difference between the Prince of Wales, the son of Esau, an orphan, and a baby? Answer-One is an HETR APPARENT, the next a HAIRY PARENT, the next has NARY PARENT, and the last NARY A HAIR APPARENT. There is a rest difference in the quality of Coal that you get. Some of it contains so much slate and dust as to clog up the grate. The Latest Fashionable Beverage.—A furnishing store in this city advortises a new style of cravatas "the latest fashion for the throat." This may be the latest style for the outside of that organ, but a fashion for the inside has just come up which is twice as popular. Somebody has found out that Schiedam Schnapps improve soda water, and everybody acquiesces in the arrangement. Although somewhat conservative by nature, we are not eppesed to progress, and conceiving it our solemn duty, as a public journalist, to uscertain whether Schnapps Soda Water was a proper thing to be recommended to our subscribers, we tried it. The result may be stated in a few words: The mixture is good to take, and, if our stomach is like stomachs in general, it is congenial to that part of the human organization. The pancers attending the use of coal oil is

Sinday Conter.

The danger attending the use of coal oil is by most people but imperfectly understood; those who have never met with an accident give themselves no concern, heedless that at any moment the most serious consequences may befall them. Ordinary refined petroleum may be safe, if very carefully used, and no account made of possible accidents; but if the oil becomes heated (and all lamps become more or less heated while burning), and the lamp is uppet and broken, the flame coming in contact with the warm oil, it will ignite like the old-fashioued burning fluid. In this is one superiority of PRATT'S ASTRAL OIL; for, if a lighted lamp, filled with this oil, is upset and broken, the contents will not explode nor take fire.

The American Astriculturist says: "One of our associates had a glass wail-hunp, filled with this oil, fall from its fastenings last week. It broke, and the oil, with the burning wick in it, spread over the floor; but no burning of the oil occurred beyond the wick. He would not use any other oil now if this cost \$55 a gallom—nor would we.
